New England Mutual Life Ins.,

Of Boston, Mass., Chartered in 1843,

Capital and accumulation, $650,000.

THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be pecuniarily interested in the company, *and they give it their personal attention;* and bonds of sufficient security are given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.

THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST,

THE MADISON MUTUAL,

LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected POSITIVELY, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss,* though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

New England Mutual Life Ins.,

Of Boston, Mass., Chartered in 1843,

Capital and accumulation, $650,000.

THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be pecuniarily interested in the company, and they give it their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

WILLARD PHILLIPS, President; B. F. STEVENS, Sec'y;

Highly Important to Farmers.

THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST,

THE MADISON MUTUAL,

LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected POSITIVELY, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss,* though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

New England Mutual Life Ins.,

Of Boston, Mass., Chartered in 1843,

Capital and accumulation, $650,000.

THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be pecuniarily interested in the company, and they give it their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.

THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST,

THE MADISON MUTUAL,

LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by letting them alone.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss,* though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The Daily Gazette.

JANESVILLE : : : : WISCONSIN.

FRIDAY MORNING, AUG. 11, 1854.

For telegraphic news see third page.

☞ It is just nine years this eleventh day of August since the first number of the Janesville Gazette was issued. It was then a six column paper, little larger than the present daily, and its subscription list hardly numbered three hundred names. It has been enlarged twice since that. There were no papers published in the state then except at Milwaukee, Racine, Southport, Waukesha, Green Bay, Madison and Mineral Point, but very soon after, the Western Star was started at Elkhorn. Now almost every county in the state has its paper, and many of them several. The population of Janesville at that time was about one thousand; now it is about six thousand. There were scarcely half a dozen houses upon the west side of the river, and Monterey was an entire wilderness. There was plenty of land to be had at government price within two or three miles of the village, and village lots were selling at from thirty to fifty dollars per lot. One school house served the whole village not only for schools, but it was used Sundays for a church, there being no church building in the town.

Those who have preserved a full file of the Gazette, have the best record to be had, of passing events in the town, county and other portions of the state. It contains the number of inhabitants of the town taken at various times, showing the rate of increase; full statistics of the business of Janesville at different periods; a history of the settlement of the several towns in this and adjoining counties, and a thousand other statements and facts, invaluable for future reference.

PRESIDENT'S VETO.—Our exchanges brought us yesterday the veto of president Pierce of the river and harbor bill. Alleged reason—want of time to consider and examine its provisions; real reason—hostility to the enterprises and subserviency to the south. The president promises to send in to congress when it assembles again, his views at length, and "endeavor to define approximately, at least, and according to my own convictions, what appropriations of this nature by the general government the great interests of the United States require, the constitution will admit and sanction, in case no substitute should be devised capable of reconciling the differences both of constitutionality and expediency." We humbly submit that this promised message is wholly unnecessary, and the attempt to establish the unconstitutionality and inexpediency of meagre appropriations to western rivers and harbors, while $150,000 can be given to a river in Virginia, and millions lavished upon wealthy steamship companies on the Atlantic, is simply absurd. The present administration has need of the help of no such insult to common sense to bury it beneath the curses of of the people.

DEFEAT OF COL. BENTON.—The St. Louis papers report the probable defeat of Col. Benton as a representative in congress by Mr. Kennett, the whig candidate. We record this with unfeigned regret. There has been much in former contests between the whig and democratic parties to engender a bitter feeling towards Col. Benton among those against whom he was then arrayed, and there is little in his personal character and bearing to concilitate an opposition once aroused. Yet we hoped he would be sustained on the issue in which he was now more directly before the people of his district, and had we been voters there we should most assuredly have overlooked the past and forgotten at least long enough to have voted for him the contentions of other days. The moral effect of his election, in rebuking a gross violation of plighted faith by the people of a state so intimately involved as Missouri, would have been most salutary, and should have outweighed any personal or party considerations.

☞ The Milwaukee and Mississippi railroad company are constructing a round house at Madison, with Milwaukee brick. The Journal says that a number of warehouses and other buildings are also going up in the vicinity, and there will soon be quite a village about the depot.

☞ The Minnesota land bill was repealed and the pending grants before congress were not acted on. Among the bills which failed were the Texas debt, $8,500,000; French spoliation, $5,000,000; Ocean steamship, $850,000; the Pacific railroad and telegraph; Shanghai steamship; Ramsey California mail route and weekly California mail.

The Waukesha Plain Dealer says that Albert J. Tirrill who murdered Maria Bickford, was formerly a clerk for Solomon Juneau of Milwaukee, and was the first merchant who ever sold goods in Waukesha. He kept a small store for Mr. Juneau, near where the Catholic church now stands.

PINE LUMBER.—Mr. Norris' steam mill has been for some time in full operation sawing his pine lumber. Mr. George Richards, who has been for three years in the employment of Mr. Norris, has the credit of rafting and sawing the first pine log brought to this section of the country.

☞ The number of passengers arriving at Milwaukee in July was 8,708.

☞ It is said that foreigners own one hundred and forty millions of dollars worth of railroad and other stocks in the United States.

The whigs of the fourth congressional district of Maine, have nominated the Hon. S. P. Benson candidate for re-election to the U. S. house of representatives. There was no opposition manifested at the convention.

The Position of our Supreme Court.

An article under this caption appeared in the Standard of yesterday, from which it seems that after the publication of the opinions of the judges on Booth's second application for a habeas corpus, there are still those who think the court has involved itself, by its second decision, in legal and logical difficulties; and it is to those who admit the propriety of the first decision, but are staggared at the second, that I wish to address a few words.

The main questions presented in the first decision were these: 1st, Ought the writ to have issued? and this question being settled affirmatively, 2d, Ought the prisoner to be discharged?

In dertermining the first question the court reasoned in this manner:

The rule that the court whose jurisdiction first attaches to a case will retain it, notwithstanding proceedings may be subsequently commenced, in other courts of concurrent jurisdiction, cannot apply in this case to prevent the issuing of a writ of habeas corpus by a justice of this court, since a commissioner is not an officer of the courts of the United States, for though appointed by the judges of those courts, neither the courts or judges are responsible for his acts; his powers and duties being particularly prescribed in the acts of congress, and a commissioner cannot with any propriety be called a judicial officer. But apart from any considerations of the powers of commissioners to bring the case within the rule, it must appear, that the district court of the United States had the case pending before it which was made by the issuing and serving of the writ of habeas corpus; that the question of the legality of the imprisonment of the petitioner was then pending before that court, and this the facts in the case do not show; they merely show the ordinary case of a person imprisoned under color of legal process for an alleged offence. In such cases the investigation of the legality of his imprisonment does not necessarily involve an enquiry into the question of his guilt or innocence, or of his liability to be held to answer for the alleged offence. It is not material for the present purpose to examine the reasons which governed the court in deciding the second branch of the case, since we are only enquiring why, if the issuing of the habeas corpus was proper in the first case, was it not proper in the second.

Very vague notions of the office of the writ of habeas corpus are entertained even among lawyers; and so late as the famous McLeod case, it was made a question whether it was not a part of its office to arrest the course of criminal justice by hearing without a jury, and discharging even without bail, one who has been indicted for murder and stands committed to await trial. But in that case the supreme court of the state of New York decided that proof of innocence was inadmissable after *indictment found* in a court competent to try the same, upon an application before them for the writ—and the rule is universal that after indictment found in a competent court, another court or a judge at chambers will not attempt a summary trial of an indictment, on an application for a writ of habeas corpus; for were such applications to be entertained, an indictment might be disposed of without court or jury, by the prisoner's applying to a judge at chambers, and then upon his discharge defeating the jurisdiction.

The article referred to contains some crudities which to a lawyer appear simply ridiculous.

We read for instance as follows: "Now if there is *no law*, and if the law is unconstitutional there is none, how under no law can judge Whiton's court have jusisdiction?" No one should attempt to discuss a habeas corpus case unless he is aware that it is proper for our supreme court to issue the writ, when one is imprisoned under a warrant from any officer in this state, before *indictment regularly found* when that warrant is invalid for constitutional defects. And I would suppose that any candid man, of ordinary intelligence, could see a difference between imprisonment under a pretended warrant, and imprisonment in default of bail, after an indictment is actually found in a court competent to try that indictment.

But every well read lawyer knows, that the writ never issues for the purpose of trying the *guilt or innocence* of a party, but only whether he has been *properly charged* with crime.

Now it is evident that to have allowed the writ in the second case, would have been equivalent to trying the question of Booth's guilt or innocence—for all courts hold that after indictment regularly found, the prisoner *is* properly charged, and indeed is presumed to be guilty, subject only to a fair trial before a petit jury—upon which trial he must insist upon his constitutional defences. It is enough by all authorities that an indictment has been regularly found, in a competent court, and it is idle to urge that Booth has, upon the indictment, been committed for what our supreme court has decided to be no offense, because the rule of comity referred to, and which any tyro is aware of, *concludes* our supreme court from denying that Booth is not properly charged with an offense. Those who cavil at the decision of the supreme court in Booth's case are generally those who do not understand their scope.

They are not in conflict with the decisions of the supreme court of the U. S., and should that court of last resort, rule differently when his case comes before it, our supreme court will bow to the paramount interpretation—unless they are prepared for nullification—and the jealousies which have been industriously excited against the district court, outside of our supreme court, have had no influence within it.

As Booth is now circumstanced, there is but one question in his case for disposal, and that is of his guilt or innocence—the indictment of a grand jury as already stated, having excluded the conclusion that he is not properly charged with crime, and he must now be tried by a petit jury, and not on an application for habeas corpus. Doubtless he will urge his defence at the trial in the district court, and we are bound to presume that the rulings of that court upon the constitutional questions raised will be correct.

Had our supreme court issued the writ, it would have been a nugatory act, for they would have been obliged to remand the prisoner, by the provisions of the revised statutes, chapter 124, section 18. W.

BLOODY RIOT IN ST. LOUIS.—The St. Louis papers of Tuesday morning contain full accounts of an election riot in that city on Monday, which created great excitement.

The Intelligencer says that "the difficulty commenced in the 5th ward, and was occasioned by an Irishman stabbing an American. This was the signal for a general attack, which was commenced upon the Irish dogeries on Mayor and Green streets and Washington avenue, and all on the whole front of the levee, from Cherry street to below Locust, were more or less injured. The crowd supplied themselves with axes and other implements of the sort, from the steamboats at the wharf, and with them beat in the shutters and smashed the counters and everything that would yield to blows."

The riot continued for two hours of the afternoon, and at intervals during the night. Hundreds of discharges of pistols were made and three persons are known to be killed, while a great many were wounded in various ways. The military were called out and took possession of the streets. Eight companies were out. The Intelligencer says:

"On Morgan and Green streets, extending west from Broadway, not an Irish grocery was left, all being torn to pieces, and the houses more less injured. At a rough estimate there are not less than fifty or sixty houses, chiefly Irish doggeries of the lowest order, badly damaged, and their contents destroyed. To estimate the loss we are unable, but should guess it was not much short of $50,000. All this, besides the murder and maiming, was the work of but a few hours. The police force was entirely insufficient, and for nearly three hours the excited multitude had full sway. After the the appearance of the military, comparative order was restored, but up to the hour of going to press this morning, there were small squads moving here and there, but apparently without ability to do further mischief."

The Democrat says that during the riot, the Hibernians gave battle in one case but

"The crowl of rioters increasing, they gave way and retreated to their houses between Main and the Levee in Morgan. Here for a while the mob was a scene of the wildest excitement. The Irish fired as many, perhaps, as a hundred pistol shots into the crowd, who were breaking in the doors and windows of the houses by showers of stones fron the street. At last the shooting was silenced and the mob proceeded down to the Levee and along it to Locust street, assailing every coffee house or tenement supposed to contain foreigners, with a continued storm of missiles."

After this the Irish made another stand on Second street, but were driven down past Cherry, the mob still continuing their assault upon the houses and windows.

The Democrat (Col. Benton's organ) we notice, lays the blame of the riot upon the Republican, which it says has been abusing the foreign population for a long time. We have not noticed this feature in the Republican, although it is on our exchange list: but from the tone of the Democrat, we should think that the Know-Nothings have been at their work in St. Louis as well as elsewhere, and that to them is to be ascribed the defeat of Colonel Benton, who with his friends, made a strong push for the foreign vote.—*Milwaukee Sentinel.*

DYING HARD.—The last hours of senate were occupied in the discussion of the question whether Senator Williams, of New Hampshire, was entitled to hold a seat in that body. It seems he clung to it with a death grasp, notwithstanding the committee had reported against his right, the precedents of twenty years stared him in the face, and the vote of the senate had declared him an interloper.

Having been kicked out of an executive session where he intruded himself, he next appeared as the senate was about adjourning, asking for a reconsideration of the vote, which being carried, he spoke about two hours, when the senate again voted *unanimously* that he was nothing more than a private citizen of New Hampshire!

Verily, the administration is forced into the lowest depths of humiliation. Though the people of New Hampshire have stripped the president of his constitutional advisers from that state, in the senate, the pliable spectable is presented of his confidential friend, trying to sponge into that body, cringing and crawling to his place like a reptile.

We are glad the senate acted with promptitude in the matter. Poor Senator Williams! He must feel very much like a boy when he is thrust out of a circus, for gaining admission by crawling under the canvass.—*Chicago Journal.*

INTERESTING FROM SALT LAKE.—From the Los Angelos Star we extract the following account of a treaty entered into between Gov. Young and the chiefs of the Pah Utah and Pauvan Indians.

Says that paper: We have had an interview with Mr. S. N. Carvalho, artist attached to Col. Fremont's late exploring expedition. This gentleman arrived here on the 14th inst., from Salt Lake, where he was left by the expedition on account of ill health. He states that by invitation he accompanied Governor Brigham Young, and a large party from Great Salt Lake City, on the 6th of May, for Walker's camp, on Chicken creek; that there a formal treaty of peace was entered into by Walker and Kanoshe with Gov. Young, the nature of which was, that on no occasion whatever were the Indians to make any attack either on Americans or Mormons, and that they would use all their influence to prevent any depredations on the property of emigrants or settlers. Gov. Young presented them with eighteen head of cattle, blankets, clothing, arms and ammunition, and entered into arrangements that Mr. Porter Rockwell and five other gentlemen were to reside permanently with Walker's band of Utahs, and accompany them in all their journeyings, for the purpose of protecting the lives and proyerty of the whites.

ATTACK ON THE PRESIDENT BY A DRUNKEN MAN.—A despatch from Washington, dated the 5th, states that as President Pierce was leaving the Capitol, he was followed and addressed by a man from Charleston, named Jeffards, who was intoxicated. He asked Mr. Pierce to take a drink, but he refused. Jeffards threw an egg, and knocked off the President's hat, and was arrested by an officer immediately. He sent for several persons to become his bail, but they declined. He grew outrageous in a short time, and stabbed himself in the leg.

The President declined prosecuting Jeffards, and he was discharged.

THE GREATEST SCHEME OF MODERN TIMES—AN EMPIRE GIVEN TO A RAILROAD COMPANY.—A few days ago, Mr. Robert J. Walker, late secretary of the treasury, passed through our city on his way to Texas, bearing with him one million of dollars in Texas bonds, valued, according to the Texas gradation, at $300,000. This sum is to be deposited in the hands of the governor of Texas, in behalf of the Grand Pacific railroad, of which Mr. Walker is a stockholder to the amount of ten millions, and various other citizens—including the Rev. Counsellor Joel G. Sever, late of this city, whose stock only amounts to the modest sum of $500,000—own immense amounts.

Now, extravagant as this whole scheme has seemed, Mr. Walker by his address, skill and management, and without any violation of any law or other impropriety, has placed in a train which promises the most magnificant results.—The state of Texas—in a moment of madness and folly unparalleled in the annals of legislative insanity—passed a law donating twenty sections per mile to any company which shall build a road across its territory, near the parallel of 32, on the simple condition that said company shall commence the road by the 12th of August, and shall deposit $300,000 in the state treasury, which the company can draw out as soon as it finishes the first fifty miles of the road; that then the said fifty miles of the completed road shall be pledged for the completion of the remainder.—On these simple conditions, the company will receive scrip which takes preference of all others, for twenty sections of land per mile, for over eight hundred miles, making over ten millions of acres of land, the average value of which, we understand, will be nearly, if not quite, one hundred millions of dollars! Now, the highest estimate of the cost of a road, from the Mississippi to the Rio Grande, has never exceeded twenty millions, for the building of which this company will receive land worth one hundred millions.

But this is not all. There was an old charter in Texas, creating the company called the El Paso and Vicksburgh road, to which had been previously granted sixteen sections per mile; and this company having organized, not being able to sell its stocks, entered into negotiatious with Chatfield, Walker's predecessor in the Grand Pacific, alias Moonshine road, to dispose of its charter. Pending the negotiatious, some legal gentlemen of Texas, who happened to hear of the matter, called on the president of the company, and asked how much of the stock was unsubscribed, and were informed that there were twenty millions. They immediately entered their names for that balance; and when Mr. Chatfield came to close his purchase, they required him to pay $100,000 for their stock. This was the single advantage obtained by Texas throughout the whole negotiation. All the rest, we consider, displays the most extraordinary infatuation on the part of the people of Texas, to say nothing of the responsibility incurred by the leading managers in this affair, who represented the interest of the state, and were bound to protect it.

The Moonshine company obtained the additional sixteen sections per mile belonging to the El Paso road, and if they get from Governor Pease, of which there is little doubt, the latter grant of the twenty sections, all that will be necessary to enjoy both rights will be to build a double track railroad. Thereupon this company, started upon moonshine, will become the owners of the largest capital ever held by a corporation, and the people of Texas will have sold their birthright for less than a mess of potage. Walker and his companions are blameless in the matter. They respond to the invitation of the state, and though there is not a cent of their stock taken in Texas, they come with the cash, and with a brigade of contractors and workmen, who have already commenced work in eastern Texas, complying fully with all the conditions prescribed.

General Rusk, the senator from Texas, gives his full sanction to the scheme, and so does Gov. Pease and the legislature, and as the people appear to acquiesce in it, we cannot see that any body else has much cause of complaint, however great may be their astonishment at the "madness which rules the hour," in certain parts of our country, in regard to railroads and reckless appropriations of the public domain.—*N. O. Delta, July 24.*

SINGULAR OCCURRENCE.—The St. Louis Intelligencer has a very curious account of some circumstances attending the death of Dr. P. Domino, a physician of that city, who died last week at the hotel where he boarded. He was a very old man of parsimonious disposition, had few acquaintances, and not a single intimate. For many years he had an office on Market street, between Thirteenth and Fourteenth streets, where he spent his whole time, when not at meals, doing little business, and was a sort of mystery to his neighbors. He dressed ordinarily well, but in all other respects was seemingly in indigent circumstances. After his decease, however, a person in overlooking his baggage, examined a small carpet-bag lying in his chamber, and to his surprise found over $4,000 in money, all in small bills.

The deceased during his sickness was in constant fear of being robbed, but did not disclose to any of his attendants that he had so valuable possessions, and the cause of his extreme solicitude was not explained until the finding of the money. Dying intestate and having no known relative in St. Louis or elsewhere, the public administrator took charge of his effects, and ordered a sale of the furniture and personal property in his office on Market street. Mr. Riggin, the auctioneer, in conformity to the order, held a sale of the premises. While it was progressing and during the moving of the furniture, some one examined the cellar to take an inventory of the articles subject to sale, and in an old box under a heap of wood, came upon $1,700 in gold and silver. It was tied in small bags so rotted from age that the slightest handling reduced the canvass to shreds.

This discovery induced another exploration of the cellar and office, and it ended in a still more surprising result—the finding of nearly $4,500 in Missouri bank bills, hidden away in the chimney. Diligent search was again made, but as no more money was forthcoming, it is probable that the entire wealth of the old man had been regained.

A rumor prevailed, however, from the statements of two small boys in the neighborhood, that at the commencement of the sale a man was seen leaving the office with two bags of money. The sums last found are also in the hands of the public administrator.

STRIKE FOR HIGHER WAGES.—Several of the engineers on the Milwaukee and Mississippi railroad struck yesterday for higher wages. They demanded $70 per month, and this being refused by the superintendent, they quit work.—The engineers claim that the pay now received is inadequate to the service performed.

We learn that the vacancies were immediately filled, and no trips have been or will be lost.

The strike occurred when the freight train was ready to start at 9½ A. M. Seven of the men, including the engineer of that train, struck, and refused to run another train, unless $70 per month was allowed them. They were all immediately discharged by the superintendent.—*Milwaukee Sentinel.*

New England Mutual Life Ins.,

Of Boston, Mass., Chartered in 1843,

Capital and accumulation, $650,000.

THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be pecuniarily interested in the company, and they give it their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.

THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST,

THE MADISON MUTUAL,

LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by letting them alone.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss,* though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

CHOLERA AT WAUKESHA.—During the past week there have been ten deaths from Cholera in Waukesha; and 13 in all since the disease first made its appearance. Only three Americans have died of the disease.

☞ A portion of Ft. Howard military reserve in Brown county, will be sold on the 1st day of September next.

STATE SENATOR DEAD.—Baltus Mantz, state senator from Washington county, died recently,

CURE FOR SUMMER COMPLAINT.—We are indebted to a friend for the following receipt for making blackberry syrup. This syrup is said to be almost a specific for the summer complaint. In 1832 it was successful in more than one case of cholera. The fruit is now in market, and the present is the proper time to make it.

To 2 quarts of juice of blackberries, add
1 pound of loaf sugar,
½ oz. nutmeg, ½ oz. cinnamon, pulverized.
½ oz. cloves, ½ oz. allspice. do.

Boil together for a short time, and when cold add a pint of fourth-proof brandy.

You will save many bitter tears by publishing the above in your valuable paper. From a tea-spoonful to a wine-glass, according to the age of the patient, till relieved, is to be given. It may spoil practice, but it will save life.—*New York Evening Post.*

THE LAST OF NELSON'S CREW.—A veteran sailor, named John Groombridge, above one hundred years of age, and said to be the last survivor of Lord Nelson's crew at Copenhagen, made a call a few days ago upon some of his old Kentish friends. It appears that he was born at Yalding, was apprenticed at Chatham to a Quaker, named White, and was married at twenty years of age; but on the day of his wedding was seized by a pressgang and hurried off to Hull, whence he was sent to sea, and remained in the service through the long succeeding wars, commencing with that against the revolted American colonies, now the United States. Among the engagements in which he took part was one against Paul Jones. Subsequently he served under Lord Nelson, both at Copenhagen and Trafalgar, and has sailed with our present Baltic and Black Sea Admirals, Napier and Dundas, when the former was a boy-lieutenant. He is now an in-pensioner of Greenwich hospital, the oldest on the college books, and is, he says, the sole survivor of the crew sailing in the Victory, when Nelson met his death wound.—He retains a perfect command of all his faculties. He adds that he never saw his wife after the day that he was torn from her, fresh from nuptal rites at church, by the ruthless pressgang, but she lived some fifty years afterwards; and that he learned the particulars of her death shortly after it happened, some thirty years ago.—*Kentish Mercury.*

KEEPING EGGS.—A friend who has made several voyages to the coast of Africa and other tropical regions, says that he has kept eggs in the best condition, by placing two or three dozen in a cullender, and pouring over them as many quarts of boiling water, then pack away in straw, or bran, or saw-dust. Newly laid eggs must be used for this purpose, and they will be found as good for boiling after a year and perfectly fresh, when treated as above.

CUCUMBERS.—Who ever heard of cooking a cucumber? we hear our readers exclaim! Try it, and then tell your neighbors how well a poor man may live in this country. Take the cucumber just as it begins to turn yellow, peel and slice it into salt water: drop it into cold water and boil until tender. Season with salt and pepper—mix with batter and fry. Few can tell it from egg plant.—*Soil of the South.*

A KNOW NOTHING.—The St. Louis Herald says that another know nothing has come to light in that city—the second one he has heard of—and he is indebted to a woman for the discovery. She says her husband is one of the new order, because when she asked him when he was going to buy her that new dress, he replied, "I don't know;" she inquired when he would take her out riding—and when he would purchase "them spoons" that new castor, and the carpet they were talking about—to all of which he answered, "I don't know." She says if he isn't a know nothing, she don't know nothing about 'em.

Mr. McCormick, who was accidentally shot the other day, is reported to be in a fair way to recover. Dr. Chapman of this place recently visited him, and thinks that he may even recover the use of the injured arm.—*Madison Jour.*

SUPREME COURT.—We understand that this court will probably adjourn the last of the present week until the first of October, or thereabouts, at which time the judges will read their opinions upon the cases brought before them during the present term.—*Madison Journal.*

AGAIN & AGAIN

THE BOSTON STORE.

Let the Horn be Blown!!

"Sound the loud timbrel o'er land and o'er sea,"
WHEELOCK'S triumphant, and ever shall be.

THIS is the middle of the nineteenth century, the first half of which has produced more change and onward movement than any fifty years of our Christian Era.

The great controlling power of this age is its commerce—indeed, this may be truly called the commercial age.

It has been well said by an ancient writer that
"Man wants but little here below,"
and to supply those wants

WHEELOCK

Announces to every people and every tongue, to both sexes and all parties, to all factions of all gauges, that finding his old store entirely

TOO SMALL!

He has been compelled, in order to be able to supply the immense call for goods at his establishment, to
Double the capacity of his Store Rooms!
Having purchased this spring, for this market, to be sold this season,
$39,007 00 Worth of Goods
But who can expect to read in the brief space of one life all the articles that the
BOSTON STORE CONTAINS.
Indeed, history must fail to give the searcher of knowledge any accurate idea of his immense
STOCK OF SUMMER GOODS,
His inimitable selection of
Fancy Dress Goods!
He has over
10,000 Yards of Silk Bareges,
of every style and price, and it is with no great difficulty that the fair damsels of this fair valley can select,
FROM THE ONE THOUSAND PIECES,
Of all patterns and ranging in price from *SIX CENTS Per Yard to Twenty-Eight Cents*, such dresses as will add to their exquisite beauty, though it may as a general thing, be as difficult to add to that beauty as it is "to gild refined gold, paint the lily, or add perfume to the violet."

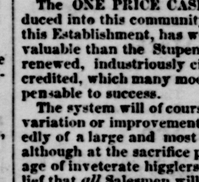

It must not be inferred that we offer only these and the many other articles for outer apparel, such as Clamelion and Foulard Silks, but all manner of
Cotton, Grass & Linen Goods
are on change, so that every one may be entirely accommodated with every article of female apparel.—
Eved French red foxed Gaiters,
do do wolfed do
Ladies' Enameled Boots, Enameled sewed Congress Boots,
LADIES MOROCCO POLKAS,
And all the articles manufactured of the best styles.—So that of this store, so far as articles which adorn La Belle sex are concerned, it may be truly said
"CUSTOM cannot stale the infinite variety."
While the Boston Store has made provision to protect the feet, it can also boast that it has all sorts of
GLOVES,
by which hands can be protected and retain
"The white wonder of fair Juliet's hand."
And in taking leave of those of whom it is no exaggeration to say they are
"Heaven's last, best gift to man,"
the Nonpareils of beauty, the Paragons of perfection, Mr. Wheelock assures his fair customers that his assistants and auxiliaries are those who unite great knowledge of the business, fine personal presence and affability of manner to a determination to discharge CONSCIENTIOUSLY their several and respective duties—that while they may have the proper desire to effect sales, they will never in imitation of many of our contemporaries attempt to accomplish that object by equivocation, misrepresentation, exaggeration, tergiversation, fabrication, or by direct lying.
And now to the wants of the
COARSE-HAND SEX.
Mr. Wheelock has every kind of material to make those articles of dress that give to man his individuality—
PANTALOONS,
CALF "BEWTS," COW HIDE do., GAZELLE, do.,
PATENT LEATHER do., GIRAFFE do.,
HATS
That fit every head from the Websterian brow to the country politician's sconce, from the size of caput of him who is closely shorn after the Hibernian fashion to that of him who wears the well-pomatumed, ambrosialized, elongated Hyperion curls.
And to the speculator who buys to sell again,
The Boston Store
Can, at lower rates of usance than any other establishment west of the Alleghany mountains, furnish that class of exchanges so that riches will fill their pockets as water fills the sea. And to them we offer
DOMESTIC GLASSWARE. WORSTED,
Pocket Handkerchiefs, Inkstands, Cotton Yarn,
Ready-made Vests, Ground Pepper, Flannels,
Looking Glasses, Ready-Made Over Coats, Pants,
Raisins, Flat Irons and Cotton Batting, Lanterns,
Satchels, which the whining school-boy with shining morning face bears on his arm,
Chests, Norwegian Bandboxes and Hair Trunks,
Tea, Tobacco and Wicking.
In the
CROCKERY
Line may be found the
BENNINGTON, the PARIAN and the LAVA Manufacture, Pitchers for milk or water, Tea Pots, Spittoons, Bowls for washing, for bread and milk, or sugar, Candlesticks, children's Toys and Flower Pots, MAINE LIQUOR LAW VOLUMES and Lager Beer Mugs.
And in fine, the proprietor of this establishment can with all confidence assure those who have been in the habit of trading at Janesville that, although they have
"Often seen corruption boil and bubble till
It o'errun the stew,"
they will find that the representations which shall be made to them by that proprietor or hiselerks will not
"Stand like forfeits in a Barter shop,
More in mock than mark."
A. W. WHEELOCK.

The system will of course be continued—admitting no variation or improvement—to the satisfaction undoubtedly of a large and most desirable class of customers, although at the sacrifice probably of the steady patronage of inveterate higglers and those who inherit the belief that *all* Salesmen will cheat them if possible.
Respectfully,
COOLEY & BABCOCK.

Janesville Clothing Emporium.
WM. ADDY,
Merchant Tailor, & Dealer in Ready Made Clothing and Gentlemen's Furnishing Goods,

HAS received his Spring and Summer STOCK, consisting of the very Best and Fashionable CLOTHS, CASSIMERES, DOESKINS AND VESTINGS, of English, French and American manufacture.
This establishment is now, as usual, the favorite place of resort for the Fashionable, the Cutting Department still being under my own personal supervision, and warranted to suit the most difficult, twenty per cent lower than any other establishment in the State.
No Fit, No Sale, is my doctrine.

NEW GOODS!
$15,000 Worth of
BOOTS AND SHOES
JUST RECEIVED AT THE
Wisconsin Boot & Shoe Store.

I AM now receiving one of the largest and finest stocks of Boots and Shoes that I have ever before brought to Janesville, and what is finer than all the rest, I can sell them at lower prices than I have ever sold before, notwithstanding the great advance in the Eastern Market. My assortment of
Ladies Fine Shoes,
in particular, I have no hesitation in saying cannot be equaled in the State, both for style and durability, being all made to order, and in such a manner that I can warrant every article I sell, with the understanding at all times, that if they do not come up to the warrant, they shall be mended free of charge.
GENTLEMEN'S WEAR.
In this line I know beyond a doubt that I can show you a finer assortment and at better prices by twenty-five per cent. than can be found at any of the side shops or Dry Goods stores about town. I want it distinctly understood that I make the BOOT AND SHOE TRADE my WHOLE STUDY, and that I *Buy More, Sell More and know more about the trade*, than the whole pile of petty dealers put together. And I know also that I can make it an object for **Every Farmer in Rock County**, as well as every one that trades in Janesville to buy their Boots and Shoes of me for the more I sell the smaller profits I can sell at.
Manufacturing.
I want to say a few words to you in regard to my Manufacturing Department, to wit: That I am now engaged more extensively in the manufacturing business, and probably am selling more custom work than all the shops about town put together, simply for these reasons—that I use better Stock, being entirely of Eastern tannage, which every one knows is worth twenty-five per cent more than the common western tanned leather; and what is a better reason and of greater importance, I can
Sell my Custom Work at Much Lower Prices,
and at the same time sell you a better article than you can get at the shops, for this reason, which you must all see is a very palpable one, that in buying my stock east and in such large quantities, I of course save a very large per cent, and thereby can sell at lower prices and at the same time make my profits.
I want to state further that I have secured the services of Mr. BUCKINGHAM, who has formerly been engaged in the manufacturing business on the west side of the River, and who is known by every one to be the best manufacturer in the city; and if we don't get you up a better article, both in regard to style and durability, we will forfeit our money and our reputation, and I pledge you my word that this is *no small forfeit*.
Leather and Findings.
I have just received over $3,000 worth of the very best brands of **Eastern Sole & Upper Leather**; also, a very large assortment of FRENCH and PHILADELPHIA KIP and FRENCH CALF SKINS, together with a full assortment of MOROCCOS of every kind, which I will sell at
Precisely Milwaukee and Chicago Prices.
I have constantly on hand, also, a large assortment of all kinds of FINDINGS, LASTS, BOOT TREES, CRIMPS, etc., etc., all of which will be sold at the same rates.
I request the attention of manufacturers in town as well as in the country to my stock, as I think I can make it an object for you to buy of me. At least, I can sell you a much superior article to that which you get of the peddlers.
TO THE LADIES,
I would say that I am under very great obligation for the partiality you have shown me, in always procuring your understandings from me, and I now publicly promise and swear that I will make every one of you who may be entitled to the same a present of a handsome pair of CACKS, when I shall have closed up my shoe-selling career. I would say further, that I am prepared to get up to order any style of work you wish, at low rates.
Yours respectfully,
J. B. DIMOCK, Proprietor,
T. H. BUCKINGHAM, Foreman.

The Daily Gazette.

JANESVILLE : : : : WISCONSIN.

FRIDAY MORNING, AUG. 11, 1854.

For telegraphic news see third page.

☞ It is just nine years this eleventh day of August since the first number of the Janesville Gazette was issued. It was then a six column paper, little larger than the present daily, and its subscription list hardly numbered three hundred names. It has been enlarged twice since that. There were no papers published in the state then except at Milwaukee, Racine, Southport, Waukesha, Green Bay, Madison and Mineral Point, but very soon after, the Western Star was started at Elkhorn. Now almost every county in the state has its paper, and many of them several. The population of Janesville at that time was about one thousand; now it is about six thousand. There were scarcely half a dozen houses upon the west side of the river, and Monterey was an entire wilderness. There was plenty of land to be had at government price within two or three miles of the village, and village lots were selling at from thirty to fifty dollars per lot. One school house served the whole village not only for schools, but it was used Sundays for a church, there being no church building in the town.

Those who have preserved a full file of the Gazette, have the best record to be had, of passing events in the town, county and other portions of the state. It contains the number of inhabitants of the town taken at various times, showing the rate of increase; full statistics of the business of Janesville at different periods; a history of the settlement of the several towns in this and adjoining counties, and a thousand other statements and facts, invaluable for future reference.

PRESIDENT'S VETO.—Our exchanges brought us yesterday the veto of president Pierce of the river and harbor bill. Alleged reason—want of time to consider and examine its provisions; real reason—hostility to the enterprises and subserviency to the south. The president promises to send in to congress when it assembles again, his views at length, and "endeavor to define approximately, at least, and according to my own convictions, what appropriations of this nature by the general government the great interests of the United States require, the constitution will admit and sanction, in case no substitute should be devised capable of reconciling the differences both of constitutionality and expediency." We humbly submit that this promised message is wholly unnecessary, and the attempt to establish the unconstitutionality and inexpediency of meagre appropriations to western rivers and harbors, while $150,000 can be given to a river in Virginia, and millions lavished upon wealthy steamship companies on the Atlantic, is simply absurd. The present administration has need of the help of no such insult to common sense to bury it beneath the curses of of the people.

DEFEAT OF COL. BENTON.—The St. Louis papers report the probable defeat of Col. Benton as a representative in congress by Mr. Kennett, the whig candidate. We record this with unfeigned regret. There has been much in former contests between the whig and democratic parties to engender a bitter feeling towards Col. Benton among those against whom he was then arrayed, and there is little in his personal character and bearing to conciliate an opposition once aroused. Yet we hoped he would be sustained on the issue in which he was now more directly before the people of his district, and had we been voters there we should most assuredly have overlooked the past and forgotten at least long enough to have voted for him the contentions of other days. The moral effect of his election, in rebuking a gross violation of plighted faith by the people of a state so intimately involved as Missouri, would have been most salutary, and should have outweighed any personal or party considerations.

☞ The Milwaukee and Mississippi railroad company are constructing a round house at Madison, with Milwaukee brick. The Journal says that a number of warehouses and other buildings are also going up in the vicinity, and there will soon be quite a village about the depot.

☞ The Minnesota land bill was repealed, and the pending grants before congress were not acted on. Among the bills which failed were the Texas debt, $8,500,000; French spoliation, $5,000,000; Ocean steamship, $850,000; the Pacific railroad and telegraph; Shanghai steamship; Ramsey California mail route and weekly California mail.

The Waukesha Plain Dealer says that Albert J. Tirrill who murdered Maria Bickford, was formerly a clerk for Solomon Juneau of Milwaukee, and was the first merchant who ever sold goods in Waukesha. He kept a small store for Mr. Juneau, near where the Catholic church now stands.

PINE LUMBER.—Mr. Norris' steam mill has been for some time in full operation sawing his pine lumber. Mr. George Richards, who has been for three years in the employment of Mr. Norris, has the credit of rafting and sawing the first pine log brought to this section of the country.

☞ The number of passengers arriving at Milwaukee in July was 8,703.

☞ It is said that foreigners own one hundred and forty millions of dollars worth of railroad and other stocks in the United States.

The whigs of the fourth congressional district of Maine, have nominated the Hon. S. P. Benson candidate for re-election to the U. S. house of representatives. There was no opposition manifested at the convention.

The Position of our Supreme Court.

An article under this caption appeared in the Standard of yesterday, from which it seems that after the publication of the opinions of the judges on Booth's second application for a habeas corpus, there are still those who think the court has involved itself, by its second decision, in legal and logical difficulties; and it is to those who admit the propriety of the first decision, but are staggared at the second, that I wish to address a few words.

The main questions presented in the first decision were these: 1st, Ought the writ to have issued? and this question being settled affirmatively, 2d, Ought the prisoner to be discharged?

In dertermining the first question the court reasoned in this manner:

The rule that the court whose jurisdiction first attaches to a case will retain it, notwithstanding proceedings may be subsequently commenced, in other courts of concurrent jurisdiction, cannot apply in this case to prevent the issuing of a writ of habeas corpus by a justice of this court, since a commissioner is not an officer of the courts of the United States, for though appointed by the judges of those courts, neither the courts or judges are responsible for his acts; his powers and duties being particularly prescribed in the acts of congress, and a commissioner cannot with any propriety be called a judicial officer. But apart from any considerations of the powers of commissioners to bring the case within the rule, it must appear, that the district court of the United States had the case pending before it which was made by the issuing and serving of the writ of habeas corpus; that the question of the legality of the imprisonment of the petitioner was then pending before that court, and this the facts in the case do not show; they merely show the ordinary case of a person imprisoned under color of legal process for an alleged offence. In such cases the investigation of the legality of his imprisonment does not necessarily involve an enquiry into the question of his guilt or innocence, or of his liability to be held to answer for the alleged offence. It is not material for the present purpose to examine the reasons which governed the court in deciding the second branch of the case, since we are only enquiring why, if the issuing of the habeas corpus was proper in the first case, was it not proper in the second.

Very vague notions of the office of the writ of habeas corpus are entertained even among lawyers; and so late as the famous McLeod case, it was made a question whether it was not a part of its office to arrest the course of criminal justice by hearing without a jury, and discharging even without bail, one who has been indicted for murder and stands committed to await trial. But in that case the supreme court of the state of New York decided that proof of innocence was inadmissable after *indictment found* in a court competent to try the same, upon an application before them for the writ—and the rule is universal that after indictment found in a competent court, another court or a judge at chambers will not attempt a summary trial of an indictment, on an application for a writ of habeas corpus; for were such applications to be entertained, an indictment might be disposed of without court or jury, by the prisoner's applying to a judge at chambers, and then upon his discharge defeating the jurisdiction.

The article referred to contains some crudities which to a lawyer appear simply ridiculous.

We read for instance as follows: "Now if there is *no law*, and if the law is unconstitutional there is none, how under no law can judge Whiton's court have jusisdiction?" No one should attempt to discuss a habeas corpus case unless he is aware that it is proper for our supreme court to issue the writ, when one is imprisoned under a warrant from any officer in this state; before *indictment regularly found* when that warrant is invalid for constitutional defects. And I would suppose that any candid man, of ordinary intelligence, could see a difference between imprisonment under a pretended warrant, and imprisonment in default of bail, after an indictment is actually found in a court competent to try that indictment.

But every well read lawyer knows, that the writ never issues for the purpose of trying the *guilt or innocence* of a party, but only whether he has been *properly charged* with crime.

Now it is evident that to have allowed the writ in the second case, would have been equivalent to trying the question of Booth's guilt or innocence—for all courts hold that after indictment regularly found, the prisoner *is* properly charged, and indeed is presumed to be guilty, subject only to a fair trial before a petit jury—upon which trial he must insist upon his constitutional defences. It is enough by all authorities that an indictment has been regularly found, in a competent court, and it is idle to urge that Booth has, upon the indictment, been committed for what our supreme court has decided to be no offense, because the rule of comity referred to, and which any tyro is aware of, *concludes* our supreme court from denying that Booth is not properly charged with an offense. Those who cavil at the decision of the supreme court in Booth's case are generally those who do not understand their scope.

They are not in conflict with the decisions of the supreme court of the U. S., and should that court of last resort, rule differently when his case comes before it, our supreme court will bow to the paramount interpretation—unless they are prepared for nullification—and the jealousies which have been industriously excited against the district court, outside of our supreme court, have had no influence within it.

As Booth is now circumstanced, there is but one question in his case for disposal, and that is of his guilt or innocence—the indictment of a grand jury as already stated, having excluded the conclusion that he is not properly charged with crime, and he must now be tried by a petit jury, and not on an application for habeas corpus. Doubtless he will urge his defence at the trial in the district court, and we are bound to presume that the rulings of that court upon the constitutional questions raised will be correct.

Had our supreme court issued the writ, it would have been a nugatory act, for they would have been obliged to remand the prisoner, by the provisions of the revised statutes, chapter 124, section 18. W.

BLOODY RIOT IN ST. LOUIS.—The St. Louis papers of Tuesday morning contain full accounts of an election riot in that city on Monday, which created great excitement.

The Intelligencer says that "the difficulty commenced in the 5th ward, and was occasioned by an Irishman stabbing an American. This was the signal for a general attack, which was commenced upon the Irish dogeries on Mayor and Green streets and Washington avenue, and all on the whole front of the levee, from Cherry street to below Locust, were more or less injured. The crowd supplied themselves with axes and other implements of the sort, from the steamboats at the wharf, and with them beat in the shutters and smashed the counters and everything that would yield to blows."

The riot continued for two hours of the afternoon, and at intervals during the night. Hundreds of discharges of pistols were made and three persons are known to be killed, while a great many were wounded in various ways. The military were called out and took possession of the streets. Eight companies were out. The Intelligencer says:

"On Morgan and Green streets, extending west from Broadway, not an Irish grocery was left, all being torn to pieces, and the houses more less injured. At a rough estimate there are not less than fifty or sixty houses, chiefly Irish doggeries of the lowest order, badly damaged, and their contents destroyed. To estimate the loss we are unable, but should guess it was not much short of $50,000. All this, besides the murder and maiming, was the work of but a few hours. The police force was entirely insufficient, and for nearly three hours the excited multitude had full sway. After the the appearance of the military, comparative order was restored, but up to the hour of going to press this morning, there were small squads moving here and there, but apparently without ability to do further mischief."

The Democrat says that during the riot, the Hibernians gave battle in one case but

"The crowd of rioters increasing, they gave way and retreated to their houses between Main and the Levee on Morgan. Here for a while the mob was a scene of the wildest excitement. The Irish fired as many, perhaps, as a hundred pistol shots into the crowd, who were breaking in the doors and windows of the houses by showers of stones from the street. At last the shooting was silenced and the mob proceeded down to the Levee and along it to Locust street, assailing every coffee house or tenement supposed to contain foreigners, with a continued storm of missiles."

After this the Irish made another stand on Second street, but were driven down past Cherry, the mob still continuing their assault upon the houses and windows.

The Democrat (Col. Benton's organ) we notice, lays the blame of the riot upon the Republican, which it says has been abusing the foreign population for a long time. We have not noticed this feature in the Republican, although it is on our exchange list: but from the tone of the Democrat, we should think that the Know-Nothings have been at their work in St. Louis as well as elsewhere, and that to them is to be ascribed the defeat of Colonel Benton, who with his friends, made a strong push for the foreign vote.—*Milwaukee Sentinel.*

DYING HARD.—The last hours of senate were occupied in the discussion of the question whether Senator Williams, of New Hampshire, was entitled to hold a seat in that body. It seems he clung to it with a death grasp, notwithstanding the committee had reported against his right, the precedents of twenty years stared him in the face, and the vote of the senate had declared him an interloper.

Having been kicked out of an executive session where he intruded himself, he next appeared as the senate was about adjourning, asking for a reconsideration of the vote, which being carried, he spoke about two hours, when the senate again voted *unanimously* that he was nothing more than a private citizen of New Hampshire!

Verily, the administration is forced into the lowest depths of humiliation. Though the people of New Hampshire have stripped the president of his constitutional advisers from that state, in the senate, the pliable spectable is presented of his confidential friend, trying to sponge into that body, cringing and crawling to his place like a reptile.

We are glad the senate acted with promptitude in the matter. Poor Senator Williams! He must feel very much like a boy when he is thrust out of a circus, for gaining admission by crawling under the canvass.—*Chicago Journal.*

INTERESTING FROM SALT LAKE.—From the Los Angelos Star we extract the following account of a treaty entered into between Gov. Young and the chiefs of the Pah Utah and Pauvan Indians.

Says that paper: We have had an interview with Mr. S. N. Carvalho, artist attached to Col. Fremont's late exploring expedition. This gentleman arrived here on the 14th inst., from Salt Lake, where he was left by the expedition on account of ill health. He states that by invitation he accompanied Governor Brigham Young, and a large party from Great Salt Lake City, on the 6th of May, for Walker's camp, on Chicken creek; that there a formal treaty of peace was entered into by Walker and Kanoshe with Gov. Young, the nature of which was, that on no occasion whatever were the Indians to make any attack either on Americans or Mormons, and that they would use all their influence to prevent any depredations on the property of emigrants or settlers. Gov. Young presented them with eighteen head of cattle, blankets, clothing, arms and ammunition, and entered into arrangements that Mr. Porter Rockwell and five other gentlemen were to reside permanently with Walker's band of Utahs, and accompany them in all their journeyings, for the purpose of protecting the lives and proyerty of the whites.

ATTACK ON THE PRESIDENT BY A DRUNKEN MAN.—A despatch from Washington, dated the 5th, states that as President Pierce was leaving the Capitol, he was followed and addressed by a man from Charleston, named Jeffards, who was intoxicated. He asked Mr. Pierce to take a drink, but he refused. Jeffards threw an egg, and knocked off the President's hat, and was arrested by an officer immediately. He sent for several persons to become his bail, but they declined. He grew outrageous in a short time, and stabbed himself in the leg.

The President declined prosecuting Jeffards, and he was discharged.

THE GREATEST SCHEME OF MODERN TIMES—AN EMPIRE GIVEN TO A RAILROAD COMPANY.—A few days ago, Mr. Robert J. Walker, late secretary of the treasury, passed through our city on his way to Texas, bearing with him one million of dollars in Texas bonds, valued, according to the Texas gradation, at $300,000. This sum is to be deposited in the hands of the governor of Texas, in behalf of the Grand Pacific railroad, of which Mr. Walker is a stockholder to the amount of ten millions, and various other citizens—including the Rev. Counsellor Joel G. Sever, late of this city, whose stock only amounts to the modest sum of $500,000—own immense amounts.

Now, extravagant as this whole scheme has seemed, Mr. Walker by his address, skill and management, and without any violation of any law or other impropriety, has placed in a train which promises the most magnificant results.—The state of Texas—in a moment of madness and folly unparalleled in the annals of legislative insanity—passed a law donating twenty sections per mile to any company which shall build a road across its territory, near the parallel of 32, on the simple condition that said company shall commence the road by the 12th of August, and shall deposit $300,000 in the state treasury, which the company can draw out as soon as it finishes the first fifty miles of the road; that then the said fifty miles of the completed road shall be pledged for the completion of the remainder.—On these simple conditions, the company will receive scrip which takes preference of all others, for twenty sections of land per mile, for over eight hundred miles, making over ten millions of acres of land, the average value of which, we understand, will be nearly, if not quite, one hundred millions of dollars! Now, the highest estimate of the cost of a road, from the Mississippi to the Rio Grande, has never exceeded twenty millions, for the building of which this company will receive land worth one hundred millions.

But this is not all. There was an old charter in Texas, creating the company called the El Paso and Vicksburgh road, to which had been previously granted sixteen sections per mile; and this company having organized, not being able to sell its stocks, entered into negotiations with Chatfield, Walker's predecessor in the Grand Pacific, alias Moonshine road, to dispose of its charter. Pending the negotiations, some legal gentlemen of Texas, who happened to hear of the matter, called on the president of the company, and asked how much of the stock was unsubscribed, and were informed that there were twenty millions. They immediately entered their names for that balance; and when Mr. Chatfield came to close his purchase, they required him to pay $100,000 for their stock. This was the single advantage obtained by Texas throughout the whole negotiation. All the rest, we consider, displays the most extraordinary infatuation on the part of the people of Texas, to say nothing of the responsibility incurred by the leading managers in this affair, who represented the interest of the state, and were bound to protect it.

The Moonshine company obtained the additional sixteen sections per mile belonging to the El Paso road, and if they get from Governor Pease, of which there is little doubt, the latter grant of the twenty sections, all that will be necessary to enjoy both rights will be to build a double track railroad. Thereupon this company, started upon moonshine, will become the owners of the largest capital ever held by a corporation, and the people of Texas will have sold their birthright for less than a mess of potage. Walker and his companions are blameless in the matter. They respond to the invitation of the state, and though there is not a cent of their stock taken in Texas, they come with the cash, and with a brigade of contractors and workmen, who have already commenced work in eastern Texas, complying fully with all the conditions prescribed.

General Rusk, the senator from Texas, gives his full sanction to the scheme, and so does Gov. Pease and the legislature, and as the people appear to acquiesce in it, we cannot see that any body else has much cause of complaint, however great may be their astonishment at the "madness which rules the hour," in certain parts of our country, in regard to railroads and reckless appropriations of the public domain.—*N. O. Delta, July 24.*

SINGULAR OCCURRENCE.—The St. Louis Intelligencer has a very curious account of some circumstances attending the death of Dr. P. Domino, a physician of that city, who died last week at the hotel where he boarded. He was a very old man of parsimonious disposition, had few acquaintances, and not a single intimate. For many years he had an office on Market street, between Thirteenth and Fourteenth streets, where he spent his whole time, when not at meals, doing little business, and was a sort of mystery to his neighbors. He dressed ordinarily well, but in all other respects was seemingly in indigent circumstances. After his decease, however, a person in overlooking his baggage, examined a small carpet-bag lying in his chamber, and to his surprise found over $4,000 in money, all in small bills.

The deceased during his sickness was in constant fear of being robbed, but did not disclose to any of his attendants that he had so valuable possessions, and the cause of his extreme solicitude was not explained until the finding of the money. Dying intestate and having no known relative in St. Louis or elsewhere, the public administrator took charge of his effects, and ordered a sale of the furniture and personal property in his office on Market street. Mr. Riggin, the auctioneer, in conformity to the order, held a sale of the premises. While it was progressing and during the moving of the furniture, some one examined the cellar to take an inventory of the articles subject to sale, and in an old box under a heap of wood, came upon $1,700 in gold and silver. It was tied in small bags so rotted from age that the slightest handling reduced the canvass to shreds.

This discovery induced another exploration of the cellar and office, and it ended in a still more surprising result—the finding of nearly $4,500 in Missouri bank bills, hidden away in the chimney. Diligent search was again made, but as no more money was forthcoming, it is probable that the entire wealth of the old man had been regained.

A rumor prevailed, however, from the statements of two small boys in the neighborhood, that at the commencement of the sale a man was seen leaving the office with two bags of money. The sums last found are also in the hands of the public administrator.

STRIKE FOR HIGHER WAGES.—Several of the engineers on the Milwaukee and Mississippi railroad struck yesterday for higher wages. They demanded $70 per month, and this being refused by the superintendent, they quit work.—The engineers claim that the pay now received is inadequate to the service performed.

We learn that the vacancies were immediately filled, and no trips have been or will be lost.

The strike occurred when the freight train was ready to start at 9½ A. M. Seven of the men, including the engineer of that train, struck, and refused to run another train, unless $70 per month was allowed them. They were all immediately discharged by the superintendent.—*Milwaukee Sentinel.*

KIER'S ROCK OIL,

FROM a Well 400 feet deep, Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of no common value. It is a different thing from the old Kentucky or American Oil, as this is used INTERNALLY as well as externally. As a local remedy in Paralysis, Piles, Rheumatism, Deafness, Loss of Sight, Burns, &c.—also, as a valuable *Internal Remedy* for Piles, Ague, Scrofula, Coughs, Diarrhœa, Erysipelas, old Sores, Eruptions of the Skin, Female Diseases, Worms, Bladder and Kidneys, Bronchitis, Pains &c. &c., it invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has within 2 or 3 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sales not only *increase* but *hold out.* Testimony to its great merit is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.

IT DOCTORS THE WHOLE MAN—flesh and blood—skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both cathartic and astringent, it is Alterative—and mind you, a REGULATOR. A leading principle in it is *Naptha.* When you once have it in the family you will not be without it.

Full as the world is of Patent Medicines—it is thought not best to suppress this, the work of NATURE—to make room for *Human inventions.* Price 50 cents per bottle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US?—A tea spoonful every three hours in the absence of the fever will cure you of Ague or Diarrhœa. ☞ Physicians, Druggists, and all friends of the afflicted, will do well to recommend this Oil for PROLAPSUS UTERI, and good will be done—take the usual dose 2 or 3 times a day, and bathe the lower part of the back with it. Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful reddish color and clear. Try it for Piles.

For sale by HOLDEN KEMP & CO., C. F. Simms, Cary & Gordon, Beloit; G. W. Kinsie, Magnolia; Goodrich, Davis & Co., Milton; S. A. Pond, Albany; P. D. Vaughn & Co., Union; H. Cheney, Johnstown; M. Elliot, Monroe. 43m3

RAILROAD STORE!

I WISH to call attention, as I have done before,
To the Goods I am receiving now at the Railroad Store,
Where all the newest Fashions, to suit the young and old,
The richest and the cheapest goods in Janesville, will be sold.

My large and splendid stock of Lawns to show I'm always willing,
The price, as all the Ladies know, is from sixpence to a shilling.
I've Fine Black Silks from Italy, and colored ones that's rare,
Plaid, Grodenaps and Marcellaines, and Florences to spare.

And such a lot of Hosiery, I know cannot be beat,
And Gloves a great variety, they are so very neat:
Just now, when Spring is coming, and every thing looks bright,
For a glove to suit the season, the color should be light.

There are other Goods for Ladies, of which they ought to know,
That I keep in those blue boxes, and am always pleased to show,
Such as Blonde and Linen Edging, Cotton and Cambric, too,
Muslin and Cambric Needlework, and Gimps of every hue.

Those Undersleeves and Chimisettes I almost had forgot,
And Ladies' Needlework Collars, so beautifully wrought,
With Bishop Lawns and Cambrics, and Muslins fine and neat,
And Lace to make old ladies' Caps and trim them off complete.

And to parry Sol's "directer rays," I've Parasols to sell,
Of every price and color—they please the Ladies well—
And Umbrellas cheap for Gents, or so at least they say,
For lots of them get carried off, on every rainy day.

Such lots of Combs for the million, of every sort and kind,
To puff, or curl, or plait the hair, no better can you find;
And every kind of Buttons for dresses, coats and vests,
To sell by the gross or dozen—they are the very best.

And for Gentlemen and little Boys I have Fashionable Hats,
Silk, Beaver, Leghorn, Panama, and cloth and leather Caps;
And for infants, Hats with feathers and ribbons gay and bright,
And little Caps with tassels drab, orange, blue and white.

I have stacks of Linen, of yellow, brown and white,
And every other kind, of Summer Goods that's right
To make up into coats and pantaloons and vests—
As large a stock as any, that ever was brought West.

They say long advertisements, are not the oftenest read,
And that most may be meant, as oft, when least is said,
In view of this, I'll close my bill, and here invite you all,
Whenever you come to Janesville, be sure and give me a call.

A GREAT MISTAKE.

J. B. CROSBY & Co.

HAVE just returned from New York and Boston, and purchased so large a stock of Merchandise that they have not room to store them, and to remedy this, they have concluded to mark their goods down at

A TRIFLE ABOVE COST,

which will crowd their store with customers and ensure large and heavy sales, thus making room for goods yet to arrive. Ladies and Gentlemen,

THIS IS NO HUMBUG,

but a REALITY, and to be convinced of this fact personally, look through their immense stock, see the amount of goods they have in store, (and but a portion of their stock has yet arrived,) enquire the price, and you will acknowledge that we will sell you

GOOD GOODS, at nearly half the Price,

that other Merchants charge. We shall not mention a few leading articles and their prices, and sell the balance of stock at *higher rates*, as other Merchants do, but shall mark our whole stock at a small regular profit, and adhere strictly to the

ONE PRICE SYSTEM.

Our stock consists of STAPLE AND FANCY DRY GOODS, GROCERIES, CROCKERY, BOOTS AND SHOES, HATS, CAPS, CARPETS, OIL CLOTHS, READY-MADE CLOTHING, &c. &c., to which we invite especial attention, as to quality and price, as we are determined that

Every Sale shall give Full and Perfect Satisfaction.

Auction or shop worn goods which are not cheap at any price we do not deal in; but buy only the best grade of goods, and of the latest styles We are the only House in Janesville that do a strictly cash business, and buying of importers and wholly for cash, we

CAN AND WILL SELL

CHEAPER AND BETTER GOODS,

than those who buy small stocks on time, and sell them the same way.

To Country Merchants,

We would say, that we will sell you goods at New York and Boston prices, adding freight. You will find us at the old stand of J. B. CROSBY, *two doors above the Post Office.*

1000 Dollars Reward,

WILL be given to any person—Physician or otherwise—who will perform a cure as quickly and permanently, by any means whatever, of any of the following diseases, as can be done by the use of

PULVERMACHER'S

Hydro-Electric Voltaic Chains.

Rheumatism,	Nervous Headache,
Painful and Swelled Joints,	Palpitation of the Heart,
Sciataca,	General Debility,
Paralysis,	Female Diseases,
Spinal Disease,	Neuralgia of the Face,
Deafness, Blindness,	Rheumatic Pains of the
Dyspepsia, Indigestion,	Chest

ALL NERVOUS DISEASES

Are almost instantly removed by the simple application of the Electric Chains, which are constructed so as to be worn next to the skin, producing a constant current of uninterrupted Electro-Magnetism, which within the last few years has been discovered to possess STRANGE and WONDERFUL POWER, in the INSTANT RELIEF and PERMANENT CURE of nervous diseases.

HISTORY.

Pulvermachers' Chain are presented to the public, as the most scientific and convenient mode of applying this powerful agent. They have been secured by patent in France, (where they were invented) England, Germany, Austria, Belgium, and one year since introduced into the United States, and also secured by patent. They are used in every Hospital in the State of New York, and highly recommended by professors Valentine Mott, Van Buren, Post, Carnochan, of that city, who daily make use of them in their practice.

THE WORLD IS CHALLENGED

to produce so many well authenticated certificates of cure, not only from intelligent patients, but from *scientific Physicians.* The sale now in New York is perfectly ASTONISHING, and thousands who visit the Crystal Palace where they are on exhibition, seldom fail to obtain a chain before they leave the city.

Thanks be to the common sense of the people who are beginning to become disgusted with the practice of making a Drug Shop of their stomach—swallowing bottle after bottle of sickening, disgusting trash, having no more effect in even relieving, much less curing, the disease for which they are recommended, than a Poor Man's Plaster applied to the top of the head would have in curing an infant of worms.

All these great and remarkable discoveries, by which every ill "which flesh is heir to" is eradicated from the earth—strange as it may seem—are made by men who are too *ignorant* to obtain a living by any other mode, and their knowledge of disease, its proper mode of cure, its cause, is just as extensive as an Arab's is of the mechanism of a steam engine. No intelligent person will deny the truth of this, and no Physician dare risk his reputation as an honest man, and declare that *nervous diseases* are not more frequently increased in severity than *relieved*, by the old antiquated way of giving medicine into the stomach. If people will only become sensible and think for themselves, and believe that physicians practice upon their credulity more than they have any idea of, pay strict attention to temperance in all things, (which means very much,) make free use of *pure cold water, internally and externally,* with an occasional dash of soap, sleep in freely ventilated rooms, retire early and rise early, be happy and cheerful, employ their physicians to tell them "they require no physic;"—by so doing health and happiness will increase, bottled molasses and water be at a discount, and its famous discoverers be consigued to their legitimate stations.

The Hydro-Electric chains are now for the first time offered to the people of Nashua, as being a *better, quicker, and safer mode* of curing all nervous diseases, than any other method or means hitherto discovered. They can be used by either a grown person or a child, are always ready for use, and with little care will last for years.

CAUTION.

Ladies who are *enciente*, are requested not to wear them, for by long use, miscarriage is apt to be produced.

Price of Chains, $3 to $5, and can be sent by mail to any part of the country, together with a pamphlet of 36 pages, containing the modes of use, certificates of cure, &c. J. STEINERT, General Agent, 568 Broadway, New York.

New England Mutual Life Ins.,

Of Boston, Mass., Chartered in 1843,

Capital and accumulation, $650,000.

THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be pecuniarily interested in the company, and they give it their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties.

Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.

THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST,

THE MADISON MUTUAL,

LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses *only your own of the same class,* and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected POSITIVELY, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss,* though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

THE DAILY GAZETTE.

CHOLERA AT WAUKESHA.—During the past week there have been ten deaths from Cholera in Waukesha; and 13 in all since the disease first made its appearance. Only three Americans have died of the disease.

☞ A portion of Ft. Howard military reserve in Brown county, will be sold on the 1st day of September next.

STATE SENATOR DEAD.—Baltus Mantz, state senator from Washington county, died recently,

CURE FOR SUMMER COMPLAINT.—We are indebted to a friend for the following receipt for making blackberry syrup. This syrup is said to be almost a specific for the summer complaint. In 1832 it was successful in more than one case of cholera. The fruit is now in market, and the present is the proper time to make it.

To 2 quarts of juice of blackberries, add
1 pound of loaf sugar,
½ oz. nutmeg, ½ oz. cinnamon, pulverized.
½ oz. cloves, ½ oz. allspice. do.
Boil together for a short time, and when cold add a pint of fourth-proof brandy.

You will save many bitter tears by publishing the above in your valuable paper. From a tea-spoonful to a wine-glass, according to the age of the patient, till relieved, is to be given. It may spoil practice, but it will save life.—*New York Evening Post.*

THE LAST OF NELSON'S CREW.—A veteran sailor, named John Groombridge, above one hundred years of age, and said to be the last survivor of Lord Nelson's crew at Copenhagen, made a call a few days ago upon some of his old Kentish friends. It appears that he was born at Yalding, was apprenticed at Chatham to a Quaker, named White, and was married at twenty years of age; but on the day of his wedding was seized by a pressgang and hurried off to Hull, whence he was sent to sea, and remained in the service through the long succeeding wars, commencing with that against the revolted American colonies, now the United States. Among the engagements in which he took part was one against Paul Jones. Subsequently he served under Lord Nelson, both at Copenhagen and Trafalgar, and has sailed with our present Baltic and Black Sea Admirals, Napier and Dundas, when the former was a boy-lieutenant. He is now an in-pensioner of Greenwich hospital, the oldest on the college books, and is, he says, the sole survivor of the crew sailing in the Victory, when Nelson met his death wound.—He retains a perfect command of all his faculties. He adds that he never saw his wife after the day that he was torn from her, fresh from nuptal rites at church, by the ruthless pressgang, but she lived some fifty years afterwards; and that he learned the particulars of her death shortly after it happened, some thirty years ago.—*Kentish Mercury.*

KEEPING EGGS.—A friend who has made several voyages to the coast of Africa and other tropical regions, says that he has kept eggs in the best condition, by placing two or three dozen in a cullender, and pouring over them as many quarts of boiling water, then pack away in straw, or bran, or saw-dust. Newly laid eggs must be used for this purpose, and they will be found as good for boiling after a year and perfectly fresh, when treated as above.

CUCUMBERS.—Who ever heard of cooking a cucumber? we hear our readers exclaim! Try it, and then tell your neighbors how well a poor man may live in this country. Take the cucumber just as it begins to turn yellow, peel and slice it into salt water: drop it into cold water and boil until tender. Season with salt and pepper—mix with batter and fry. Few can tell it from egg plant.—*Soil of the South.*

A KNOW NOTHING.—The St. Louis Herald says that another know nothing has come to light in that city—the second one he has heard of—and he is indebted to a woman for the discovery. She says her husband is one of the new order, because when she asked him when he was going to buy her that new dress, he replied, "I don't know;" she inquired when he would take her out riding—and when he would purchase "them spoons" that new castor, and the carpet they were talking about—to all of which he answered, "I don't know." She says if he isn't a know nothing, she don't know nothing about 'em.

Mr. McCormick, who was accidentally shot the other day, is reported to be in a fair way to recover. Dr. Chapman of this place recently visited him, and thinks that he may even recover the use of the injured arm.—*Madison Jour.*

SUPREME COURT.—We understand that this court will probably adjourn the last of the present week until the first of October, or thereabouts, at which time the judges will read their opinions upon the cases brought before them during the present term.—*Madison Journal.*

AGAIN & AGAIN
THE BOSTON STORE.
Let the Horn be Blown!!
"Sound the loud timbrel o'er land and o'er sea,"
WHEELOCK'S triumphant, and ever shall be.

THIS is the middle of the nineteenth century, the first half of which has produced more change and onward movement than any fifty years of our Christian Era.
The great controlling power of this age is its commerce—indeed, this may be truly called the commercial age.
It has been well said by an ancient writer that
"Man wants but little here below,"
and to supply those wants
WHEELOCK
Announces to every people and every tongue, to both sexes and all parties, to all factions of all gauges, that finding his old store entirely
TOO SMALL!
He has been compelled, in order to be able to supply the immense call for goods at his establishment, to
Double the capacity of his Store Rooms!
Having purchased this spring, for this market, to be sold this season,
$39,007 00 Worth of Goods
But who can expect to read in the brief space of one life all the articles that the
BOSTON STORE CONTAINS.
Indeed, history must fail to give the searcher of knowledge any accurate idea of his immense
STOCK OF SUMMER GOODS,
His inimitable selection of
Fancy Dress Goods!
He has over
10,000 Yards of Silk Barages,
of every style and price, and it is with no great difficulty that the fair damsels of this fair valley can select,
FROM THE ONE THOUSAND PIECES,
Of all patterns and ranging in price from *SIX CENTS Per Yard to Twenty-Eight Cents*, such dresses as will add to their exquisite beauty, though it may as a general thing, be as difficult to add to that beauty as it is "to gild refined gold, paint the lily, or add perfume to the violet."
It must not be inferred that we offer only these and the many other articles for outer apparel, such as Chamelion and Foulard Silks, but all manner of
Cotton, Grass & Linen Goods
are on change, so that every one may be entirely accommodated with every article of female apparel.—
Eved French red foxed Gaiters,
do do wolfed do
Ladies' Enameled Boots, Enameled sewed Congress Boots,
LADIES MOROCCO POLKAS,
And all the articles manufactured of the best styles.—So that of this store, so far as articles which adorn La Belle sex are concerned, it may be truly said
"CUSTOM cannot stale the infinite variety."
While the Boston Store has made provision to protect the feet, it can also boast that it has all sorts of
GLOVES,
by which hands can be protected and retain
"The white wonder of fitz Juleh's hand."
And in taking leave of those of whom it is no exaggeration to say they are
"Heaven's last, best gift to man,"
the Nonpareils of beauty, the Paragons of perfection, Mr. Wheelock assures his fair customers that his assistants and auxiliaries are those who unite great knowledge of the business, fine personal presence and affability of manner to a determination to discharge conscientiously their several and respective duties—that while they may have the proper desire to effect sales, they will never in imitation of many of our contemporaries attempt to accomplish that object by equivocation, misrepresentation, exaggeration, tergiversation, fabrication, or by direct lying.
And now to the wants of the
COARSE-HAND SEX.
Mr. Wheelock has every kind of material to make those articles of dress that give to man his individuality—
PANTALOONS,
CALF "BEWTS," COW HIDE do., GAZELLE, do., PATENT LEATHER do., GIRAFFE do.,
HATS
That fit every head from the Websterian brow to the country politician's sconce, from the size of caput of him who is closely shorn after the Hibernian fashion to that of him who wears the well-pomatumed, ambrosialized, elongated Hyperion curls.
And to the speculator who buys to sell again,
The Boston Store
Can, at lower rates of usance than any other establishment west of the Alleghany mountains, furnish that class of exchanges so that riches will fill their pockets as water fills the sea. And to them we offer
DOMESTIC GLASSWARE, WORSTED,
Pocket Handkerchiefs, Inkstands, Cotton Yarn, Ready-made Vests, Ground Pepper, Flannels, Looking Glasses, Ready-Made Over Coats, Pants, Raisins, Flat Irons and Cotton Batting, Lanterns, Satchels, which the whining school-boy with shining morning face bears on his arm,
Chests, Norwegian Bundboxes and Hair Trunks, Tea, Tobacco and Wicking.
In the
CROCKERY
Line may be found the
BENNINGTON, the PARIAN and the LAVA Manufacture, Pitchers for milk or water, Tea Pots, Spittoons, Bowls for washing, for bread and milk, or sugar, Candlesticks, children's Toys and Flower Pots, MAINE LIQUOR LAW VOLUMES and Lager Beer Mugs.
And in fine, the proprietor of this establishment can with all confidence assure those who have been in the habit of trading at Janesville that, although they have
"Often seen corruption boil and bubble till
It o'erran the stew,"
they will find that the representations which shall be made to them by that proprietor or his clerks will not
"Stand like forfeits in a Barber shop,
More in mouth than mark."
A. W. WHEELOCK.

The ONE PRICE CASH SYSTEM, originally introduced into this community and strictly adhered to by this Establishment, has won for it a reputation far more valuable than the Stupendous Self-pullings, quarterly renewed, industriously circulated but universally discredited, which many modern shop keepers deem indispensable to success.
The system will of course be continued—admitting no variation or improvement—to the satisfaction undoubtedly of a large and most desirable class of customers, although at the sacrifice probably of the steady patronage of inveterate higglers and those who inherit the belief that *all* Salesmen will cheat them if possible.
Respectfully,
COOLEY & BABCOCK.

WM. ADDY,
Merchant Tailor, & Dealer in Ready Made Clothing and Gentlemen's Furnishing Goods,

HAS received his Spring and Summer STOCK, consisting of the very Best and Fashionable CLOTHS, CASSIMERES, DOESKINS AND VESTINGS, of English, French and American manufacture.
This establishment is now, as usual, the favorite place of resort for the Fashionable, the Cutting Department still being under my own personal supervision, and warranted to suit the most difficult, twenty per cent lower than any other establishment in the State.
No Fit, No Sale, is my doctrine.
You will ask how I can do this; I will tell you: From my long experience in this business, and being a practical Tailor, I know when, where and how to buy my Goods, what to pay for them, and how to cut them, not having to secure the services of an *eminent artist*, at a salary of $1,000 to $1,500 a year, which the purchaser must pay for—this is the secret. I have got on hand a good assortment of
Ready Made Clothing,
of my own manufacture, and warranted in every respect. *Call and examine, before you buy elsewhere.*

NEW GOODS!
$15,000 Worth of
BOOTS AND SHOES
JUST RECEIVED AT THE
Wisconsin Boot & Shoe Store.
I AM now receiving one of the largest and finest stocks of Boots and Shoes that I have ever before brought to Janesville, and what is finer than all the rest, I can sell them at lower prices than I have ever sold before, notwithstanding the great advance in the Eastern Market. My assortment of
Ladies Fine Shoes,
in particular, I have no hesitation in saying cannot be equaled in the State, both for style and durability, being all made to order, and in such a manner that I can warrant every article I sell, with the understanding at all times, that if they do not come up to the warrant, they shall be mended free of charge.
GENTLEMEN'S WEAR.
In this line I know beyond a doubt that I can show you a finer assortment and at better prices by twenty five per cent. than can be found at any of the ready shops or Dry Goods stores about town. I want it distinctly understood that I make the BOOT AND SHOE TRADE my WHOLE STUDY, and that I *Buy More, Sell More and know more about the trade*, than the whole pile of petty dealers put together. And I know also that I can make it an object for **Every Farmer in Rock County**, as well as every one that trades in Janesville to buy their Boots and Shoes of me for the more I sell the smaller profits I can sell at.
Manufacturing.
I want to say a few words to you in regard to my Manufacturing Department, to wit: That I am now engaged more extensively in the manufacturing business, and probably am selling more custom work than all the shops about town put together, simply for these reasons—that I use better Stock, being entirely of Eastern tannage, which every one knows is worth twenty-five per cent more than the common western tanned leather; and what is a better reason still of greater importance, I can
Sell my Custom Work at Much Lower Prices,
and at the same time sell you a better article than you can get at the shops, for this reason, which you must all see is a very palpable one, that in buying my stock east and in such large quantities, I of course save a very large per cent, and thereby can sell at lower prices and at the same time make my profits.
I want to state further that I have secured the services of Mr. BUCKINGHAM, who has formerly been engaged in the manufacturing business on the west side of the River, and who is known by every one to be the best manufacturer in the city; and if we don't get you up a better article, both in regard to style and durability, we will forfeit our money and our reputation, and I pledge you my word that this is *no small boast.*
Leather and Findings.
I have just received over $8,000 worth of the very best brands of **Eastern Sole & Upper Leather**; also, a very large assortment of **FRENCH and PHILADELPHIA KIP and FRENCH CALF SKINS**, together with a full assortment of **MOROCCOS** of every kind, which I will sell at
Precisely Milwaukee and Chicago Prices.
I have constantly on hand, also, a large assortment of all kinds of **FINDINGS, LASTS, BOOT TREES, CRIMPS**, etc., etc., all of which will be sold at the same rates.
I request the attention of manufacturers in town as well as in the country to my stock, as I think I can make it an object for you to buy of me. At least I can sell you a much superior article to that which you get of the peddlers.
TO THE LADIES.
I would say that I am under very great obligation for the partiality you have shown me, in always procuring your understandings from me, and I now publicly promise and swear that I will make every one of you who may be entitled to the same a present of a handsome pair of CACKS, when I shall have closed up my shoe selling career. I would say further, that I am prepared to get up to order any style of work you wish, at low rates. Yours respectfully,
J. B. DIMOCK, Proprietor,
T. H. BUCKINGHAM, Foreman.

The Daily Gazette.

JANESVILLE : : : : WISCONSIN.

FRIDAY MORNING, AUG. 11, 1854.

For telegraphic news see third page.

☞ It is just nine years this eleventh day of August since the first number of the Janesville Gazette was issued. It was then a six column paper, little larger than the present daily, and its subscription list hardly numbered three hundred names. It has been enlarged twice since that. There were no papers published in the state then except at Milwaukee, Racine, Southport, Waukesha, Green Bay, Madison and Mineral Point, but very soon after, the Western Star was started at Elkhorn. Now almost every county in the state has its paper, and many of them several. The population of Janesville at that time was about one thousand; now it is about six thousand. There were scarcely half a dozen houses upon the west side of the river, and Monterey was an entire wilderness. There was plenty of land to be had at government price within two or three miles of the village, and village lots were selling at from thirty to fifty dollars per lot. One school house served the whole village not only for schools, but it was used Sundays for a church, there being no church building in the town.

Those who have preserved a full file of the Gazette, have the best record to be had, of passing events in the town, county and other portions of the state. It contains the number of inhabitants of the town taken at various times, showing the rate of increase; full statistics of the business of Janesville at different periods; a history of the settlement of the several towns in this and adjoining counties, and a thousand other statements and facts, invaluable for future reference.

PRESIDENT'S VETO.—Our exchanges brought us yesterday the veto of president Pierce of the river and harbor bill. Alleged reason—want of time to consider and examine its provisions; real reason—hostility to the enterprises and subserviency to the south. The president promises to send in to congress when it assembles again, his views at length, and "endeavor to define approximately, at least, and according to my own convictions, what appropriations of this nature by the general government the great interests of the United States require, the constitution will admit and sanction, in case no substitute should be devised capable of reconciling the differences both of constitutionality and expediency." We humbly submit that this promised message is wholly unnecessary, and the attempt to establish the unconstitutionality and inexpediency of meagre appropriations to western rivers and harbors, while $150,000 can be given to a river in Virginia, and millions lavished upon wealthy steamship companies on the Atlantic, is simply absurd. The present administration has need of the help of no such insult to common sense to bury it beneath the curses of of the people.

DEFEAT OF COL. BENTON.—The St. Louis papers report the probable defeat of Col. Benton as a representative in congress by Mr. Kennett, the whig candidate. We record this with unfeigned regret. There has been much in former contests between the whig and democratic parties to engender a bitter feeling towards Col. Benton among those against whom he was then arrayed, and there is little in his personal character and bearing to concilitate an opposition once aroused. Yet we hoped he would be sustained on the issue in which he was now more directly before the people of his district, and had we been voters there we should most assuredly have overlooked the past and forgotten at least long enough to have voted for him the contentions of other days. The moral effect of his election, in rebuking a gross violation of plighted faith by the people of a state so intimately involved as Missouri, would have been most salutary, and should have outweighed any personal or party considerations.

☞ The Milwaukee and Mississippi railroad company are constructing a round house at Madison, with Milwaukee brick. The Journal says that a number of warehouses and other buildings are also going up in the vicinity, and there will soon be quite a village about the depot.

☞ The Minnesota land bill was repealed, and the pending grants before congress were not acted on. Among the bills which failed were the Texas debt, $8,500,000; French spoliation, $5,000,000; Ocean steamship, $850,000; the Pacific railroad and telegraph; Shanghai steamship; Ramsey California mail route and weekly California mail.

The Waukesha Plain Dealer says that Albert J. Tirrill who murdered Maria Bickford, was formerly a clerk for Solomon Juneau of Milwaukee, and was the first merchant who ever sold goods in Waukesha. He kept a small store for Mr. Juneau, near where the Catholic church now stands.

PINE LUMBER.—Mr. Norris' steam mill has been for some time in full operation sawing his pine lumber. Mr. George Richards, who has been for three years in the employment of Mr. Norris, has the credit of rafting and sawing the first pine log brought to this section of the country.

☞ The number of passengers arriving at Milwaukee in July was 8,703.

☞ It is said that foreigners own one hundred and forty millions of dollars worth of railroad and other stocks in the United States.

The whigs of the fourth congressional district of Maine, have nominated the Hon. S. P. Benson candidate for re-election to the U. S. house of representatives. There was no opposition manifested at the convention.

The Position of our Supreme Court.

An article under this caption appeared in the Standard of yesterday, from which it seems that after the publication of the opinions of the judges on Booth's second application for a habeas corpus, there are still those who think the court has involved itself, by its second decision, in legal and logical difficulties; and it is to those who admit the propriety of the first decision, but are staggared at the second, that I wish to address a few words.

The main questions presented in the first decision were these: 1st, Ought the writ to have issued? and this question being settled affirmatively, 2d, Ought the prisoner to be discharged?

In dertermining the first question the court reasoned in this manner:

The rule that the court whose jurisdiction first attaches to a case will retain it, notwithstanding proceedings may be subsequently commenced, in other courts of concurrent jurisdiction, cannot apply in this case to prevent the issuing of a writ of habeas corpus by a justice of this court, since a commissioner is not an officer of the courts of the United States, for though appointed by the judges of those courts, neither the courts or judges are responsible for his acts; his powers and duties being particularly prescribed in the acts of congress, and a commissioner cannot with any propriety be called a judicial officer. But apart from any considerations of the powers of commissioners to bring the case within the rule, it must appear, that the district court of the United States had the case pending before it which was made by the issuing and serving of the writ of habeas corpus; that the question of the legality of the imprisonment of the petitioner was then pending before that court, and this the facts in the case do not show; they merely show the ordinary case of a person imprisoned under color of legal process for an alleged offence. In such cases the investigation of the legality of his imprisonment does not necessarily involve an enquiry into the question of his guilt or innocence, or of his liability to be held to answer for the alleged offence. It is not material for the present purpose to examine the reasons which governed the court in deciding the second branch of the case, since we are only enquiring why, if the issuing of the habeas corpus was proper in the first case, was it not proper in the second.

Very vague notions of the office of the writ of habeas corpus are entertained even among lawyers; and so late as the famous McLeod case, it was made a question whether it was not a part of its office to arrest the course of criminal justice by hearing without a jury, and discharging even without bail, one who has been indicted for murder and stands committed to await trial. But in that case the supreme court of the state of New York decided that proof of innocence was inadmissable after *indictment found* in a court competent to try the same, upon an application before them for the writ—and the rule is universal that after indictment found in a competent court, another court or a judge at chambers will not attempt a summary trial of an indictment, on an application for a writ of habeas corpus; for were such applications to be entertained, an indictment might be disposed of without court or jury, by the prisoner's applying to a judge at chambers, and then upon his discharge defeating the jurisdiction.

The article referred to contains some crudities which to a lawyer appear simply ridiculous.

We read for instance as follows: "Now if there is *no law*, and if the law is unconstitutional there is none, how under no law can judge Whiton's court have jusisdiction?" No one should attempt to discuss a habeas corpus case unless he is aware that it is proper for our supreme court to issue the writ, when one is imprisoned under a warrant from any officer in this state, before *indictment regularly found* when that warrant is invalid for constitutional defects. And I would suppose that any candid man, of ordinary intelligence, could see a difference between imprisonment under a pretended warrant, and imprisonment in default of bail, after an indictment is actually found in a court competent to try that indictment.

But every well read lawyer knows, that the writ never issues for the purpose of trying the *guilt or innocence* of a party, but only whether he has been *properly charged* with crime.

Now it is evident that to have allowed the writ in the second case, would have been equivalent to trying the question of Booth's guilt or innocence—for all courts hold that after indictment regularly found, the prisoner *is* properly charged, and indeed is presumed to be guilty, subject only to a fair trial before a petit jury—upon which trial he must insist upon his constitutional defences. It is enough by all authorities that an indictment has been regularly found, in a competent court, and it is idle to urge that Booth has, upon the indictment, been committed for what our supreme court has decided to be no offense, because the rule of comity referred to, and which any tyro is aware of, *concludes* our supreme court from denying that Booth is not properly charged with an offense. Those who cavil at the decision of the supreme court in Booth's case are generally those who do not understand their scope.

They are not in conflict with the decisions of the supreme court of the U. S., and should that court of last resort, rule differently when his case comes before it, our supreme court will bow to the paramount interpretation—unless they are prepared for nullification—and the jealousies which have been industriously excited against the district court, outside of our supreme court, have had no influence within it.

As Booth is now circumstanced, there is but one question in his case for disposal, and that is of his guilt or innocence—the indictment of a grand jury as already stated, having excluded the conclusion that he is not properly charged with crime, and he must now be tried by a petit jury, and not on an application for habeas corpus. Doubtless he will urge his defence at the trial in the district court, and we are bound to presume that the rulings of that court upon the constitutional questions raised will be correct.

Had our supreme court issued the writ, it would have been a nugatory act, for they would have been obliged to remand the prisoner, by the provisions of the revised statutes, chapter 124, section 18. W.

BLOODY RIOT IN ST. LOUIS.—The St. Louis papers of Tuesday morning contain full accounts of an election riot in that city on Monday, which created great excitement.

The Intelligencer says that "the difficulty commenced in the 5th ward, and was occasioned by an Irishman stabbing an American. This was the signal for a general attack, which was commenced upon the Irish dogeries on Mayor and Green streets and Washington avenue, and all on the whole front of the levee, from Cherry street to below Locust, were more or less injured. The crowd supplied themselves with axes and other implements of the sort, from the steamboats at the wharf, and with them beat in the shutters and smashed the counters and everything that would yield to blows."

The riot continued for two hours of the afternoon, and at intervals during the night. Hundreds of discharges of pistols were made and three persons are known to be killed, while a great many were wounded in various ways. The military were called out and took possession of the streets. Eight companies were out. The Intelligencer says:

"On Morgan and Green streets, extending west from Broadway, not an Irish grocery was left, all being torn to pieces, and the houses more less injured. At a rough estimate there are not less than fifty or sixty houses, chiefly Irish doggeries of the lowest order, badly damaged, and their contents destroyed. To estimate the loss we are unable, but should guess it was not much short of $50,000. All this, besides the murder and maiming, was the work of but a few hours. The police force was entirely insufficient, and for nearly three hours the excited multitude had full sway. After the the appearance of the military, comparative order was restored, but up to the hour of going to press this morning, there were small squads moving here and there, but apparently without ability to do further mischief."

The Democrat says that during the riot, the Hibernians gave battle in one case but

"The crowd of rioters increasing, they gave way and retreated to their houses between Main and the Levee on Morgan. Here for a while the mob was a scene of the wildest excitement. The Irish fired as many, perhaps, as a hundred pistol shots into the crowd, who were breaking in the doors and windows of the houses by showers of stones from the street. At last the shooting was silenced and the mob proceeded down to the Levee and along it to Locust street, assailing every coffee house or tenement supposed to contain foreigners, with a continued storm of missiles."

After this the Irish made another stand on Second street, but were driven down past Cherry, the mob still continuing their assault upon the houses and windows.

The Democrat (Col. Benton's organ) we notice, lays the blame of the riot upon the Republican, which it says has been abusing the foreign population for a long time. We have not noticed this feature in the Republican, although it is on our exchange list: but from the tone of the Democrat, we should think that the Know-Nothings have been at their work in St. Louis as well as elsewhere, and that to them is to be ascribed the defeat of Colonel Benton, who with his friends, made a strong push for the foreign vote.—*Milwaukee Sentinel.*

DYING HARD.—The last hours of senate were occupied in the discussion of the question whether Senator Williams, of New Hampshire, was entitled to hold a seat in that body. It seems he clung to it with a death grasp, notwithstanding the committee had reported against his right, the precedents of twenty years stared him in the face, and the vote of the senate had declared him an interloper.

Having been kicked out of an executive session where he intruded himself, he next appeared as the senate was about adjourning, asking for a reconsideration of the vote, which being carried, he spoke about two hours, when the senate again voted *unanimously* that he was nothing more than a private citizen of New Hampshire!

Verily, the administration is forced into the lowest depths of humiliation. Though the people of New Hampshire have stripped the president of his constitutional advisers from that state, in the senate, the pitiable spectable is presented of his confidential friend, trying to sponge into that body, cringing and crawling to his place like a reptile.

We are glad the senate acted with promptitude in the matter. Poor Senator Williams! He must feel very much like a boy when he is thrust out of a circus, for gaining admission by crawling under the canvass.—*Chicago Journal.*

INTERESTING FROM SALT LAKE.—From the Los Angelos Star we extract the following account of a treaty entered into between Gov. Young and the chiefs of the Pah Utah and Pauvan Indians.

Says that paper: We have had an interview with Mr. S. N. Carvalho, artist attached to Col. Fremont's late exploring expedition. This gentleman arrived here on the 14th inst., from Salt Lake, where he was left by the expedition on account of ill health. He states that by invitation he accompanied Governor Brigham Young, and a large party from Great Salt Lake City, on the 6th of May, for Walker's camp, on Chicken creek; that there a formal treaty of peace was entered into by Walker and Kanoshe with Gov. Young, the nature of which was, that on no occasion whatever were the Indians to make any attack either on Americans or Mormons, and that they would use all their influence to prevent any depredations on the property of emigrants or settlers. Gov. Young presented them with eighteen head of cattle, blankets, clothing, arms and ammunition, and entered into arrangements that Mr. Porter Rockwell and five other gentlemen were to reside permanently with Walker's band of Utahs, and accompany them in all their journeyings, for the purpose of protecting the lives and proyerty of the whites.

ATTACK ON THE PRESIDENT BY A DRUNKEN MAN.—A despatch from Washington, dated the 5th, states that as President Pierce was leaving the Capitol, he was followed and addressed by a man from Charleston, named Jeffards, who was intoxicated. He asked Mr. Pierce to take a drink, but he refused. Jeffards threw an egg, and knocked off the President's hat, and was arrested by an officer immediately. He sent for several persons to become his bail, but they declined. He grew outrageous in a short time, and stabbed himself in the leg.

The President declined prosecuting Jeffards, and he was discharged.

THE GREATEST SCHEME OF MODERN TIMES—AN EMPIRE GIVEN TO A RAILROAD COMPANY.—A few days ago, Mr. Robert J. Walker, late secretary of the treasury, passed through our city on his way to Texas, bearing with him one million of dollars in Texas bonds, valued, according to the Texas gradation, at $300,000. This sum is to be deposited in the hands of the governor of Texas, in behalf of the Grand Pacific railroad, of which Mr. Walker is a stockholder to the amount of ten millions, and various other citizens—including the Rev. Counsellor Joel G. Sever, late of this city, whose stock only amounts to the modest sum of $500,000—own immense amounts.

Now, extravagant as this whole scheme has seemed, Mr. Walker by his address, skill and management, and without any violation of any law or other impropriety, has placed in a train which promises the most magnificant results.—The state of Texas—in a moment of madness and folly unparalleled in the annals of legislative insanity—passed a law donating twenty sections per mile to any company which shall build a road across its territory, near the parallel of 32, on the simple condition that said company shall commence the road by the 12th of August, and shall deposit $300,000 in the state treasury, which the company can draw out as soon as it finishes the first fifty miles of the road; that then the said fifty miles of the completed road shall be pledged for the completion of the remainder.—On these simple conditions, the company will receive scrip which takes preference of all others, for twenty sections of land per mile, for over eight hundred miles, making over ten millions of acres of land, the average value of which, we understand, will be nearly, if not quite, one hundred millions of dollars! Now, the highest estimate of the cost of a road, from the Mississippi to the Rio Grande, has never exceeded twenty millions, for the building of which this company will receive land worth one hundred millions.

But this is not all. There was an old charter in Texas, creating the company called the El Paso and Vicksburgh road, to which had been previously granted sixteen sections per mile; and this company having organized, not being able to sell its stocks, entered into negotiations with Chatfield, Walker's predecessor in the Grand Pacific, alias Moonshine road, to dispose of its charter. Pending the negotiations, some legal gentlemen of Texas, who happened to hear of the matter, called on the president of the company, and asked how much of the stock was unsubscribed, and were informed that there were twenty millions. They immediately entered their names for that balance; and when Mr. Chatfield came to close his purchase, they required him to pay $100,000 for their stock. This was the single advantage obtained by Texas throughout the whole negotiation. All the rest, we consider, displays the most extraordinary infatuation on the part of the people of Texas, to say nothing of the responsibility incurred by the leading managers in this affair, who represented the interest of the state, and were bound to protect it.

The Moonshine company obtained the additional sixteen sections per mile belonging to the El Paso road, and if they get from Governor Pease, of which there is little doubt, the latter grant of the twenty sections, all that will be necessary to enjoy both rights will be to build a double track railroad. Thereupon this company, started upon moonshine, will become the owners of the largest capital ever held by a corporation, and the people of Texas will have sold their birthright for less than a mess of potage. Walker and his companions are blameless in the matter. They respond to the invitation of the state, and though there is not a cent of their stock taken in Texas, they come with the cash, and with a brigade of contractors and workmen, who have already commenced work in eastern Texas, complying fully with all the conditions prescribed.

General Rusk, the senator from Texas, gives his full sanction to the scheme, and so does Gov. Pease and the legislature, and as the people appear to acquiesce in it, we cannot see that any body else has much cause of complaint, however great may be their astonishment at the "madness which rules the hour," in certain parts of our country, in regard to railroads and reckless appropriations of the public domain.—*N. O. Delta, July 24.*

SINGULAR OCCURRENCE.—The St. Louis Intelligencer has a very curious account of some circumstances attending the death of Dr. P. Domino, a physician of that city, who died last week at the hotel where he boarded. He was a very old man of parsimonious disposition, had few acquaintances, and not a single intimate. For many years he had an office on Market street, between Thirteenth and Fourteenth streets, where he spent his whole time, when not at meals, doing little business, and was a sort of mystery to his neighbors. He dressed ordinarily well, but in all other respects was seemingly in indigent circumstances. After his decease, however, a person in overlooking his baggage, examined a small carpet-bag lying in his chamber, and to his surprise found over $4,000 in money, all in small bills.

The deceased during his sickness was in constant fear of being robbed, but did not disclose to any of his attendants that he had so valuable possessions, and the cause of his extreme solicitude was not explained until the finding of the money. Dying intestate and having no known relative in St. Louis or elsewhere, the public administrator took charge of his effects, and ordered a sale of the furniture and personal property in his office on Market street. Mr. Riggin, the auctioneer, in conformity to the order, held a sale of the premises. While it was progressing and during the moving of the furniture, some one examined the cellar to take an inventory of the articles subject to sale, and in an old box under a heap of wood, came upon $1,700 in gold and silver. It was tied in small bags so rotted from age that the slightest handling reduced the canvass to shreds.

This discovery induced another exploration of the cellar and office, and it ended in a still more surprising result—the finding of nearly $4,500 in Missouri bank bills, hidden away in the chimney. Diligent search was again made, but as no more money was forthcoming, it is probable that the entire wealth of the old man had been regained.

A rumor prevailed, however, from the statements of two small boys in the neighborhood, that at the commencement of the sale a man was seen leaving the office with two bags of money. The sums last found are also in the hands of the public administrator.

STRIKE FOR HIGHER WAGES.—Several of the engineers on the Milwaukee and Mississippi railroad struck yesterday for higher wages. They demanded $70 per month, and this being refused by the superintendent, they quit work.—The engineers claim that the pay now received is inadequate to the service performed.

We learn that the vacancies were immediately filled, and no trips have been or will be lost.

The strike occurred when the freight train was ready to start at 9½ A. M. Seven of the men, including the engineer of that train, struck, and refused to run another train, unless $70 per month was allowed them. They were all immediately discharged by the superintendent.—*Milwaukee Sentinel.*

The Cheapest Store in the County.

THE LARGEST, Most General and Best Selected Stock of MERCHANDISE ever introduced to the people of Rock and the adjoining counties is now received at the EMPIRE CASH STORE. A Stock larger than any Two Stores in Janesville to be Sold for CASH, at prices that all can see are at least 25 per cent lower than the PRETNDED CASH STORES SELL FOR.

We mean what we say exactly: We can sell you

MORE GOODS

FOR THE

Least amount of Money

Than any other Store in the county. For this reason we sell more Goods than any two Stores in Janesville, and this year we intend to sell more than any three, consequently, we can sell just one-third cheaper, as our expenses are no more by selling so much than they would be did we not sell any more than our neighbors.

Reduce The Price and Increase the Speed

Is the order of the day; and in order to do so, we have purchased this spring larger than ever, and intend to sell at prices to astonish everybody.

We buy Goods to SELL, and intend everybody shall understand this by our prices. We have purchased every thing by the Cord in the way of Merchandise. Our Stock embraces every thing in the Goods line, kept in such a store as ours only, commencing with

DRY GOODS, GROCERIES,

CROCKERY, HARDWARE in connection with a general STOVE TRADE,

READY-MADE CLOTHING,

BOOTS and SHOES, HATS, BONNETS, RIBBONS and CAPS, &c. &c.,

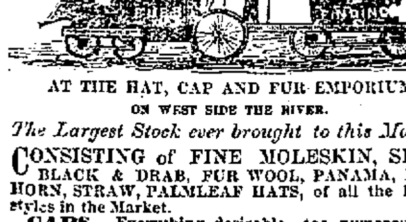

To enumerate which would be impossible, (any one seeing our stock will be satisfied of that).

KIER'S ROCK OIL,

FROM a Well 400 feet deep, Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of no common value. It is a different thing from the old Kentucky or American Oil, as this is used INTERNALLY as well as externally. As a local remedy in Paralysis, Piles, Rheumatism, Deafness, Loss of Sight, Burns, &c. —also, as a valuable *Internal Remedy* for Piles, Ague, Scrofula, Coughs, Diarrhœa, Erysipelas, old Sores, Eruptions of the Skin, Female Diseases, Worms, Bladder and Kidneys, Bronchitis, Pains &c. &c., it invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has within 2 or 3 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sales not only *increase* but *hold out.* Testimony to its great merit is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.

IT DOCTORS THE WHOLE MAN—flesh and blood—skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both cathartic and astringent, it is Alterative—and mind you, a REGULATOR. A leading principle in it is *Naptha.* When you once have it in the family you will not be without it.

Full as the world is of Patent Medicines—it is thought not best to suppress this, the work of NATURE—to make room for *Human inventions.* Price 50 cents per bottle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US?—A tea spoonful every three hours in the absence of the fever will cure you of Ague or Diarrhœa. ☞ Physicians, Druggists, and all friends of the afflicted, will do well to recommend this Oil for PROLAPSUS UTERI, and good will be done—take the usual dose 2 or 3 times a day, and bathe the lower part of the back with it. Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful reddish color and clear. Try it for Piles.

For sale by HOLDEN KEMP & CO.,

RAILROAD STORE!

I WISH to call attention, as I have
done before,
To the Goods I am receiving now at the Railroad Store,
Where all the newest Fashions, to suit the young and
old,
The richest and the cheapest goods in Janesville, will
be sold.

My large and splendid stock of Lawns to show I'm always willing,
The price, as all the Ladies know, is from sixpence to a
shilling.
I've Fine Black Silks from Italy, and colored ones that's
rare,
Plaid, Grodenaps and Marcellaines, and Florences to
spare.

And such a lot of Hosiery, I know cannot be beat,
And Gloves a great variety, they are so very neat:
Just now, when Spring is coming, and every thing looks
bright,
For a glove to suit the season, the color should be light.

There are other Goods for Ladies, of which they ought
to know,
That I keep in those blue boxes, and am always pleased
to show,
Such as Blonde and Linen Edging, Cotton and Cambric,
too,
Muslin and Cambric Needlework, and Gimps of every
hue.

Those Undersleeves and Chimisettes I almost had forgot,
And Ladies' Needlework Collars, so beautifully wrought,
With Bishop Lawns and Cambrics, and Muslins fine
and neat,
And Lace to make old ladies' Caps and trim them off
complete.

And to parry Sol's "directer rays," I've Parasols to
sell,
Of every price and color—they please the Ladies well—
And Umbrellas cheap for Gents, or so at least they say,
For lots of them get carried off, on every rainy day.

Such lots of Combs for the million, of every sort and
kind,
To puff, or curl, or plait the hair, no better can you
find;
And every kind of Buttons for dresses, coats and vests,
To sell by the gross or dozen—they are the very best.

And for Gentlemen and little Boys I have Fashionable
Hats,
Silk, Beaver, Leghorn, Panama, and cloth and leather
Caps;
And for infants, Hats with feathers and ribbons gay
and bright,
And little Caps with tassels drab, orange, blue and
white.

I have stacks of Linen, of yellow, brown and white,
And every other kind, of Summer Goods that's right
To make up into coats and pantaloons and vests—
As large a stock as any, that ever was brought West.

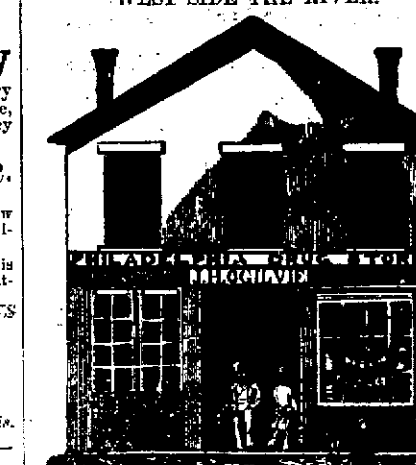

They say long advertisements, are not the oftenest
read,
And that most may be meant, as oft, when least is said,
In view of this, I'll close my bill, and here invite you
all,
Whenever you come to Janesville, be sure and give me
a call.

A GREAT MISTAKE.

J. B. CROSBY & Co.,

HAVE just returned from New York and Boston, and purchased so large a stock of Merchandise that they have not room to store them, and to remedy this, they have concluded to mark their goods down at

A TRIFLE ABOVE COST,

which will crowd their store with customers and ensure large and heavy sales, thus making room for goods yet to arrive. Ladies and Gentlemen,

THIS IS NO HUMBUG,

but a REALITY, and to be convinced of this fact personally, look through their immense stock, see the amount of goods they have in store, (and but a portion of their stock has yet arrived,) enquire the price, and you will acknowledge that we will sell you

GOOD GOODS, at nearly half the Price,

that other Merchants charge. We shall not mention a few leading articles and their prices, and sell the balance of stock at higher rates, as other Merchants do, but shall mark our whole stock at a small regular profit, and adhere strictly to the

ONE PRICE SYSTEM.

Our stock consists of STAPLE AND FANCY DRY GOODS, GROCERIES, CROCKERY, BOOTS AND SHOES, HATS, CAPS, CARPETS, OIL CLOTHS, READY-MADE CLOTHING, &c. &c., to which we invite especial attention, as to quality and price, as we are determined that

Every Sale shall give Full and Perfect Satisfaction,

Auction or shop worn goods which are not cheap a any price we do not deal in; but buy only the best grade of goods, and of the latest styles. We are the only House in Janesville that do a strictly cash business, and buying of importers and wholly for cash, we

CAN AND WILL SELL

CHEAPER AND BETTER GOODS,

than those who buy small stocks on time, and sell them the same way.

To Country Merchants,

We would say, that we will sell you goods at New York and Boston prices, adding freight. You will find us at the old stand of J. B. CROSBY, *two doors above the Post Office.*

1000 Dollars Reward,

WILL be given to any person—Physician or otherwise—who will perform a cure as quickly and permanently, by any means whatever, of any of the following diseases, as can be done by the use of

PULVERMACHER'S

Hydro-Electric Voltaic Chains.

Rheumatism,	Nervous Headache,
Painful and Swelled Joints,	Palpitation of the Heart,
Sciatica,	General Debility,
Paralysis,	Female Diseases,
Spinal Disease,	Neuralgia of the Face,
Deafness, Blindness,	Rheumatic Pains of the Chest
Dyspepsia, Indigestion,	

ALL NERVOUS DISEASES

Are almost instantly removed by the simple application of the Electric Chains, which are constructed so as to be worn next to the skin, producing a constant current of uninterrupted Electro-Magnetism, which within the last few years, has been discovered to possess STRANGE and WONDERFUL POWER, in the INSTANT RELIEF and PERMANENT CURE of nervous diseases.

HISTORY.

Pulvermachers' Chain are presented to the public, as the most scientific and convenient mode of applying this powerful agent. They have been secured by patent in France, (where they were invented) England, Germany, Austria, Belgium, and one year since introduced into the United States, and also secured by patent. They are used in every Hospital in the State of New York, and highly recommended by professors Valentine Mott, Van Buren, Post, Carnochan, of that city, who daily make use of them in their practice.

THE WORLD IS CHALLENGED

to produce so many well authenticated certificates of cure, not only from intelligent patients, but from *scientific Physicians.* The sale now in New York is perfectly ASTONISHING, and thousands who visit the Crystal Palace where they are on exhibition, seldom fail to obtain a chain before they leave the city.

Thanks be to the common sense of the people who are beginning to become disgusted with the practice of making a Drug Shop of their stomach—swallowing bottle after bottle of sickening, disgusting trash, having no more effect in even relieving, much less curing, the disease for which they are recommended, than a Poor Man's Plaster applied to the top of the head would have in curing an infant of worms.

All these great and remarkable discoveries, by which every ill "which flesh is heir to" is eradicated from the earth—strange as it may seem—are made by men who are too *ignorant* to obtain a living by any other mode, and their knowledge of disease, its proper mode of cure, its cause, is just as extensive as an Arab's is of the mechanism of a steam engine. No intelligent person will deny the truth of this, and no Physician dare risk his reputation as an honest man, and declare that *nervous diseases* are not more frequently increased in severity than *relieved,* by the old antiquated way of giving medicine into the stomach. If people will only become sensible and think for themselves, and believe that physicians practice upon their credulity more than they have any idea of, pay strict attention to temperance in all things, (which means very much,) make free use of *pure cold water, internally and externally,* with an occasional dash of soap, sleep in freely ventilated rooms, retire early and rise early, be happy and cheerful, employ their physicians to tell them "they require no physic;"—by so doing health and happiness will increase, bottled molasses and water be at a discount, and its famous discoverers be consigned to their legitimate stations.

The Hydro-Electric chains are now for the first time offered to the people of Nashua, as being a *better, quicker, and safer mode* of curing all nervous diseases, than any other method or means hitherto discovered. They can be used by either a grown person or a child, are always ready for use, and with little care will last for years.

CAUTION.

Ladies who are *enciente,* are requested not to wear them, for by long use, miscarriage is apt to be produced.

Price of Chains, $3 to $5, and can be sent by mail to any part of the country, together with a pamphlet of 36 pages, containing the modes of use, certificates of cure, &c. J. STEINERT, General Agent,

New England Mutual Life Ins.,
Of Boston, Mass., Chartered in 1843,
Capital and accumulation, $650,000.
THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.
Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.
The directors are required to be pecuniarily interested in the company, and they give it their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties.
Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST,
THE MADISON MUTUAL,
LOCATED AT MADISON, WISCONSIN.
THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies.
All losses promptly paid at the office as soon as proof is made thereon.
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing.
Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected POSITIVELY, by LETTING THEM ALONE.
Farmers, look to your own interest, and insure in a Farmers' Company.
We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss,* though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.
The best of references given as to the responsibility of the company.

CHOLERA AT WAUKESHA.—During the past week there have been ten deaths from Cholera in Waukesha; and 18 in all since the disease first made its appearance. Only three Americans have died of the disease.

☞ A portion of Ft. Howard military reserve in Brown county, will be sold on the 1st day of September next.

STATE SENATOR DEAD.—Baltus Mantz, state senator from Washington county, died recently,

CURE FOR SUMMER COMPLAINT.—We are indebted to a friend for the following receipt for making blackberry syrup. This syrup is said to be almost a specific for the summer complaint. In 1832 it was successful in more than one case of cholera. The fruit is now in market, and the present is the proper time to make it.

To 2 quarts of juice of blackberries, add
1 pound of loaf sugar,
½ oz. nutmeg, ½ oz. cinnamon, pulverized.
½ oz. cloves, ½ oz. allspice. do.

Boil together for a short time, and when cold add a pint of fourth-proof brandy.

You will save many bitter tears by publishing the above in your valuable paper. From a tea-spoonful to a wine-glass, according to the age of the patient, till relieved, is to be given. It may spoil practice, but it will save life.—*New York Evening Post.*

THE LAST OF NELSON'S CREW.—A veteran sailor, named John Groombridge, above one hundred years of age, and said to be the last survivor of Lord Nelson's crew at Copenhagen, made a call a few days ago upon some of his old Kentish friends. It appears that he was born at Yalding, was apprenticed at Chatham to a Quaker, named White, and was married at twenty years of age; but on the day of his wedding was seized by a pressgang and hurried off to Hull, whence he was sent to sea, and remained in the service through the long succeeding wars, commencing with that against the revolted American colonies, now the United States. Among the engagements in which he took part was one against Paul Jones. Subsequently he served under Lord Nelson, both at Copenhagen and Trafalgar, and has sailed with our present Baltic and Black Sea Admirals, Napier and Dundas, when the former was a boy-lieutenant. He is now an in-pensioner of Greenwich hospital, the oldest on the college books, and is, he says, the sole survivor of the crew sailing in the Victory, when Nelson met his death wound.—He retains a perfect command of all his faculties. He adds that he never saw his wife after the day that he was torn from her, fresh from nuptial rites at church, by the ruthless pressgang, but she lived some fifty years afterwards; and that he learned the particulars of her death shortly after it happened, some thirty years ago.—*Kentish Mercury.*

KEEPING EGGS.—A friend who has made several voyages to the coast of Africa and other tropical regions, says that he has kept eggs in the best condition, by placing two or three dozen in a cullender, and pouring over them as many quarts of boiling water, then pack away in straw, or bran, or saw-dust. Newly laid eggs must be used for this purpose, and they will be found as good for boiling after a year and perfectly fresh, when treated as above.

CUCUMBERS.—Who ever heard of cooking a cucumber? we hear our readers exclaim! Try it, and then tell your neighbors how well a poor man may live in this country. Take the cucumber just as it begins to turn yellow, peel and slice it into salt water: drop it into cold water and boil until tender. Season with salt and pepper—mix with batter and fry. Few can tell it from egg plant.—*Soil of the South.*

A KNOW NOTHING.—The St. Louis Herald says that another know nothing has come to light in that city—the second one he has heard of—and he is indebted to a woman for the discovery. She says her husband is one of the new order, because when she asked him when he was going to buy her that new dress, he replied, "I don't know;" she inquired when he would take her out riding—and when he would purchase "them spoons" that new castor, and the carpet they were talking about—to all of which he answered, "I don't know." She says if he isn't a know nothing, she don't know nothing about 'em.

Mr. McCormick, who was accidentally shot the other day, is reported to be in a fair way to recover. Dr. Chapman of this place recently visited him, and thinks that he may even recover the use of the injured arm.—*Madison Jour.*

SUPREME COURT.—We understand that this court will probably adjourn the last of the present week until the first of October, or thereabouts, at which time the judges will read their opinions upon the cases brought before them during the present term.—*Madison Journal.*

AGAIN & AGAIN
THE BOSTON STORE.

Let the Horn be Blown!!

"Sound the loud timbrel o'er land and o'er sea,"
WHEELOCK'S triumphant, and ever shall be.

THIS is the middle of the nineteenth century, the first half of which has produced more change and onward movement than any fifty years of our Christian Era.

The great controlling power of this age is its commerce—indeed, this may be truly called the commercial age.

It has been well said by an ancient writer that "Man wants but little here below,"
and to supply those wants

WHEELOCK

Announces to every people and every tongue, to both sexes and all parties, to all factions of all gauges, that finding his old store entirely

TOO SMALL!

He has been compelled, in order to be able to supply the immense call for goods at his establishment, to

Double the capacity of his Store Rooms!

Having purchased this spring, for this market, to be sold this season,

$39,007 00 Worth of Goods

But who can expect to read in the brief space of one life all the articles that the

BOSTON STORE CONTAINS.

Indeed, history must fail to give the searcher of knowledge any accurate idea of his immense

STOCK OF SUMMER GOODS,
His inimitable selection of
Fancy Dress Goods!

He has ever

10,000 Yards of Silk Barages,

of every style and price, and it is with no great difficulty that the fair damsels of this fair valley can select,

FROM THE ONE THOUSAND PIECES,

Of all patterns and ranging in price from *SIX CENTS Per Yard to Twenty-Eight Cents*, such dresses as will add to their exquisite beauty, though it may as a general thing, be as difficult to add to that beauty as it is "to gild refined gold, paint the lily, or add perfume to the violet."

It must not be inferred that we offer only these and the many other articles for outer apparel, such as Chamelion and Foulard Silks, but all manner of

Cotton, Grass & Linen Goods

are on change, so that every one may be entirely accommodated with every article of female apparrel.—
Ever French red foxed Gaiters,
do do wolfed do
Ladies' Enameled Boots, Enameled sewed Congress Boots,
LADIES MOROCCO POLKAS,

And all the articles manufacutred of the best styles.—So that of this store, so far as articles which adorn La Belle sex are concerned, it may be truly said

"CUSTOM cannot stale the infinite variety."

While the Boston Store has made provision to protect the feet, it can also boast that it has all sorts of

GLOVES,

by which hands can be protected and retain

"The white wonder of fair Juliet's hand."

And in taking leave of those of whom it is no exaggeration to say they are

"Heaven's last, best gift to man,"

the Nonpareils of beauty, the Paragons of perfection, Mr. Wheelock assures his fair customers that his assistants and auxiliaries are those who unite great knowledge of the business, fine personal presence and affability of manner to a determination to discharge CONSCIENTIOUSLY their several and respective duties—that while they may have the proper desire to effect sales, they will never in imitation of many of our contemporaries attempt to accomplish that object by equivocation, misrepresentation, exaggeration, tergiversation, fabrication, or by direct lying.

And now to the wants of the

COARSE-HAND SEX.

Mr. Wheelock has every kind of material to make those articles of dress that give to man his individuality—

PANTALOONS,

CALF "BEWTS," COW HIDE do., GAZELLE, do., PATENT LEATHER do., GIRAFFE do.,

HATS

That fit every head from the Websterian brow to the country politician's sconce, from the size of caput of him who is closely shorn after the Hibernian fashion to that of him who wears the well-pomatumed, ambrosialized, elongated Hyperion curls.

And to the speculator who buys to sell again,

The Boston Store

Can, at lower rates of usance than any other establishment west of the Alleghany mountains, furnish that class of exchanges so that riches will fill their pockets as water fills the sea. And to them we offer

DOMESTIC GLASSWARE, WORSTED,
Pocket Handkerchiefs, Inkstands, Cotton Yarn, Ready-made Vests, Ground Pepper, Flannels, Looking Glasses, Ready-Made Over Coats, Pants, Baisins, Flat Irons and Cotton Batting, Lanterns, Satchels, which the whining school-boy with shining morning face bears on his arm,
Chests, Norwegian Bandboxes and Hair Trunks,
Tea, Tobacco and Wicking.

In the

CROCKERY

Line may be found the BENNINGTON, the PARIAN and the LAVA Manufacture, Pitchers for milk or water, Tea Pots, Spittoons, Bowls for washing, for bread and milk, or sugar, Candlesticks, children's Toys and Flower Pots, MAINE LIQUOR LAW VOLUMES and Lager Beer Mugs.

And in fine, the proprietor of this establishment can with all confidence assure those who have been in the habit of trading at Janesville that, although they have

"Often seen corruption boil and bubble till
It o'erran the stew,"

they will find that the representations which shall be made to them by that proprietor or his clerks will not

"Stand like forfeits in a Barber shop,
More in mock than mark."

The ONE PRICE CASH SYSTEM, originally introduced into this community and strictly adhered to by this Establishment, has won for it a reputation far more valuable than the Stupendous Self-puffings, quarterly renewed, industriously circulated but universally discredited, which many modern shop keepers deem indispensable to success.

The system will of course be continued—admitting no variation or improvement—to the satisfaction undoubtedly of a large and most desirable class of customers, although at the sacrifice probably of the steady patronage of inveterate higglers and those who inherit the belief that *all* Salesmen will cheat them if possible.

Respectfully,
COOLEY & BABCOCK.

Merchant Tailor, & Dealer in Ready Made Clothing and Gentlemen's Furnishing Goods,

HAS received his Spring and Summer STOCK, consisting of the very Best and Fashionable CLOTHS, CASSIMERES, DOESKINS AND VESTINGS, of English, French and American manufacture.

This establishment is now, as usual, the favorite place of resort for the Fashionable, the Cutting Department still being under my own personal supervision, and warranted to suit the most difficult, twenty per cent lower than any other establishment in the State.

No Fit, No Sale, is my doctrine.

You will ask how I can do this; I will tell you: From my long experience in this business, and being a practical Tailor, I know when, where and how to buy my Goods, what to pay for them, and how to cut them, not having to secure the services of an *eminent artist*, at a salary of $1,000 to $1,500 a year, which the purchaser must pay for—this is the secret. I have got on hand a good assortment of

of my own manufacture, and warranted in every respect. *Call and examine, before you buy elsewhere.*

GREAT SALE OF
REAL ESTATE!

Rare Chance for Investment!

600 Village Lots!

THE undersigned offers at private sale SIX HUNDRED VILLAGE LOTS, situated in "Hickory Glen" and "Pixley & Shaw's" addition to Janesville, and located in the immediate vicinity of the Milwaukee and Mississippi railroad depot, in the city of Janesville.

The above property is but a short distance from the present business center of the thriving city of Janesville, and towards which, through the influence of the various railroads, in operation and projected, the business of the city is fast finding its way.

It is unnecessary to speak of the peculiar advantages of an investment in a property so centrally located in the largest inland city in the State of Wisconsin—a city so widely known for its thrift and business prosperity, possessing extensive water-power and surrounded by the best farming country in the world—as every one at all conversant with the progress of western cities will see at once these advantages.

The above property is offered at very low rates, and on the most favorable terms, particularly to those who wish to make immediate improvements on purchases.

Also, 1,000 Acres of the
Best Improved Farming Lands,

situated within a few miles of the city, which will be sold in lots to suit purchasers, from 40 to 320 acres.

For particulars enquire of the undersigned at "*Pixley & Kimball's Hardware Store,*" or of THOMAS SHAW. B. F. PIXLEY.

NEW GOODS!
$15,000 Worth of
BOOTS AND SHOES
JUST RECEIVED AT THE
Wisconsin Boot & Shoe Store.

I AM now receiving one of the largest and finest stocks of Boots and Shoes that I have ever before brought to Janesville, and what is finer than all the rest, I can sell them at lower prices than I have ever sold before, notwithstanding the great advance in the Eastern Market. My assortment of

Ladies Fine Shoes,

in particular, I have no hesitation in saying cannot be equaled in the State, both for style and durability, being all made to order, and in such a manner that I can warrant every article I sell, with the understanding at all times, that if they do not come up to the warrant, they shall be mended free of charge.

GENTLEMEN'S WEAR.

In this line I know beyond a doubt that I can show you a finer assortment and at better prices by twenty-five per cent. than can be found at any of the side shops or Dry Goods stores about town. I want it distinctly understood that I make the BOOT AND SHOE TRADE my WHOLE STUDY, and that I *Buy More, Sell More and Know more about the trade,* than the whole pile of petty dealers put together. And I know also that I can make it an object for **Every Farmer in Rock County,** as well as every one that trades in Janesville to buy their Boots and Shoes of me for the more I sell the smaller profits I can sell at.

Manufacturing.

I want to say a few words to you in regard to my Manufacturing Department, to wit: That I am now engaged more extensively in the manufacturing business, and probably am selling more custom work than all the shops about town put together, simply for these reasons—that I use better Stock, being entirely of Eastern tannage, which every one knows is worth twenty-five per cent more than the common western tanned leather; and what is a better reason and of greater importance, I can

Sell my Custom Work at Much Lower Prices,

and at the same time sell you a better article than you can get at the shops, for this reason, which you must all see is a very palpable one, that in buying my stock east and in such large quantities, I of course save a very large per cent, and thereby can sell at lower prices and at the same time make my profits.

I want to state further that I have secured the services of MR. BUCKINGHAM, who has formerly been engaged in the manufacturing business on the west side of the River, and who is known by every one to be the best manufacturer in the city; and if we don't get you up a better article, both in regard to style and durability, we will forfeit our money and our reputation, and I pledge you my word that this is *no small forfeit.*

Leather and Findings.

I have just received over $3,000 worth of the very best brands of **Eastern Sole & Upper Leather;** also, a very large assortment of FRENCH and PHILADELPHIA KIP and FRENCH CALF SKINS, together with a full assortment of MOROCCOS of every kind, which I will sell at

Precisely Milwaukee and Chicago Prices.

I have constantly on hand, also, a large assortment of all kings of FINDINGS, LASTS, BOOT TREES, CRIMPS, etc., etc., all of which will be sold at the same rates.

I request the attention of manufacturers in town as well as in the country to my stock, as I think I can make it an object for you to buy of me. At least, I can sell you a much superior article to that which you get of the peddlers.

TO THE LADIES,

I would say that I am under very great obligation for the partiality you have shown me, in always procuring your understandings from me, and I now publicly promise and swear that I will make every one of you who may be entitled to the same a present of a handsome pair of CACKS, when I shall have closed up my shoe-selling career. I would say further, that I am prepared to get up to order any style of work you wish, at low rates. Yours respectfully,
J. B. DIMOCK, Proprietor,
T. H. BUCKINGHAM, Foreman.

The Daily Gazette.

JANESVILLE : : : : WISCONSIN.

FRIDAY MORNING, AUG. 11, 1854.

For telegraphic news see third page.

☞ It is just nine years this eleventh day of August since the first number of the Janesville Gazette was issued. It was then a six column paper, little larger than the present daily, and its subscription list hardly numbered three hundred names. It has been enlarged twice since that. There were no papers published in the state then except at Milwaukee, Racine, Southport, Waukesha, Green Bay, Madison and Mineral Point, but very soon after, the Western Star was started at Elkhorn. Now almost every county in the state has its paper, and many of them several. The population of Janesville at that time was about one thousand; now it is about six thousand. There were scarcely half a dozen houses upon the west side of the river, and Monterey was an entire wilderness. There was plenty of land to be had at government price within two or three miles of the village, and village lots were selling at from thirty to fifty dollars per lot. One school house served the whole village not only for schools, but it was used Sundays for a church, there being no church building in the town.

Those who have preserved a full file of the Gazette, have the best record to be had, of passing events in the town, county and other portions of the state. It contains the number of inhabitants of the town taken at various times, showing the rate of increase; full statistics of the business of Janesville at different periods; a history of the settlement of the several towns in this and adjoining counties, and a thousand other statements and facts, invaluable for future reference.

PRESIDENT'S VETO.—Our exchanges brought us yesterday the veto of president Pierce of the river and harbor bill. Alleged reason—want of time to consider and examine its provisions; real reason—hostility to the enterprises and subserviency to the south. The president promises to send in to congress when it assembles again, his views at length, and "endeavor to define approximately, at least, and according to my own convictions, what appropriations of this nature by the general government the great interests of the United States require, the constitution will admit and sanction, in case no substitute should be devised capable of reconciling the differences both of constitutionality and expediency." We humbly submit that this promised message is wholly unnecessary, and the attempt to establish the unconstitutionality and inexpediency of meagre appropriations to western rivers and harbors, while $150,000 can be given to a river in Virginia, and millions lavished upon wealthy steamship companies on the Atlantic, is simply absurd. The present administration has need of the help of no such insult to common sense to bury it beneath the curses of of the people.

DEFEAT OF COL. BENTON.—The St. Louis papers report the probable defeat of Col. Benton as a representative in congress by Mr. Kennett, the whig candidate. We record this with unfeigned regret. There has been much in former contests between the whig and democratic parties to engender a bitter feeling towards Col. Benton among those against whom he was then arrayed, and there is little in his personal character and bearing to conciliate an opposition once aroused. Yet we hoped he would be sustained on the issue in which he was now more directly before the people of his district, and had we been voters there, we should most assuredly have overlooked the past and forgotten at least long enough to have voted for him the contentions of other days. The moral effect of his election, in rebuking a gross violation of plighted faith by the people of a state so intimately involved as Missouri, would have been most salutary, and should have outweighed any personal or party considerations.

☞ The Milwaukee and Mississippi railroad company are constructing a round house at Madison, with Milwaukee brick. The Journal says that a number of warehouses and other buildings are also going up in the vicinity, and there will soon be quite a village about the depot.

☞ The Minnesota land bill was repealed and the pending grants before congress were not acted on. Among the bills which failed were the Texas debt, $8,500,000; French spoliation, $5,000,000; Ocean steamship, $850,000; the Pacific railroad and telegraph; Shanghai steamship; Ramsey California mail route and weekly California mail.

The Waukesha Plain Dealer says that Albert J. Tirrill who murdered Maria Bickford, was formerly a clerk for Solomon Juneau of Milwaukee, and was the first merchant who ever sold goods in Waukesha. He kept a small store for Mr. Juneau, near where the Catholic church now stands.

PINE LUMBER.—Mr. Norris' steam mill has been for some time in full operation sawing his pine lumber. Mr. George Richards, who has been for three years in the employment of Mr. Norris, has the credit of rafting and sawing the first pine log brought to this section of the country.

☞ The number of passengers arriving at Milwaukee in July was 8,703.

☞ It is said that foreigners own one hundred and forty millions of dollars worth of railroad and other stocks in the United States.

The whigs of the fourth congressional district of Maine, have nominated the Hon. S. P. Benson candidate for re-election to the U. S. house of representatives. There was no opposition manifested at the convention.

The Position of our Supreme Court.

AN article under this caption appeared in the Standard of yesterday, from which it seems that after the publication of the opinions of the judges on Booth's second applicat'on for a habeas corpus, there are still those who think the court has involved itself, by its second decision, in legal and logical difficulties; and it is to those who admit the propriety of the first decision, but are staggared at the second, that I wish to address a few words.

The main questions presented in the first decision were these: 1st, Ought the writ to have issued? and this question being settled affirmatively, 2d, Ought the prisoner to be discharged?

In dertermining the first question the court reasoned in this manner:

The rule that the court whose jurisdiction first attaches to a case will retain it, notwithstanding proceedings may be subsequently commenced, in other courts of concurrent jurisdiction, cannot apply in this case to prevent the issuing of a writ of habeas corpus by a justice of this court, since a commissioner is not an officer of the courts of the United States, for though appointed by the judges of those courts, neither the courts or judges are responsible for his acts; his powers and duties being particularly prescribed in the acts of congress, and a commissioner cannot with any propriety be called a judicial officer. But apart from any considerations of the powers of commissioners to bring the case within the rule, it must appear, that the district court of the United States had the case pending before it which was made by the issuing and serving of the writ of habeas corpus; that the question of the legality of the imprisonment of the petitioner was then pending before that court, and this the facts in the case do not show; they merely show the ordinary case of a person imprisoned under color of legal process for an alleged offence. In such cases the investigation of the legality of his imprisonment does not necessarily involve an enquiry into the question of his guilt or innocence, or of his liability to be held to answer for the alleged offence. It is not material for the present purpose to examine the reasons which governed the court in deciding the second branch of the case, since we are only enquiring why, if the issuing of the habeas corpus was proper in the first case, was it not proper in the second.

Very vague notions of the office of the writ of habeas corpus are entertained even among lawyers; and so late as the famous McLeod case, it was made a question whether it was not a part of its office to arrest the course of criminal justice by hearing without a jury, and discharging even without bail, one who has been indicted for murder and stands committed to await trial. But in that case the supreme court of the state of New York decided that proof of innocence was inadmissable after *indictment found* in a court competent to try the same, upon an application before them for the writ—and the rule is universal that after indictment found in a competent court, another court or a judge at chambers will not attempt a summary trial of an indictment, on an application for a writ of habeas corpus; for were such applications to be entertained, an indictment might be disposed of without court or jury, by the prisoner's applying to a judge at chambers, and. then upon his discharge defeating the jurisdiction.

The article referred to contains some crudities which to a lawyer appear simply ridiculous.

We read for instance as follows: "Now if there is *no law*, and if the law is unconstitutional there is none, how under no law can judge Whiton's court have jusisdiction?" No one should attempt to discuss a habeas corpus case unless he is aware that it is proper for our supreme court to issue the writ, when one is imprisoned under a warrant from any officer in this state, before *indictment regularly found* when that warrant is invalid for constitutional defects. And I would suppose that any candid man, of ordinary intelligence, could see a difference between imprisonment under a pretended warrant, and imprisonment in default of bail, after an indictment is actually found in a court competent to try that indictment.

But every well read lawyer knows, that the writ never issues for the purpose of trying the *guilt or innocence* of a party, but only whether he has been *properly charged* with crime.

Now it is evident that to have allowed the writ in the second case, would have been equivalent to trying the question of Booth's guilt or innocence—for all courts hold that after indictment regularly found, the prisoner *is* properly charged, and indeed is presumed to be guilty, subject only to a fair trial before a petit jury—upon which trial he must insist upon his constitutional defences. It is enough by all authorities that an indictment has been regularly found, in a competent court, and it is idle to urge that Booth has, upon the indictment, been committed for what our supreme court has decided to be no offense, because the rule of comity referred to, and which any tyro is aware of, *concludes* our supreme court from denying that Booth is not properly charged with an offense. Those who cavil at the decision of the supreme court in Booth's case are generally those who do not understand their scope.

They are not in conflict with the decisions of the supreme court of the U. S., and should that court of last resort, rule differently when his case comes before it, our supreme court will bow to the paramount interpretation—unless they are prepared for nullification—and the jealousies which have been industriously excited against the district court, outside of our supreme court, have had no influence within it.

As Booth is now circumstanced, there is but one question in his case for disposal, and that is of his guilt or innocence—the indictment of a grand jury as already stated, having excluded the conclusion that he is not properly charged with crime, and he must now be tried by a petit jury, and not on an application for habeas corpus. Doubtless he will urge his defence at the trial in the district court, and we are bound to presume that the rulings of that court upon the constitutional questions raised will be correct.

Had our supreme court issued the writ, it would have been a nugatory act, for they would have been obliged to remand the prisoner, by the provisions of the revised statutes, chapter 124, section 18. W.

BLOODY RIOT IN ST. LOUIS.—The St. Louis papers of Tuesday morning contain full accounts of an election riot in that city on Monday, which created great excitement.

The Intelligencer says that "the difficulty commenced in the 5th ward, and was occasioned by an Irishman stabbing an American. This was the signal for a general attack, which was commenced upon the Irish dogeries on Mayor and Green streets and Washington avenue, and all on the whole front of the levee, from Cherry street to below Locust, were more or less injured. The crowd supplied themselves with axes and other implements of the sort, from the steamboats at the wharf, and with them beat in the shutters and smashed the counters and everything that would yield to blows."

The riot continued for two hours of the afternoon, and at intervals during the night. Hundreds of discharges of pistols were made and three persons are known to be killed, while a great many were wounded in various ways. The military were called out and took possession of the streets. Eight companies were out. The Intelligencer says:

"On Morgan and Green streets, extending west from Broadway, not an Irish grocery was left, all being torn to pieces, and the houses more less injured. At a rough estimate there are not less than fifty or sixty houses, chiefly Irish doggeries of the lowest order, badly damaged, and their contents destroyed. To estimate the loss we are unable, but should guess it was not much short of $50,000. All this, besides the murder and maiming, was the work of but a few hours. The police force was entirely insufficient, and for nearly three hours the exited multitude had full sway. After the the appearance of the military, comparative order was restored, but up to the hour of going to press this morning, there were small squads moving here and there, but apparently without ability to do further mischief."

The Democrat says that during the riot, the Hibernians gave battle in one case but

"The crowd of rioters increasing, they gave way and retreated to their houses between Main and the Levee on Morgan. Here for a while the mob was a scene of the wildest excitement. The Irish fired is many, perhaps, as a hundred pistol shots into the crowd, who were breaking in the doors and windows of the houses by showers of stones from the street. At last the shooting was silenced and the mob proceeded down to the Levee and along it to Locust street, assailing every coffee house or tenement supposed to contain foreigners, with a continued storm of missiles."

After this the Irish made another stand on Second street, but were driven down past Cherry, the mob still continuing their assault upon the houses and windows.

The Democrat (Col. Benton's organ) we notice, lays the blame of the riot upon the Republican, which it says has been abusing the foreign population for a long time. We have not noticed this feature in the Republican, although it is on our exchange list: but from the tone of the Democrat, we should think that the Know-Nothings have been at their work in St. Louis as well as elsewhere, and that to them is to be ascribed the defeat of Colonel Benton, who with his friends, made a strong push for the foreign vote.—*Milwaukee Sentinel.*

DYING HARD.—The last hours of senate were occupied in the discussion of the question whether Senator Williams, of New Hampshire, was entitled to hold a seat in that body. It seems he clung to it with a death grasp, notwithstanding the committee had reported against his right, the precedents of twenty years stared him in the face, and the vote of the senate had declared him an interloper.

Having been kicked out of an executive session where he intruded himself, he next appeared as the senate was about adjourning, asking for a reconsideration of the vote, which being carried, he spoke about two hours, when the senate again voted *unanimously* that he was nothing more than a private citizen of New Hampshire!

Verily, the administration is forced into the lowest depths of humiliation. Though the people of New Hampshire have stripped the president of his constitutional advisers from that state, in the senate, the pitiable spectable is presented of his confidential friend, trying to sponge into that body, cringng and crawling to his place like a reptile.

We are glad the senate acted with promptitude in the matter. Poor Senator Williams! He must feel very much like a boy when he is thrust out of a circs, for gaining admission by crawling under the canvass.—*Chicago Journal.*

INTERESTING FROM SALT LAKE.—From the Los Angelos Star we extract the following account of a treaty entered into between Gov. Young and the chiefs of the Pah Utah and Pauvan Indians.

Says that paper: We have had an interview with Mr. S. N. Carvalho, artist attached to Col. Fremont's late exploring expedition. This gentleman arrived here on the 14th inst., from Salt Lake, where he was left by the expedition on account of ill health. He states that by invitation he accompanied Governor Brigham Young, and a large party from Great Salt Lake City, on the 6th of May, for Walker's camp, on Chicken creek; that there a formal treaty of peace was entered into by Walker and Kanoshe with Gov. Young, the nature of which was, that on no occasion whatever were the Indians to make any attack either on Americans or Mormons, and that they would use all their influence to prevent any depredations on the property of emigrants or settlers. Gov. Young presented them with eighteen head of cattle, blankets, clothing, arms and ammunition, and entered into arrangements that Mr. Porter Rockwell and five other gentlemen were to reside permanently with Walker's band of Utahs, and accompany them in all their journeyings, for the purpose of protecting the lives and proyerty of the whites.

ATTACK ON THE PRESIDENT BY A DRUNKEN MAN.—A despatch from Washington, dated the 5th, states that as President Pierce was leaving the Capitol, he was followed and addressed by a man from Charleston, named Jeffards, who was intoxicated. He asked Mr. Pierce to take a drink, but he refused. Jeffards threw an egg, and knocked off the President's hat, and was arrested by an officer immediately. He sent for several persons to become his bail, but they declined. He grew outrageous in a short time, and stabbed himself in the leg.

The President declined prosecuting Jeffards, and he was discharged.

THE GREATEST SCHEME OF MODERN TIMES—AN EMPIRE GIVEN TO A RAILROAD COMPANY.—A few days ago, Mr. Robert J. Walker, late secretary of the treasury, passed through our city on his way to Texas, bearing with him one million of dollars in Texas bonds, valued, according to the Texas gradation, at $300,000. This sum is to be deposited in the hands of the governor of Texas, in behalf of the Grand Pacific railroad, of which Mr. Walker is a stockholder to the amount of ten millions, and various other citizens—including the Rev. Counsellor Joel G. Sever, late of this city, whose stock only amounts to the modest sum of $500,000—own immense amounts.

Now, extravagant as this whole scheme has seemed, Mr. Walker by his address, skill and management, and without any violation of any law or other impropriety, has placed in a train which promises the most magnificant results.—The state of Texas—in a moment of madness and folly unparalleled in the annals of legislative insanity—passed a law donating twenty sections per mile to any company which shall build a road across its territory, near the parallel of 32, on the simple condition that said company shall commence the road by the 12th of August, and shall deposit $300,000 in the state treasury, which the company can draw out as soon as it finishes the first fifty miles of the road; that then the said fifty miles of the completed road shall be pledged for the completion of the remainder.—On these simple conditions, the company will receive scrip which takes preference of all others, for twenty sections of land per mile, for over eight hundred miles, making over ten millions of acres of land, the average value of which, we understand, will be nearly, if not quite, one hundred millions of dollars! Now, the highest estimate of the cost of a road, from the Mississippi to the Rio Grande, has never exceeded twenty millions, for the building of which this company will receive land worth one hundred millions.

But this is not all. There was an old charter in Texas, creating the company called the El Paso and Vicksburgh road, to which had been previously granted sixteen sections per mile; and this company having organized, not being able to sell its stocks, entered into negotiations with Chatfield, Walker's predecessor in the Grand Pacific, alias Moonshine road, to dispose of its charter. Pending the negotiations, some legal gentlemen of Texas, who happened to hear of the matter, called on the president of the company, and asked how much of the stock was unsubscribed, and were informed that there were twenty millions. They immediately entered their names for that balance; and when Mr. Chatfield came to close his purchase, they required him to pay $100,000 for their stock. This was the single advantage obtained by Texas throughout the whole negotiation. All the rest, we consider, displays the most extraordinary infatuation on the part of the people of Texas, to say nothing of the responsibility incurred by the leading managers in this affair, who represented the interest of the state, and were bound to protect it.

The Moonshine company obtained the additional sixteen sections per mile belonging to the El Paso road, and if they get from Governor Pease, of which there is little doubt, the latter grant of the twenty sections, all that will be necessary to enjoy both rights will be to build a double track railroad. Thereupon this company, started upon moonshine, will become the owners of the largest capital ever held by a corporation, and the people of Texas will have sold their birthright for less than a mess of potage. Walker and his companions are blameless in the matter. They respond to the invitation of the state, and though there is not a cent of their stock taken in Texas, they come with the cash, and with a brigade of contractors and workmen, who have already commenced work in eastern Texas, complying fully with all the conditions prescribed.

General Rusk, the senator from Texas, gives his full sanction to the scheme, and so does Gov. Pease and the legislature, and as the people appear to acquiesce in it, we cannot see that any body else has much cause of complaint, however great may be their astonishment at the "madness which rules the hour," in certain parts of our country, in regard to railroads and reckless appropriations of the public domain.—*N. O. Delta, July 21.*

SINGULAR OCCURRENCE.—The St. Louis Intelligencer has a very curious account of some circumstances attending the death of Dr. P. Domino, a physician of that city, who died last week at the hotel where he boarded. He was a very old man of parsimonious disposition, had few acquaintances, and not a single intimate. For many years he had an office on Market street, between Thirteenth and Fourteenth streets, where he spent his whole time, when not at meals, doing little business, and was a sort of mystery to his neighbors. He dressed ordinarily well, but in all other respects was seemingly in indigent circumstances. After his decease, however, a person in overlooking his baggage, examined a small carpet-bag lying in his chamber, and to his surprise found over $4,000 in money, all in small bills.

The deceased during his sickness was in constant fear of being robbed, but did not disclose to any of his attendants that he had so valuable possessions, and the cause of his extreme solicitude was not explained until the finding of the money. Dying intestate and having no known relative in St. Louis or elsewhere, the public administrator took charge of his effects, and ordered a sale of the furniture and personal property in his office on Market street. Mr. Riggin, the auctioneer, in conformity to the order, held a sale of the premises. While it was progressing and during the moving of the furniture, some one examined the cellar to take an inventory of the articles subject to sale, and in an old box under a heap of wood, came upon $1,700 in gold and silver. It was tied in small bags so rotted from age that the slightest handling reduced the canvass to shreds.

This discovery induced another exploration of the cellar and office, and it ended in a still more surprising result—the finding of nearly $4,500 in Missouri bank bills, hidden away in the chimney. Diligent search was again made, but as no more money was forthcoming, it is probable that the entire wealth of the old man had been regained.

A rumor prevailed, however, from the statements of two small boys in the neighborhood, that at the commencement of the sale a man was seen leaving the office with two bags of money. The sums last found are also in the hands of the public administrator.

STRIKE FOR HIGHER WAGES.—Several of the engineers on the Milwaukee and Mississippi railroad struck yesterday for higher wages. They demanded $70 per month, and this being refused by the superintendent, they quit work.—The engineers claim that the pay now received is inadequate to the service performed.

We learn that the vacancies were immediately filled, and no trips have been or will be lost.

The strike occurred when the freight train was ready to start at 9½ A. M. Seven of the men, including the engineer of that train, struck, and refused to run another train, unless $70 per month was allowed them. They were all immediately discharged by the superintendent.—*Milwaukee Sentinel.*

THE LARGEST, Most General and Best Selected Stock of MERCHANDISE ever introduced to the people of Rock and the adjoining counties is now received at the EMPIRE CASH STORE. A Stock larger than any Two Stores in Janesville to be Sold for CASH, at prices that all can see are at least 25 per cent lower than the PRETNDED CASH STORES SELL FOR.

MORE GOODS

FOR THE

Least amount of Money

Than any other Store in the county. For this reason we sell more Goods than any two Stores in Janesville, and this year we intend to sell more than any three, consequently, we can sell just one-third cheaper, as our expenses are no more by selling so much than they would be did we not sell any more than our neighbors.

Reduce The Price and Increase the Speed

Is the order of the day; and in order to do so, we have purchased this spring larger than ever, and intend to sell at prices to astonish everybody.

We buy Goods to SELL, and intend everybody shall understand this by our prices. We have purchased every thing by the Cord in the way of Merchandise. Our Stock embraces every thing in the Goods line, kept in such a store as ours only, commencing with

DRY GOODS, GROCERIES,

CROCKERY, HARDWARE in connection with a general STOVE TRADE.

KIER'S ROCK OIL,

FROM a Well 400 feet deep, Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of no common value. It is a different thing from the old Kentucky or American Oil, as this is used INTERNALLY as well as externally. As a local remedy in Paralysis, Piles, Rheumatism, Deafness, Loss of Sight, Burns, &c. —also, as a valuable *Internal Remedy* for Piles, Ague, Scrofula, Coughs, Diarrhœa, Erysipelas, old Sores, Eruptions of the Skin, Female Diseases, Worms, Bladder and Kidneys, Bronchitis, Pains &c. &c., it invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has within 2 or 3 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sales not only *increase* but *hold out.* Testimony to its great merit is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.

IT DOCTORS THE WHOLE MAN—flesh and blood —skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both cathartic and astringent, it is Alterative—and mind you, a REGULATOR. A leading principle in it is *Naptha.* When you once have it in the family you will not be without it.

Full as the world is of Patent Medicines—it is thought not best to suppress this, the work of NATURE—to make room for *Human inventions.* Price 50 cents per bottle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US?—A tea spoonful every three hours in the absence of the fever will cure you of Ague or Diarrhœa. ☞ Physicians, Druggists, and all friends of the afflicted, will do well to recommend this Oil for PROLAPSUS UTERI, and good will be done —take the usual dose 2 or 3 times a day, and bathe the lower part of the back with it. Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful reddish color and clear. Try it for Piles.

RAILROAD STORE!

I WISH to call attention, as I have done before,
To the Goods I am receiving now at the Railroad Store.
Where all the newest Fashions, to suit the young and old,
The richest and the cheapest goods in Janesville, will be sold.

My large and splendid stock of Lawns to show I'm always willing,
The price, as all the Ladies know, is from sixpence to a shilling.
I've Fine Black Silks from Italy, and colored ones that's rare,
Plaid, Grodenaps and Marcellaines, and Florences to spare.

And such a lot of Hosiery, I know cannot be beat,
And Gloves a great variety, they are so very neat:
Just now, when Spring is coming, and every thing looks bright,
For a glove to suit the season, the color should be light.

There are other Goods for Ladies, of which they ought to know,
That I keep in those blue boxes, and am always pleased to show,
Such as Blonde and Linen Edging, Cotton and Cambric, too,
Muslin and Cambric Needlework, and Gimps of every hue.

Those Undersleeves and Chimisettes I almost had forgot,
And Ladies' Needlework Collars, so beautifully wrought,
With Bishop Lawns and Cambrics, and Muslins fine and neat,
And Lace to make old ladies' Caps and trim them off complete.

And to parry Sol's "directer rays," I've Parasols to sell,
Of every price and color—they please the Ladies well—
And Umbrellas cheap for Gents, or so at least they say,
For lots of them get carried off, on every rainy day.

Such lots of Combs for the million, of every sort and kind,
To puff, or curl, or plait the hair, no better can you find;
And every kind of Buttons for dresses, coats and vests,
To sell by the gross or dozen—they are the very best.

And for Gentlemen and little Boys I have Fashionable Hats,
Silk, Beaver, Leghorn, Panama, and cloth and leather Caps;
And for infants, Hats with feathers and ribbons gay and bright,
And little Caps with tassels drab, orange, blue and white.

I have stacks of Linen, of yellow, brown and white,
And every other kind, of Summer Goods that's right
To make up into coats and pantaloons and vests—
As large a stock as any, that ever was brought West.

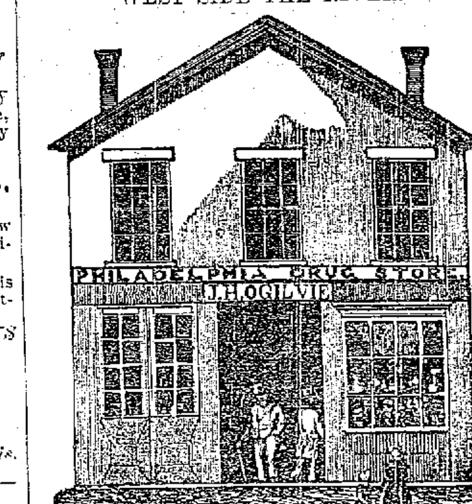

They say long advertisements, are not the oftenest read,
And that most may be meant, as oft, when least is said.
In view of this, I'll close my bill, and here invite you all,
Whenever you come to Janesville, be sure and give me a call.

that other Merchants charge. We shall not mention a few leading articles and their prices, and sell the balance of stock at *higher rates*, as other Merchants do, but shall mark our whole stock at a small regular profit, and adhere strictly to the

1000 Dollars Reward,

WILL be given to any person—Physician or otherwise—who will perform a cure as quickly and permanently, by any means whatever, of any of the following diseases, as can be done by the use of

PULVERMACHER'S

Hydro-Electric Voltaic Chains.

Rheumatism,	Nervous Headache,
Painful and Swelled Joints,	Palpitation of the Heart,
Sciatica,	General Debility,
Paralysis,	Female Diseases,
Spinal Disease,	Neuralgia of the Face,
Deafness, Blindness,	Rheumatic Pains of the
Dyspepsia, Indigestion,	Chest

ALL NERVOUS DISEASES

Are almost instantly removed by the simple application of the Electric Chains, which are constructed so as to be worn next to the skin, producing a constant current of uninterrupted Electro-Magnetism, which within the last few years has been discovered to possess STRANGE and WONDERFUL POWER, in the INSTANT RELIEF and PERMANENT CURE of nervous diseases.

HISTORY.

Pulvermachers' Chain are presented to the public, as the most scientific and convenient mode of applying this powerful agent. They have been secured by patent in France, (where they were invented) England, Germany, Austria, Belgium, and one year since introduced into the United States, and also secured by patent. They are used in every Hospital in the State of New York, and highly recommended by professors Valentine Mott, Van Buren, Post, Carnochan, of that city, who daily make use of them in their practice.

THE WORLD IS CHALLENGED

to produce so many well authenticated certificates of cure, not only from intelligent patients, but from *scientific Physicians.* The sale now in New York is perfectly ASTONISHING, and thousands who visit the Crystal Palace where they are on exhibition, seldom fail to obtain a chain before they leave the city.

Thanks be to the common sense of the people who are beginning to become disgusted with the practice of making a Drug Shop of their stomach—swallowing bottle after bottle of sickening, disgusting trash, having no more effect in even relieving, much less curing, the disease for which they are recommended, than a Poor Man's Plaster applied to the top of the head would have in curing an infant of worms.

All these great and remarkable discoveries, by which every ill "which flesh is heir to" is eradicated from the earth—strange as it may seem—are made by men who are too *ignorant* to obtain a living by any other mode, and their knowledge of disease, its proper mode of cure, its cause, is just as extensive as an Arab's is of the mechanism of a steam engine. No intelligent person will deny the truth of this, and no Physician dare risk his reputation as an honest man, and declare that *nervous diseases* are not more frequently increased in severity than *relieved*, by the old antiquated way of giving medicine into the stomach. If people will only become sensible and think for themselves, and believe that physicians practice upon their credulity more than they have any idea of, pay strict attention to temperance in all things, (which means very much,) make free use of *pure cold water, internally and externally*, with an occasional dash of soap, sleep in freely ventilated rooms, retire early and rise early, be happy and cheerful, employ their physicians to tell them "they require no physic;"—by so doing health and happiness will increase, bottled molasses and water be at a discount, and its famous discoverers be consigned to their legitimate stations.

The Hydro-Electric chains are now for the first time offered to the people of Nashua, as being a *better, quicker, and safer mode* of curing all nervous diseases, than any other method or means hitherto discovered. They can be used by either a grown person or a child, are always ready for use, and with little care will last for years.

CAUTION.

Ladies who are *enciente*, are requested not to wear them, for by long use, miscarriage is apt to be produced.

Price of Chains, $3 to $5, and can be sent by mail to any part of the country, together with a pamphlet of 36 pages, containing the modes of use, certificates of cure, &c. J. STEINERT, General Agent,

The Daily Gazette.

JANESVILLE : : : : WISCONSIN.

FRIDAY MORNING, AUG. 11, 1854.

For telegraphic news see third page.

☞ It is just nine years this eleventh day of August since the first number of the Janesville Gazette was issued. It was then a six column paper, little larger than the present daily, and its subscription list hardly numbered three hundred names. It has been enlarged twice since that. There were no papers published in the state then except at Milwaukee, Racine, Southport, Waukesha, Green Bay, Madison and Mineral Point, but very soon after, the Western Star was started at Elkhorn. Now almost every county in the state has its paper, and many of them several. The population of Janesville at that time was about one thousand; now it is about six thousand. There were scarcely half a dozen houses upon the west side of the river, and Monterey was an entire wilderness. There was plenty of land to be had at government price within two or three miles of the village, and village lots were selling at from thirty to fifty dollars per lot. One school house served the whole village not only for schools, but it was used Sundays for a church, there being no church building in the town.

Those who have preserved a full file of the Gazette, have the best record to be had, of passing events in the town, county and other portions of the state. It contains the number of inhabitants of the town taken at various times, showing the rate of increase; full statistics of the business of Janesville at different periods; a history of the settlement of the several towns in this and adjoining counties, and a thousand other statements and facts, invaluable for future reference.

PRESIDENT'S VETO.—Our exchanges brought us yesterday the veto of president Pierce of the river and harbor bill. Alleged reason—want of time to consider and examine its provisions; real reason—hostility to the enterprises and subserviency to the south. The president promises to send in to congress when it assembles again, his views at length, and "endeavor to define approximately, at least, and according to my own convictions, what appropriations of this nature by the general government the great interests of the United States require, the constitution will admit and sanction, in case no substitute should be devised capable of reconciling the differences both of constitutionality and expediency." We humbly submit that this promised message is wholly unnecessary, and the attempt to establish the unconstitutionality and inexpediency of meagre appropriations to western rivers and harbors, while $150,000 can be given to a river in Virginia, and millions lavished upon wealthy steamship companies on the Atlantic, is simply absurd. The present administration has need of the help of no such insult to common sense to bury it beneath the curses of of the people.

DEFEAT OF COL. BENTON.—The St. Louis papers report the probable defeat of Col. Benton as a representative in congress by Mr. Kennett, the whig candidate. We record this with unfeigned regret. There has been much in former contests between the whig and democratic parties to engender a bitter feeling towards Col. Benton among those against whom he was then arrayed, and there is little in his personal character and bearing to conciliate an opposition once aroused. Yet we hoped he would be sustained on the issue in which he was now more directly before the people of his district, and had we been voters there, we should most assuredly have overlooked the past and forgotten at least long enough to have voted for him the contentions of other days. The moral effect of his election, in rebuking a gross violation of plighted faith by the people of a state so intimately involved as Missouri, would have been most salutary, and should have outweighed any personal or party considerations.

☞ The Milwaukee and Mississippi railroad company are constructing a round house at Madison, with Milwaukee brick. The Journal says that a number of warehouses and other buildings are also going up in the vicinity, and there will soon be quite a village about the depot.

☞ The Minnesota land bill was repealed and the pending grants before congress were not acted on. Among the bills which failed were the Texas debt, $8,500,000; French spoliation, $5,000,000; Ocean steamship, $850,000; the Pacific railroad and telegraph; Shanghai steamship; Ramsey California mail route and weekly California mail.

The Waukesha Plain Dealer says that Albert J. Tirrill who murdered Maria Bickford, was formerly a clerk for Solomon Juneau of Milwaukee, and was the first merchant who ever sold goods in Waukesha. He kept a small store for Mr. Juneau, near where the Catholic church now stands.

PINE LUMBER.—Mr. Norris' steam mill has been for some time in full operation sawing his pine lumber. Mr. George Richards, who has been for three years in the employment of Mr. Norris, has the credit of rafting and sawing the first pine log brought to this section of the country.

☞ The number of passengers arriving at Milwaukee in July was 8,703.

☞ It is said that foreigners own one hundred and forty millions of dollars worth of railroad and other stocks in the United States.

The whigs of the fourth congressional district of Maine, have nominated the Hon. S. P. Benson candidate for re-election to the U. S. house of representatives. There was no opposition manifested at the convention.

The Position of our Supreme Court.

AN article under this caption appeared in the Standard of yesterday, from which it seems that after the publication of the opinions of the judges on Booth's second applicat'on for a habeas corpus, there are still those who think the court has involved itself, by its second decision, in legal and logical difficulties; and it is to those who admit the propriety of the first decision, but are staggared at the second, that I wish to address a few words.

The main questions presented in the first decision were these: 1st, Ought the writ to have issued? and this question being settled affirmatively, 2d, Ought the prisoner to be discharged?

In dertermining the first question the court reasoned in this manner:

The rule that the court whose jurisdiction first attaches to a case will retain it, notwithstanding proceedings may be subsequently commenced, in other courts of concurrent jurisdiction, cannot apply in this case to prevent the issuing of a writ of habeas corpus by a justice of this court, since a commissioner is not an officer of the courts of the United States, for though appointed by the judges of those courts, neither the courts or judges are responsible for his acts; his powers and duties being particularly prescribed in the acts of congress, and a commissioner cannot with any propriety be called a judicial officer. But apart from any considerations of the powers of commissioners to bring the case within the rule, it must appear, that the district court of the United States had the case pending before it which was made by the issuing and serving of the writ of habeas corpus; that the question of the legality of the imprisonment of the petitioner was then pending before that court, and this the facts in the case do not show; they merely show the ordinary case of a person imprisoned under color of legal process for an alleged offence. In such cases the investigation of the legality of his imprisonment does not necessarily involve an enquiry into the question of his guilt or innocence, or of his liability to be held to answer for the alleged offence. It is not material for the present purpose to examine the reasons which governed the court in deciding the second branch of the case, since we are only enquiring why, if the issuing of the habeas corpus was proper in the first case, was it not proper in the second.

Very vague notions of the office of the writ of habeas corpus are entertained even among lawyers; and so late as the famous McLeod case, it was made a question whether it was not a part of its office to arrest the course of criminal justice by hearing without a jury, and discharging even without bail, one who has been indicted for murder and stands committed to await trial. But in that case the supreme court of the state of New York decided that proof of innocence was inadmissable after *indictment found* in a court competent to try the same, upon an application before them for the writ—and the rule is universal that after indictment found in a competent court, another court or a judge at chambers will not attempt a summary trial of an indictment, on an application for a writ of habeas corpus; for were such applications to be entertained, an indictment might be disposed of without court or jury, by the prisoner's applying to a judge at chambers, and, then upon his discharge defeating the jurisdiction.

The article referred to contains some crudities which to a lawyer appear simply ridiculous.

We read for instance as follows: "Now if there is *no law*, and if the law is unconstitutional there is none, how under no law can judge Whiton's court have jusisdiction?" No one should attempt to discuss a habeas corpus case unless he is aware that it is proper for our supreme court to issue the writ, when one is imprisoned under a warrant from any officer in this state, before *indictment regularly found* when that warrant is invalid for constitutional defects. And I would suppose that any candid man, of ordinary intelligence, could see a difference between imprisonment under a pretended warrant, and imprisonment in default of bail, after an indictment is actually found in a court competent to try that indictment.

But every well read lawyer knows, that the writ never issues for the purpose of trying the *guilt or innocence* of a party, but only whether he has been *properly charged* with crime.

Now it is evident that to have allowed the writ in the second case, would have been equivalent to trying the question of Booth's guilt or innocence—for all courts hold that after indictment regularly found, the prisoner *is* properly charged, and indeed is presumed to be guilty, subject only to a fair trial before a petit jury—upon which trial he must insist upon his constitutional defences. It is enough by all authorities that an indictment has been regularly found, in a competent court, and it is idle to urge that Booth has, upon the indictment, been committed for what our supreme court has decided to be no offense, because the rule of comity referred to, and which any tyro is aware of, *concludes* our supreme court from denying that Booth is not properly charged with an offense. Those who cavil at the decision of the supreme court in Booth's case are generally those who do not understand their scope.

They are not in conflict with the decisions of the supreme court of the U. S., and should that court of last resort, rule differently when his case comes before it, our supreme court will bow to the paramount interpretation—unless they are prepared for nullification—and the jealousies which have been industriously excited against the district court, outside of our supreme court, have had no influence within it.

As Booth is now circumstanced, there is but one question in his case for disposal, and that is of his guilt or innocence—the indictment of a grand jury as already stated, having excluded the conclusion that he is not properly charged with crime, and he must now be tried by a petit jury, and not on an application for habeas corpus. Doubtless he will urge his defence at the trial in the district court, and we are bound to presume that the rulings of that court upon the constitutional questions raised will be correct.

Had our supreme court issued the writ, it would have been a nugatory act, for they would have been obliged to remand the prisoner, by the provisions of the revised statutes, chapter 124, section 18. W.

BLOODY RIOT IN ST. LOUIS.—The St. Louis papers of Tuesday morning contain full accounts of an election riot in that city on Monday, which created great excitement.

The Intelligencer says that "the difficulty commenced in the 5th ward, and was occasioned by an Irishman stabbing an American. This was the signal for a general attack, which was commenced upon the Irish dogeries on Mayor and Green streets and Washington avenue, and all on the whole front of the levee, from Cherry street to below Locust, were more or less injured. The crowd supplied themselves with axes and other implements of the sort, from the steamboats at the wharf, and with them beat in the shutters and smashed the counters and everything that would yield to blows."

The riot continued for two hours of the afternoon, and at intervals during the night. Hundreds of discharges of pistols were made and three persons are known to be killed, while a great many were wounded in various ways. The military were called out and took possession of the streets. Eight companies were out. The Intelligencer says:

"On Morgan and Green streets, extending west from Broadway, not an Irish grocery was left, all being torn to pieces, and the houses more less injured. At a rough estimate there are not less than fifty or sixty houses, chiefly Irish doggeries of the lowest order, badly damaged, and their contents destroyed. To estimate the loss we are unable, but should guess it was not much short of $50,000. All this, besides the murder and maiming, was the work of but a few hours. The police force was entirely insufficient, and for nearly three hours the exited multitude had full sway. After the the appearance of the military, comparative order was restored, but up to the hour of going to press this morning, there were small squads moving here and there, but apparently without ability to do further mischief."

The Democrat says that during the riot, the Hibernians gave battle in one case but

"The crowd of rioters increasing, they gave way and retreated to their houses between Main and the Levee on Morgan. Here for a while the mob was a scene of the wildest excitement. The Irish fired is many, perhaps, as a hundred pistol shots into the crowd, who were breaking in the doors and windows of the houses by showers of stones from the street. At last the shooting was silenced and the mob proceeded down to the Levee and along it to Locust street, assailing every coffee house or tenement supposed to contain foreigners, with a continued storm of missiles."

After this the Irish made another stand on Second street, but were driven down past Cherry, the mob still continuing their assault upon the houses and windows.

The Democrat (Col. Benton's organ) we notice, lays the blame of the riot upon the Republican, which it says has been abusing the foreign population for a long time. We have not noticed this feature in the Republican, although it is on our exchange list: but from the tone of the Democrat, we should think that the Know-Nothings have been at their work in St. Louis as well as elsewhere, and that to them is to be ascribed the defeat of Colonel Benton, who with his friends, made a strong push for the foreign vote.—*Milwaukee Sentinel.*

DYING HARD.—The last hours of senate were occupied in the discussion of the question whether Senator Williams, of New Hampshire, was entitled to hold a seat in that body. It seems he clung to it with a death grasp, notwithstanding the committee had reported against his right, the precedents of twenty years stared him in the face, and the vote of the senate had declared him an interloper.

Having been kicked out of an executive session where he intruded himself, he next appeared as the senate was about adjourning, asking for a reconsideration of the vote, which being carried, he spoke about two hours, when the senate again voted *unanimously* that he was nothing more than a private citizen of New Hampshire!

Verily, the administration is forced into the lowest depths of humiliation. Though the people of New Hampshire have stripped the president of his constitutional advisers from that state, in the senate, the pitiable spectable is presented of his confidential friend, trying to sponge into that body, cringng and crawling to his place like a reptile.

We are glad the senate acted with promptitude in the matter. Poor Senator Williams! He must feel very much like a boy when he is thrust out of a circs, for gaining admission by crawling under the canvass.—*Chicago Journal.*

INTERESTING FROM SALT LAKE.—From the Los Angelos Star we extract the following account of a treaty entered into between Gov. Young and the chiefs of the Pah Utah and Pauvan Indians.

Says that paper: We have had an interview with Mr. S. N. Carvalho, artist attached to Col. Fremont's late exploring expedition. This gentleman arrived here on the 14th inst., from Salt Lake, where he was left by the expedition on account of ill health. He states that by invitation he accompanied Governor Brigham Young, and a large party from Great Salt Lake City, on the 6th of May, for Walker's camp, on Chicken creek; that there a formal treaty of peace was entered into by Walker and Kanoshe with Gov. Young, the nature of which was, that on no occasion whatever were the Indians to make any attack either on Americans or Mormons, and that they would use all their influence to prevent any depredations on the property of emigrants or settlers. Gov. Young presented them with eighteen head of cattle, blankets, clothing, arms and ammunition, and entered into arrangements that Mr. Porter Rockwell and five other gentlemen were to reside permanently with Walker's band of Utahs, and accompany them in all their journeyings, for the purpose of protecting the lives and proyerty of the whites.

ATTACK ON THE PRESIDENT BY A DRUNKEN MAN.—A despatch from Washington, dated the 5th, states that as President Pierce was leaving the Capitol, he was followed and addressed by a man from Charleston, named Jeffards, who was intoxicated. He asked Mr. Pierce to take a drink, but he refused. Jeffards threw an egg, and knocked off the President's hat, and was arrested by an officer immediately. He sent for several persons to become his bail, but they declined. He grew outrageous in a short time, and stabbed himself in the leg.

The President declined prosecuting Jeffards, and he was discharged.

THE GREATEST SCHEME OF MODERN TIMES—AN EMPIRE GIVEN TO A RAILROAD COMPANY.—A few days ago, Mr. Robert J. Walker, late secretary of the treasury, passed through our city on his way to Texas, bearing with him one million of dollars in Texas bonds, valued, according to the Texas gradation, at $300,000. This sum is to be deposited in the hands of the governor of Texas, in behalf of the Grand Pacific railroad, of which Mr. Walker is a stockholder to the amount of ten millions, and various other citizens—including the Rev. Counsellor Joel G. Sever, late of this city, whose stock only amounts to the modest sum of $500,000—own immense amounts.

Now, extravagant as this whole scheme has seemed, Mr. Walker by his address, skill and management, and without any violation of any law or other impropriety, has placed in a train which promises the most magnificant results.—The state of Texas—in a moment of madness and folly unparalleled in the annals of legislative insanity—passed a law donating twenty sections per mile to any company which shall build a road across its territory, near the parallel of 32, on the simple condition that said company shall commence the road by the 12th of August, and shall deposit $300,000 in the state treasury, which the company can draw out as soon as it finishes the first fifty miles of the road; that then the said fifty miles of the completed road shall be pledged for the completion of the remainder.—On these simple conditions, the company will receive scrip which takes preference of all others, for twenty sections of land per mile, for over eight hundred miles, making over ten millions of acres of land, the average value of which, we understand, will be nearly, if not quite, one hundred millions of dollars! Now, the highest estimate of the cost of a road, from the Mississippi to the Rio Grande, has never exceeded twenty millions, for the building of which this company will receive land worth one hundred millions.

But this is not all. There was an old charter in Texas, creating the company called the El Paso and Vicksburgh road, to which had been previously granted sixteen sections per mile; and this company having organized, not being able to sell its stocks, entered into negotiations with Chatfield, Walker's predecessor in the Grand Pacific, alias Moonshine road, to dispose of its charter. Pending the negotiations, some legal gentlemen of Texas, who happened to hear of the matter, called on the president of the company, and asked how much of the stock was unsubscribed, and were informed that there were twenty millions. They immediately entered their names for that balance; and when Mr. Chatfield came to close his purchase, they required him to pay $100,000 for their stock. This was the single advantage obtained by Texas throughout the whole negotiation. All the rest, we consider, displays the most extraordinary infatuation on the part of the people of Texas, to say nothing of the responsibility incurred by the leading managers in this affair, who represented the interest of the state, and were bound to protect it.

The Moonshine company obtained the additional sixteen sections per mile belonging to the El Paso road, and if they get from Governor Pease, of which there is little doubt, the latter grant of the twenty sections, all that will be necessary to enjoy both rights will be to build a double track railroad. Thereupon this company, started upon moonshine, will become the owners of the largest capital ever held by a corporation, and the people of Texas will have sold their birthright for less than a mess of potage. Walker and his companions are blameless in the matter. They respond to the invitation of the state, and though there is not a cent of their stock taken in Texas, they come with the cash, and with a brigade of contractors and workmen, who have already commenced work in eastern Texas, complying fully with all the conditions prescribed.

General Rusk, the senator from Texas, gives his full sanction to the scheme, and so does Gov. Pease and the legislature, and as the people appear to acquiesce in it, we cannot see that any body else has much cause of complaint, however great may be their astonishment at the "madness which rules the hour," in certain parts of our country, in regard to railroads and reckless appropriations of the public domain.—*N. O. Delta, July 21.*

SINGULAR OCCURRENCE.—The St. Louis Intelligencer has a very curious account of some circumstances attending the death of Dr. P. Domino, a physician of that city, who died last week at the hotel where he boarded. He was a very old man of parsimonious disposition, had few acquaintances, and not a single intimate. For many years he had an office on Market street, between Thirteenth and Fourteenth streets, where he spent his whole time, when not at meals, doing little business, and was a sort of mystery to his neighbors. He dressed ordinarily well, but in all other respects was seemingly in indigent circumstances. After his decease, however, a person in overlooking his baggage, examined a small carpet-bag lying in his chamber, and to his surprise found over $4,000 in money, all in small bills.

The deceased during his sickness was in constant fear of being robbed, but did not disclose to any of his attendants that he had so valuable possessions, and the cause of his extreme solicitude was not explained until the finding of the money. Dying intestate and having no known relative in St. Louis or elsewhere, the public administrator took charge of his effects, and ordered a sale of the furniture and personal property in his office on Market street. Mr. Riggin, the auctioneer, in conformity to the order, held a sale of the premises. While it was progressing and during the moving of the furniture, some one examined the cellar to take an inventory of the articles subject to sale, and in an old box under a heap of wood, came upon $1,700 in gold and silver. It was tied in small bags so rotted from age that the slightest handling reduced the canvass to shreds.

This discovery induced another exploration of the cellar and office, and it ended in a still more surprising result—the finding of nearly $4,500 in Missouri bank bills, hidden away in the chimney. Diligent search was again made, but as no more money was forthcoming, it is probable that the entire wealth of the old man had been regained.

A rumor prevailed, however, from the statements of two small boys in the neighborhood, that at the commencement of the sale a man was seen leaving the office with two bags of money. The sums last found are also in the hands of the public administrator.

STRIKE FOR HIGHER WAGES.—Several of the engineers on the Milwaukee and Mississippi railroad struck yesterday for higher wages. They demanded $70 per month, and this being refused by the superintendent, they quit work.—The engineers claim that the pay now received is inadequate to the service performed.

We learn that the vacancies were immediately filled, and no trips have been or will be lost.

The strike occurred when the freight train was ready to start at 9½ A. M. Seven of the men, including the engineer of that train, struck, and refused to run another train, unless $70 per month was allowed them. They were all immediately discharged by the superintendent.—*Milwaukee Sentinel.*

CURE FOR SUMMER COMPLAINT.—We are indebted to a friend for the following receipt for making blackberry syrup. This syrup is said to be almost a specific for the summer complaint. In 1832 it was successful in more than one case of cholera. The fruit is now in market, and the present is the proper time to make it.

To 2 quarts of juice of blackberries, add
1 pound of loaf sugar,
½ oz. nutmeg, ½ oz. cinnamon, pulverized.
½ oz. cloves, ½ oz. allspice. do.

Boil together for a short time, and when cold add a pint of fourth-proof brandy.

You will save many bitter tears by publishing the above in your valuable paper. From a tea-spoonful to a wine-glass, according to the age of the patient, till relieved, is to be given. It may spoil practice, but it will save life.—*New York Evening Post.*

THE LAST OF NELSON'S CREW.—A veteran sailor, named John Groombridge, above one hundred years of age, and said to be the last survivor of Lord Nelson's crew at Copenhagen, made a call a few days ago upon some of his old Kentish friends. It appears that he was born at Yalding, was apprenticed at Chatham to a Quaker, named White, and was married at twenty years of age; but on the day of his wedding was seized by a pressgang and hurried off to Hull, whence he was sent to sea, and remained in the service through the long succeeding wars, commencing with that against the revolted American colonies, now the United States. Among the engagements in which he took part was one against Paul Jones. Subsequently he served under Lord Nelson, both at Copenhagen and Trafalgar, and has sailed with our present Baltic and Black Sea Admirals, Napier and Dundas, when the former was a boy-lieutenant. He is now an in-pensioner of Greenwich hospital, the oldest on the college books, and is, he says, the sole survivor of the crew sailing in the Victory, when Nelson met his death wound.—He retains a perfect command of all his faculties. He adds that he never saw his wife after the day that he was torn from her, fresh from nuptial rites at church, by the ruthless pressgang, but she lived some fifty years afterwards; and that he learned the particulars of her death shortly after it happened, some thirty years ago.—*Kentish Mercury.*

KEEPING EGGS.—A friend who has made several voyages to the coast of Africa and other tropical regions, says that he has kept eggs in the best condition, by placing two or three dozen in a cullender, and pouring over them as many quarts of boiling water, then pack away in straw, or bran, or saw-dust. Newly laid eggs must be used for this purpose, and they will be found as good for boiling after a year and perfectly fresh, when treated as above.

CUCUMBERS.—Who ever heard of cooking a cucumber? we hear our readers exclaim! Try it, and then tell your neighbors how well a poor man may live in this country. Take the cucumber just as it begins to turn yellow, peel and slice it into salt water: drop it into cold water and boil until tender. Season with salt and pepper—mix with batter and fry. Few can tell it from egg plant.—*Soil of the South.*

A KNOW NOTHING.—The St. Louis Herald says that another know nothing has come to light in that city—the second one he has heard of—and he is indebted to a woman for the discovery. She says her husband is one of the new order, because when she asked him when he was going to buy her that new dress, he replied, "I don't know;" she inquired when he would take her out riding—and when he would purchase "them spoons" that new castor, and the carpet they were talking about—to all of which he answered, "I don't know." She says if he isn't a know nothing, she don't know nothing about 'em.

Mr. McCormick, who was accidentally shot the other day, is reported to be in a fair way to recover. Dr. Chapman of this place recently visited him, and thinks that he may even recover the use of the injured arm.—*Madison Jour.*

SUPREME COURT.—We understand that this court will probably adjourn the last of the present week until the first of October, or thereabouts, at which time the judges will read their opinions upon the cases brought before them during the present term.—*Madison Journal.*

AGAIN & AGAIN

THE BOSTON STORE.

Let the Horn be Blown!!

"Sound the loud timbrel o'er land and o'er sea," WHEELOCK'S triumphant, and ever shall be.

THIS is the middle of the nineteenth century, the first half of which has produced more change and onward movement than any fifty years of our Christian Era.

The great controlling power of this age is its commerce—indeed, this may be truly called the commercial age.

It has been well said by an ancient writer that

"Man wants but little here below,"

and to supply those wants

WHEELOCK

Announces to every people and every tongue, to both sexes and all parties, to all factions of all gauges, that finding his old store entirely

TOO SMALL!

He has been compelled, in order to be able to supply the immense call for goods at his establishment, to

Double the capacity of his Store Rooms!

Having purchased this spring, for this market, to be sold this season,

$39,007 00 Worth of Goods

But who can expect to read in the brief space of one life all the articles that the

BOSTON STORE CONTAINS.

Indeed, history must fail to give the searcher of knowledge any accurate idea of his immense

STOCK OF SUMMER GOODS,

His inimitable selection of

Fancy Dress Goods!

He has over

10,000 Yards of Silk Barages,

of every style and price, and it is with no great difficulty that the fair damsels of this fair valley can select,

FROM THE ONE THOUSAND PIECES,

Of all patterns and ranging in price from *SIX CENTS Per Yard to Twenty-Eight Cents*, such dresses as will add to their exquisite beauty, though it may as a general thing, be as difficult to add to that beauty as it is "to gild refined gold, paint the lily, or add perfume to the violet."

It must not be inferred that we offer only these and the many other articles for outer apparel, such as Chamelion and Foulard Silks, but all manner of

Cotton, Grass & Linen Goods

are on change, so that every one may be entirely accommodated with every article of female apparel.—
Eved French red foxed Gaiters,
do do wolfed do
Ladies' Enameled Boots, Enameled sewed Congress Boots,
LADIES MOROCCO POLKAS,

And all the articles manufacutred of the best styles.—So that of this store, so far as articles which adorn La Belle sex are concerned, it may be truly said

"CUSTOM cannot stale the infinite variety."

While the Boston Store has made provision to protect the feet, it can also boast that it has all sorts of

GLOVES,

by which hands can be protected and retain

"The white wonder of fair Juliet's hand."

And in taking leave of those of whom it is no exaggeration to say they are

"Heaven's last, best gift to man,"

the Nonpareils of beauty, the Paragons of perfection, Mr. Wheelock assures his fair customers that his assistants and auxiliaries are those who unite great knowledge of the business, fine personal presence and affability of manner to a determination to discharge conscientiously their several and respective duties—that while they may have the proper desire to effect sales, they will never in imitation of many of our contemporaries attempt to accomplish that object by equivocation, misrepresentation, exaggeration, tergiversation, fabrication, or by direct lying.

And now to the wants of the

COARSE-HAND SEX.

Mr. Wheelock has every kind of material to make those articles of dress that give to man his individuality—

PANTALOONS,

CALF "BEWTS," COW HIDE do., GAZELLE, do., PATENT LEATHER do., GIRAFFE do.,

HATS

That fit every head from the Websterian brow to the country politician's sconce, from the size of caput of him who is closely shorn after the Hibernian fashion to that of him who wears the well-pomatumed, ambrosialized, elongated Hyperion curls.

And to the speculator who buys to sell again,

The Boston Store

Can, at lower rates of usance than any other establishment west of the Alleghany mountains, furnish that class of exchanges so that riches will fill their pockets as water fills the sea. And to them we offer
DOMESTIC GLASSWARE, WORSTED,
Pocket Handkerchiefs, Inkstands, Cotton Yarn,
Ready-made Vests, Ground Pepper, Flannels,
Looking Glasses, Ready-Made Over Coats, Pants,
Raisins, Flat Irons and Cotton Batting, Lanterns,
Satchels, which the whining school-boy with shining morning face bears on his arm,
Chests, Norwegian Handboxes and Hair Trunks,
Tea, Tobacco and Wicking.

In the

CROCKERY

Line may be found the
BENNINGTON, the PARIAN and the LAVA Manufacture, *Pitchers for milk or water*, Tea Pots, Spittoons, Bowls for washing, for bread and milk, or sugar, Candlesticks, children's Toys and Flower Pots, MAINE LIQUOR LAW VOLUMES and Lager Beer Mugs.

And in fine, the proprietor of this establishment can with all confidence assure those who have been in the habit of trading at Janesville that, although they have

"Often seen corruption boil and bubble till It o'errun the stew,"

they will find that the representations which shall be made to them by that proprietor or his clerks will not

"Stand like forfeits in a Barber shop, More in mock than mark."

A. W. WHEELOCK.

The ONE PRICE CASH SYSTEM, originally introduced into this community and strictly adhered to by this Establishment, has won for it a reputation far more valuable than the Stupendous Self-puffings, quarterly renewed, industriously circulated but universally discredited, which many modern shop keepers deem indispensable to success.

The system will of course be continued—admitting no variation or improvement—to the satisfaction undoubtedly of a large and most desirable class of customers, although at the sacrifice probably of the steady patronage of inveterate higglers and those who inherit the belief that *all* Salesmen will cheat them if possible.

Respectfully,
COOLEY & BABCOCK.

HAS received his Spring and Summer STOCK, consisting of the very Best and Fashionable CLOTHS, CASSIMERES, DOESKINS AND VESTINGS, of English, French and American manufacture.

This establishment is now, as usual, the favorite place of resort for the Fashionable, the Cutting Department still being under my own personal supervision, and warranted to suit the most difficult, twenty per cent lower than any other establishment in the State.

No Fit, No Sale, is my doctrine.

You will ask how I can do this; I will tell you: From my long experience in this business, and being a practical Tailor, I know when, where and how to buy my Goods, what to pay for them, and how to cut them, not having to secure the services of an *eminent artist*, at a salary of $1,000 to $1,500 a year, which the purchaser must pay for—this is the secret. I have got on hand a good assortment of

Ready Made Clothing,

of my own manufacture, and warranted in every respect. *Call and examine, before you buy elsewhere.*

NEW GOODS!

$15,000 Worth of

BOOTS AND SHOES

JUST RECEIVED AT THE

Wisconsin Boot & Shoe Store.

I AM now receiving one of the largest and finest stocks of Boots and Shoes that I have ever before brought to Janesville, and what is finer than all the rest, I can sell them at lower prices than I have ever sold before, notwithstanding the great advance in the Eastern Market. My assortment of

Ladies Fine Shoes,

in particular, I have no hesitation in saying cannot be equaled in the State, both for style and durability, being all made to order, and in such a manner that I can warrant every article I sell, with the understanding at all times, that if they do not come up to the warrant, they shall be mended free of charge.

GENTLEMEN'S WEAR.

In this line I know beyond a doubt that I can show you a finer assortment and at better prices by twenty-five per cent. than can be found at any of the side shops or Dry Goods stores about town. I want it distinctly understood that I make the BOOT AND SHOE TRADE my WHOLE STUDY, and that I *Buy More, Sell More and know more about the trade*, than the whole pile of petty dealers put together. And I know also that I can make it an object for **Every Farmer in Rock County**, as well as every one that trades in Janesville to buy their Boots and Shoes of me, for the more I sell the smaller profits I can sell at.

Manufacturing.

I want to say a few words to you in regard to my Manufacturing Department, to wit: That I am now engaged more extensively in the manufacturing business, and probably am selling more custom work than all the shops about town put together, simply for these reasons—that I use better Stock; being entirely of Eastern tannage, which every one knows is worth twenty-five per cent more than the common western tanned leather; and what is a better reason and of greater importance, I can

Sell my Custom Work at Much Lower Prices,

and at the same time sell you a better article than you can get at the shops, for this reason, which you must all see is a very palpable one, that in buying my stock cast and in such large quantities, I of course save a very large per cent, and thereby can sell at lower prices and at the same time make my profits.

I want to state further that I have secured the services of Mr. BUCKINGHAM, who has formerly been engaged in the manufacturing business on the west side of the River, and who is known by every one to be the best manufacturer in the city; and if we don't get you up a better article, both in regard to style and durability, we will forfeit our money and our reputation, and I pledge you my word that this is *no small forfeit.*

Leather and Findings.

I have just received over $3,000 worth of the very best brands of **Eastern Sole & Upper Leather**; also, a very large assortment of FRENCH and PHILADELPHIA KIP and FRENCH CALF SKINS, together with a full assortment of MOROCCOS of every kind, which I will sell at

Precisely Milwaukee and Chicago Prices.

I have constantly on hand, also, a large assortment of all kinds of FINDINGS, LASTS, BOOT TREES, CRIMPS, etc., etc., all of which will be sold at the same rates.

I request the attention of manufacturers in town as well as in the country to my stock, as I think I can make it an object for you to buy of me. At least, I can sell you a much superior article to that which you get of the peddlers.

TO THE LADIES.

I would say that I am under very great obligation for the partiality you have shown me, in always procuring your understandings from me, and I now publicly promise and swear that I will make every one of you who may be entitled to the same a present of a handsome pair of CACKS, when I shall have closed up my shoe selling career. I would say further, that I am prepared to get up to order, any style of work you wish, at low rates. Yours respectfully,

J. B. DIMOCK, Proprietor,
T. H. BUCKINGHAM, Foreman.

CHOLERA AT WAUKESHA.—During the past week there have been ten deaths from Cholera in Waukesha; and 13 in all since the disease first made its appearance. Only three Americans have died of the disease.

☞ A portion of Ft. Howard military reserve in Brown county, will be sold on the 1st day of September next.

STATE SENATOR DEAD.—Baltus Mantz, state senator from Washington county, died recently,

CURE FOR SUMMER COMPLAINT.—We are indebted to a friend for the following receipt for making blackberry syrup. This syrup is said to be almost a specific for the summer complaint. In 1832 it was successful in more than one case of cholera. The fruit is now in market, and the present is the proper time to make it.

To 2 quarts of juice of blackberries, add
1 pound of loaf sugar,
½ oz. nutmeg, ½ oz. cinnamon, pulverized.
½ oz. cloves, ½ oz. allspice. do.

Boil together for a short time, and when cold add a pint of fourth-proof brandy.

You will save many bitter tears by publishing the above in your valuable paper. From a tea-spoonful to a wine-glass, according to the age of the patient, till relieved, is to be given. It may spoil practice, but it will save life.—*New York Evening Post.*

THE LAST OF NELSON'S CREW.—A veteran sailor, named John Groombridge, above one hundred years of age, and said to be the last survivor of Lord Nelson's crew at Copenhagen, made a call a few days ago upon some of his old Kentish friends. It appears that he was born at Yalding, was apprenticed at Chatham to a Quaker, named White, and was married at twenty years of age; but on the day of his wedding was seized by a pressgang and hurried off to Hull, whence he was sent to sea, and remained in the service through the long succeeding wars, commencing with that against the revolted American colonies, now the United States. Among the engagements in which he took part was one against Paul Jones. Subsequently he served under Lord Nelson, both at Copenhagen and Trafalgar, and has sailed with our present Baltic and Black Sea Admirals, Napier and Dundas, when the former was a boy-lieutenant. He is now an in-pensioner of Greenwich hospital, the oldest on the college books, and is, he says, the sole survivor of the crew sailing in the Victory, when Nelson met his death wound.—He retains a perfect command of all his faculties. He adds that he never saw his wife after the day that he was torn from her, fresh from nuptial rites at church, by the ruthless pressgang, but she lived some fifty years afterwards; and that he learned the particulars of her death shortly after it happened, some thirty years ago.—*Kentish Mercury.*

KEEPING EGGS.—A friend who has made several voyages to the coast of Africa and other tropical regions, says that he has kept eggs in the best condition, by placing two or three dozen in a cullender, and pouring over them as many quarts of boiling water, then pack away in straw, or bran, or saw-dust. Newly laid eggs must be used for this purpose, and they will be found as good for boiling after a year and perfectly fresh, when treated as above.

CUCUMBERS.—Who ever heard of cooking a cucumber? we hear our readers exclaim! Try it, and then tell your neighbors how well a poor man may live in this country. Take the cucumber just as it begins to turn yellow, peel and slice it into salt water: drop it into cold water and boil until tender. Season with salt and pepper—mix with batter and fry. Few can tell it from egg plant.—*Soil of the South.*

A KNOW NOTHING.—The St. Louis Herald says that another know nothing has come to light in that city—the second one he has heard of—and he is indebted to a woman for the discovery. She says her husband is one of the new order, because when she asked him when he was going to buy her that new dress, he replied, "I don't know;" she inquired when he would take her out riding—and when he would purchase "them spoons" that new castor, and the carpet they were talking about—to all of which he answered, "I don't know." She says if he isn't a know nothing, she don't know nothing about 'em.

Mr. McCormick, who was accidentally shot the other day, is reported to be in a fair way to recover. Dr. Chapman of this place recently visited him, and thinks that he may even recover the use of the injured arm.—*Madison Jour.*

SUPREME COURT.—We understand that this court will probably adjourn the last of the present week until the first of October, or thereabouts, at which time the judges will read their opinions upon the cases brought before them during the present term.—*Madison Journal.*

AGAIN & AGAIN

THE BOSTON STORE.

Let the Horn be Blown!!

"Sound the loud timbrel o'er land and o'er sea," WHEELOCK'S triumphant, and ever shall be.

THIS is the middle of the nineteenth century, the first half of which has produced more change and onward movement than any fifty years of our Christian Era.

The great controlling power of this age is its commerce—indeed, this may be truly called the commercial age.

It has been well said by an ancient writer that

"Man wants but little here below,"

and to supply those wants

WHEELOCK

Announces to every people and every tongue, to both sexes and all parties, to all factions of all gauges, that finding his old store entirely

TOO SMALL!

He has been compelled, in order to be able to supply the immense call for goods at his establishment, to

Double the capacity of his Store Rooms!

Having purchased this spring, for this market, to be sold this season,

$39,007 00 Worth of Goods

But who can expect to read in the brief space of one life all the articles that the

BOSTON STORE CONTAINS.

Indeed, history must fail to give the searcher of knowledge any accurate idea of his immense

STOCK OF SUMMER GOODS,

His inimitable selection of

Fancy Dress Goods!

He has over

10,000 Yards of Silk Barages,

of every style and price, and it is with no great difficulty that the fair damsels of this fair valley can select,

FROM THE ONE THOUSAND PIECES,

Of all patterns and ranging in price from *SIX CENTS Per Yard to Twenty-Eight Cents*, such dresses as will add to their exquisite beauty, though it may as a general thing, be as difficult to add to that beauty as it is "to gild refined gold, paint the lily, or add perfume to the violet."

It must not be inferred that we offer only these and the many other articles for outer apparel, such as Chamelion and Foulard Silks, but all manner of

Cotton, Grass & Linen Goods

are on change, so that every one may be entirely accommodated with every article of female apparel.—
Eved French red foxed Balters,
do do wolfed do
Ladies' Enameled Boots, Enameled sewed Congress Boots,
LADIES MOROCCO POLKAS,

And all the articles manufacutred of the best styles.—So that of this store, so far as articles which adorn La Belle sex are concerned, it may be truly said

"CUSTOM cannot stale the infinite variety."

While the Boston Store has made provision to protect the feet, it can also boast that it has all sorts of

GLOVES,

by which hands can be protected and retain

"The white wonder of fair Juliet's hand."

And in taking leave of those of whom it is no exaggeration to say they are

"Heaven's last, best gift to man,"

the Nonpareils of beauty, the Paragons of perfection, Mr. Wheelock assures his fair customers that his assistants and auxiliaries are those who unite great knowledge of the business, fine personal presence and affability of manner to a determination to discharge conscientiously their several and respective duties—that while they may have the proper desire to effect sales, they will never in imitation of many of our contemporaries attempt to accomplish that object by equivocation, misrepresentation, exaggeration, tergiversation, fabrication, or by direct lying.

And now to the wants of the

COARSE-HAND SEX.

Mr. Wheelock has every kind of material to make those articles of dress that give to man his individuality—

PANTALOONS,

CALF "BEWTS," COW HIDE do., GAZELLE, do., PATENT LEATHER do., GIRAFFE do.,

HATS

That fit every head from the Websterian brow to the country politician's sconce, from the size of caput of him who is closely shorn after the Hibernian fashion to that of him who wears the well-pomatumed, ambrosialized, elongated Hyperion curls.

And to the speculator who buys to sell again,

The Boston Store

Can, at lower rates of usance than any other establishment west of the Alleghany mountains, furnish that class of exchanges so that riches will fill their pockets as water fills the sea. And to them we offer
DOMESTIC GLASSWARE, WORSTED,
Pocket Handkerchiefs, Inkstands, Cotton Yarn,
Ready-made Vests, Ground Pepper, Flannels,
Looking Glasses, Ready-Made Over Coats, Pants,
Raisins, Flat Irons and Cotton Batting, Lanterns,
Satchels, which the whining school-boy with shining morning face bears on his arm,
Chests, Norwegian Handboxes and Hair Trunks,
Tea, Tobacco and Wicking.

In the

CROCKERY

Line may be found the
BENNINGTON, the PARIAN and the LAVA Manufacture, *Pitchers for milk or water*, Tea Pots, Spittoons, Bowls for washing, for bread and milk, or sugar, Candlesticks, children's Toys and Flower Pots, MAINE LIQUOR LAW VOLUMES and Lager Beer Mugs.

And in fine, the proprietor of this establishment can with all confidence assure those who have been in the habit of trading at Janesville that, although they have

"Often seen corruption boil and bubble till It o'errun the stew,"

they will find that the representations which shall be made to them by that proprietor or his clerks will not

"Stand like forfeits in a Barber shop, More in mock than mark."

A. W. WHEELOCK.

The ONE PRICE CASH SYSTEM, originally introduced into this community and strictly adhered to by this Establishment, has won for it a reputation far more valuable than the Stupendous Self-puffings, quarterly renewed, industriously circulated but universally discredited, which many modern shop keepers deem indispensable to success.

The system will of course be continued—admitting no variation or improvement—to the satisfaction undoubtedly of a large and most desirable class of customers, although at the sacrifice probably of the steady patronage of inveterate higglers and those who inherit the belief that *all* Salesmen will cheat them if possible.

Respectfully,
COOLEY & BABCOCK.

WM. ADDY,

Merchant Tailor, & Dealer in Ready Made Clothing and Gentlemen's Furnishing Goods,

HAS received his Spring and Summer STOCK, consisting of the very Best and Fashionable CLOTHS, CASSIMERES, DOESKINS AND VESTINGS, of English, French and American manufacture.

This establishment is now, as usual, the favorite place of resort for the Fashionable, the Cutting Department still being under my own personal supervision, and warranted to suit the most difficult, twenty per cent lower than any other establishment in the State.

No Fit, No Sale, is my doctrine.

You will ask how I can do this; I will tell you: From my long experience in this business, and being a practical Tailor, I know when, where and how to buy my Goods, what to pay for them, and how to cut them, not having to secure the services of an *eminent artist*, at a salary of $1,000 to $1,500 a year, which the purchaser must pay for—this is the secret. I have got on hand a good assortment of

Ready Made Clothing,

of my own manufacture, and warranted in every respect. *Call and examine, before you buy elsewhere.*

NEW GOODS!

$15,000 Worth of

BOOTS AND SHOES

JUST RECEIVED AT THE

Wisconsin Boot & Shoe Store.

I AM now receiving one of the largest and finest stocks of Boots and Shoes that I have ever before brought to Janesville, and what is finer than all the rest, I can sell them at lower prices than I have ever sold before, notwithstanding the great advance in the Eastern Market. My assortment of

Ladies Fine Shoes,

in particular, I have no hesitation in saying cannot be equaled in the State, both for style and durability, being all made to order, and in such a manner that I can warrant every article I sell, with the understanding at all times, that if they do not come up to the warrant, they shall be mended free of charge.

GENTLEMEN'S WEAR.

In this line I know beyond a doubt that I can show you a finer assortment and at better prices by twenty-five per cent. than can be found at any of the side shops or Dry Goods stores about town. I want it distinctly understood that I make the BOOT AND SHOE TRADE my WHOLE STUDY, and that I *Buy More, Sell More and know more about the trade*, than the whole pile of petty dealers put together. And I know also that I can make it an object for **Every Farmer in Rock County**, as well as every one that trades in Janesville to buy their Boots and Shoes of me, for the more I sell the smaller profits I can sell at.

Manufacturing.

I want to say a few words to you in regard to my Manufacturing Department, to wit: That I am now engaged more extensively in the manufacturing business, and probably am selling more custom work than all the shops about town put together, simply for these reasons—that I use better Stock; being entirely of Eastern tannage, which every one knows is worth twenty-five per cent more than the common western tanned leather; and what is a better reason and of greater importance, I can

Sell my Custom Work at Much Lower Prices,

and at the same time sell you a better article than you can get at the shops, for this reason, which you must all see is a very palpable one, that in buying my stock cast and in such large quantities, I of course save a very large per cent, and thereby can sell at lower prices and at the same time make my profits.

I want to state further that I have secured the services of Mr. BUCKINGHAM, who has formerly been engaged in the manufacturing business on the west side of the River, and who is known by every one to be the best manufacturer in the city; and if we don't get you up a better article, both in regard to style and durability, we will forfeit our money and our reputation, and I pledge you my word that this is *no small forfeit.*

Leather and Findings.

I have just received over $3,000 worth of the very best brands of **Eastern Sole & Upper Leather**; also, a very large assortment of FRENCH and PHILADELPHIA KIP and FRENCH CALF SKINS, together with a full assortment of MOROCCOS of every kind, which I will sell at

Precisely Milwaukee and Chicago Prices.

I have constantly on hand, also, a large assortment of all kinds of FINDINGS, LASTS, BOOT TREES, CRIMPS, etc., etc., all of which will be sold at the same rates.

I request the attention of manufacturers in town as well as in the country to my stock, as I think I can make it an object for you to buy of me. At least, I can sell you a much superior article to that which you get of the peddlers.

TO THE LADIES.

I would say that I am under very great obligation for the partiality you have shown me, in always procuring your understandings from me, and I now publicly promise and swear that I will make every one of you who may be entitled to the same a present of a handsome pair of CACKS, when I shall have closed up my shoe selling career. I would say further, that I am prepared to get up to order, any style of work you wish, at low rates. Yours respectfully,

J. B. DIMOCK, Proprietor,
T. H. BUCKINGHAM, Foreman.

By the way, don't forget the location of the Institution, three doors above the Post Office, Janesville, Wisconsin.

KIER'S ROCK OIL,

FROM a Well 400 feet deep, Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of no common value. It is a different thing from the old Kentucky or American Oil, as this is used INTERNALLY as well as externally. As a local remedy in Paralysis, Piles, Rheumatism, Deafness, Loss of Sight, Burns, &c. —also, as a valuable *Internal Remedy* for Piles, Ague, Scrofula, Coughs, Diarrhœa, Erysipelas, old Sores, Eruptions of the Skin, Female Diseases, Worms, Bladder and Kidneys, Bronchitis, Pains &c. &c., it invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has within 2 or 3 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sales not only *Increase* but *hold out.* Testimony to its great merit is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.

IT DOCTORS THE WHOLE MAN—flesh and blood —skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both cathartic and astringent, it is Alterative—and mind you, a REGULATOR. A leading principle in it is *Naptha.* When you once have it in the family you will not be without it.

Full as the world is of Patent Medicines—it is thought not best to suppress this, the work of NATURE—to make room for *Human Inventions.* Price 50 cents per bottle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US?—A tea spoonful every three hours in the absence of the fever will cure you of Ague or Diarrhœa. ☞ Physicians, Druggists, and all friends of the afflicted, will do well to recommend this Oil for PROLAPSUS UTERI, and good will be done —take the usual dose 2 or 3 times a day, and bathe the lower part of the back with it. Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful reddish color and clear. Try it for Piles.

For sale by HOLDEN KEMP & CO., C. F. Simms, Cary & Gordon, Beloit; G. W. Kinsie, Magnolia; Goodrich, Davis & Co., Milton; S. A. Pond, Albany; P. D. Vaughn & Co., Union; H. Cheney, Johnstown; M. Elliot, Monroe. 48m8

RAILROAD STORE!

I WISH to call attention, as I have done before,
To the Goods I am receiving now at the Railroad Store,
Where all the newest Fashions, to suit the young and old,
The richest and the cheapest goods in Janesville, will be sold.

My large and splendid stock of Lawns to show I'm always willing,
The price, as all the Ladies know, is from sixpence to a shilling.
I've Fine Black Silks from Italy, and colored ones that's rare,
Plaid, Grodenaps and Marcellaines, and Florences to spare.

And such a lot of Hosiery, I know cannot be beat,
And Gloves a great variety, they are so very neat:
Just now, when Spring is coming, and every thing looks bright,
For a glove to suit the season, the color should be light.

There are other Goods for Ladies, of which they ought to know,
That I keep in those blue boxes, and am always pleased to show,
Such as Blonde and Linen Edging, Cotton and Cambric, too,
Muslin and Cambric Needlework, and Gimps of every hue.

Those Undersleeves and Chimisettes I almost had forgot,
And Ladies' Needlework Collars, so beautifully wrought,
With Bishop Lawns and Cambrics, and Muslins fine and neat,
And Lace to make old ladies' Caps and trim them off complete.

And to parry Sol's "directer rays," I've Parasols to sell,
Of every price and color—they please the Ladies well—
And Umbrellas cheap for Gents, or so at least they say,
For lots of them get carried off, on every rainy day.

Such lots of Combs for the million, of every sort and kind,
To puff, or curl, or, plait the hair, no better can you find;
And every kind of Buttons for dresses, coats and vests,
To sell by the gross or dozen—they are the very best.

And for Gentlemen and little Boys I have Fashionable Hats,
Silk, Beaver, Leghorn, Panama, and cloth and leather Caps;
And for infants, Hats with feathers and ribbons gay and bright,
And little Caps with tassels drab, orange, blue and white.

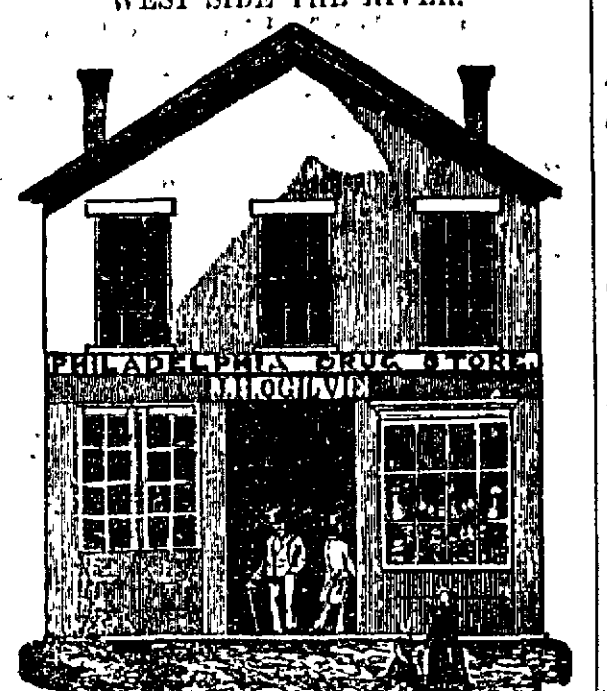

I have stacks of Linen, of yellow, brown and white,
And every other kind, of Summer Goods that's right
To make up into coats and pantaloons and vests—
As large a stock as any, that ever was brought West.

They say long advertisements, are not the oftenest read,
And that most may be meant, as oft, when least is said,
In view of this, I'll close my bill, and here invite you all,
Whenever you come to Janesville, be sure and give me a call.

The attention of the Ladies is particularly directed to these Goods.

A GREAT MISTAKE.

J. B. CROSBY & Co.

HAVE just returned from New York and Boston, and purchased so large a stock of Merchandise that they have not room to store them, and to remedy this, they have concluded to mark their goods down at

A TRIFLE ABOVE COST,

which will crowd their store with customers and ensure large and heavy sales, thus making room for goods yet to arrive. Ladies and Gentlemen,

THIS IS NO HUMBUG,

but a REALITY, and to be convinced of this fact personally, look through their immense stock, see the amount of goods they have in store, (and but a portion of their stock has yet arrived,) enquire the price, and you will acknowledge that we will sell you

GOOD GOODS, at nearly half the Price,

that other Merchants charge. We shall not mention a few leading articles and their prices, and sell the balance of stock at *higher rates*, as other Merchants do, but shall mark our whole stock at a small regular profit, and adhere strictly to the

ONE PRICE SYSTEM.

Our stock consists of STAPLE AND FANCY DRY GOODS, GROCERIES, CROCKERY, BOOTS AND SHOES, HATS, CAPS, CARPETS, OIL CLOTHS, READY-MADE CLOTHING, &c. &c., to which we invite especial attention, as to quality and price, as we are determined that

Every Sale shall give Full and Perfect Satisfaction.

Auction or shop worn goods which are not cheap at any price we do not deal in; but buy only the best grade of goods, and of the latest styles. We are the only House in Janesville that do a strictly cash business, and buying of importers and wholly for cash, we

CAN AND WILL SELL

CHEAPER AND BETTER GOODS;

than those who buy small stocks on time, and sell them the same way.

To Country Merchants,

We would say, that we will sell you goods at New York and Boston prices, adding freight. You will find us at the old stand of J. B. CROSBY, *two doors above the Post Office.*

1000 Dollars Reward,

WILL be given to any person—Physician or otherwise—who will perform a cure as quickly and permanently, by any means whatever, of any of the following diseases, as can be done by the use of

PULVERMACHER'S

Hydro-Electric Voltaic Chains.

Rheumatism,	Nervous Headache,
Painful and Swelled Joints,	Palpitation of the Heart,
Sciatica,	General Debility,
Paralysis,	Female Diseases,
Spinal Disease,	Neuralgia of the Face,
Deafness, Blindness,	Rheumatic Pains of the
Dyspepsia, Indigestion,	Chest

ALL NERVOUS DISEASES

Are almost instantly removed by the simple application of the Electric Chains, which are constructed so as to be worn next to the skin, producing a constant current of uninterrupted Electro-Magnetism, which within the last few years has been discovered to possess STRANGE and WONDERFUL POWER, in the INSTANT RELIEF and PERMANENT CURE of nervous diseases.

HISTORY.

Pulvermachers' Chain are presented to the public, as the most scientific and convenient mode of applying this powerful agent. They have been secured by patent in France, (where they were invented) England, Germany, Austria, Belgium, and one year since introduced into the United States, and also secured by patent. They are used in every Hospital in the State of New York, and highly recommended by professors Valentine Mott, Van Buren, Post, Carnochan, of that city, who daily make use of them in their practice.

THE WORLD IS CHALLENGED

to produce so many well authenticated certificates of cure, not only from intelligent patients, but from *scientific Physicians.* The sale now in New York is perfectly ASTONISHING, and thousands who visit the Crystal Palace where they are on exhibition, seldom fail to obtain a chain before they leave the city.

Thanks be to the common sense of the people who are beginning to become disgusted with the practice of making a Drug Shop of their stomach—swallowing bottle after bottle of sickening, disgusting trash, having no more effect in even relieving, much less curing, the disease for which they are recommended, than a Poor Man's Plaster applied to the top of the head would have in curing an infant of worms.

All these great and remarkable discoveries, by which every ill "which flesh is heir to" is eradicated from the earth—strange as it may seem—are made by men who are too *ignorant* to obtain a living by any other mode, and their knowledge of disease, its proper mode of cure, its cause, is just as extensive as an Arab's is of the mechanism of a steam engine. No intelligent person will deny the truth of this, and no Physician dare risk his reputation as an honest man, and declare that *nervous diseases* are not more frequently increased in severity than *relieved*, by the old antiquated way of giving medicine into the stomach. If people will only become sensible and think for themselves, and believe that physicians practice upon their credulity more than they have any idea of, pay strict attention to temperance in all things, (which means very much,) make free use of *pure cold water, internally and externally,* with an occasional dash of soap, sleep in freely ventilated rooms, retire early and rise early, be happy and cheerful, employ their physicians to tell them "they require no physic;"—by so doing health and happiness will increase, bottled molasses and water be at a discount, and its famous discoverers be consigned to their legitimate stations.

The Hydro-Electric chains are now for the first time offered to the people of Nashua, as being a *better, quicker, and safer mode* of curing all nervous diseases, than any other method or means hitherto discovered. They can be used by either a grown person or a child, are always ready for use, and with little care will last for years.

CAUTION.

Ladies who are *ciciente*, are requested not to wear them, for by long use, miscarriage is apt to be produced.

Price of Chains, $3 to $5, and can be sent by mail to any part of the country, together with a pamphlet of 36 pages, containing the modes of use, certificates of cure, &c. J. STEINERT, General Agent, 568 Broadway, New York.

KIER'S ROCK OIL,

FROM a Well 400 feet deep, Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of no common value. It is a different thing from the old Kentucky or American Oil, as this is used INTERNALLY as well as externally. As a local remedy in Paralysis, Piles, Rheumatism, Deafness, Loss of Sight, Burns, &c.—also, as a valuable *Internal Remedy* for Piles, Ague, Scrofula, Coughs, Diarrhœa, Erysipelas, old Sores, Eruptions of the Skin, Female Diseases, Worms, Bladder and Kidneys, Bronchitis, Pains &c. &c., it invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has within 2 or 3 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sales not only *increase* but *hold out.* Testimony to its great merit is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.

IT DOCTORS THE WHOLE MAN—flesh and blood—skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both cathartic and astringent, it is Alterative—and mind you, a REGULATOR. A leading principle in it is *Naptha.* When you once have it in the family you will not be without it.

Full as the world is of Patent Medicines—it is thought not best to suppress this, the work of NATURE—to make room for *Human Inventions.* Price 50 cents per bottle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US?—A tea spoonful every three hours in the absence of the fever will cure you of Ague or Diarrhœa. ☞ Physicians, Druggists, and all friends of the afflicted, will do well to recommend this Oil for PROLAPSUS UTERI, and good will be done—take the usual dose 2 or 3 times a day, and bathe the lower part of the back with it. Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful reddish color and clear. Try it for Piles.

RAILROAD STORE!

I WISH to call attention, as I have done before,
To the Goods I am receiving now at the Railroad Store,
Where all the newest Fashions, to suit the young and old,
The richest and the cheapest goods in Janesville, will be sold.

My large and splendid stock of Lawns to show I'm always willing,
The price, as all the Ladies know, is from sixpence to a shilling,
I've Fine Black Silks from Italy, and colored ones that's rare,
Plaid, Grodenaps and Marcellaines, and Florences to spare.

And such a lot of Hosiery, I know cannot be beat,
And Gloves a great variety, they are so very neat:
Just now, when Spring is coming, and every thing looks bright,
For a glove to suit the season, the color should be light.

There are other Goods for Ladies, of which they ought to know,
That I keep in those blue boxes, and am always pleased to show,
Such as Blonde and Linen Edging, Cotton and Cambric, too,
Muslin and Cambric Needlework, and Gimps of every hue.

Those Undersleeves and Chimisettes I almost had forgot,
And Ladies' Needlework Collars, so beautifully wrought,
With Bishop Lawns and Cambrics, and Muslins fine and neat,
And Lace to make old ladies' Caps and trim them off complete.

And to parry Sol's "directer rays," I've Parasols to sell,
Of every price and color—they please the Ladies well—
And Umbrellas cheap for Gents, or so at least they say,
For lots of them get carried off, on every rainy day.

Such lots of Combs for the million, of every sort and kind,
To puff, or curl, or, plait the hair, no better can you find;
And every kind of Buttons for dresses, coats and vests,
To sell by the gross or dozen—they are the very best.

And for Gentlemen and little Boys I have Fashionable Hats,
Silk, Beaver, Leghorn, Panama, and cloth and leather Caps;
And for infants, Hats with feathers and ribbons gay and bright,
And little Caps with tassels drab, orange, blue and white.

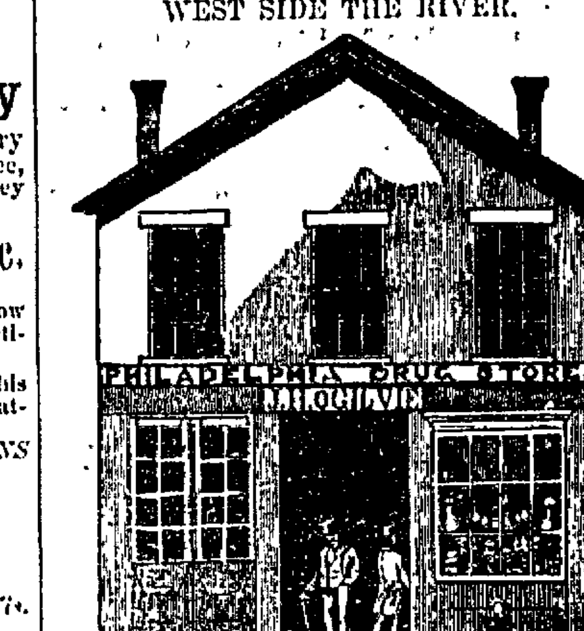

I have stacks of Linen, of yellow, brown and white,
And every other kind, of Summer Goods that's right
To make up into coats and pantaloons and vests—
As large a stock as any, that ever was brought West.

They say long advertisements, are not the oftenest read,
And that most may be meant, as oft, when least is said,
In view of this, I'll close my bill, and here invite you all,
Whenever you come to Janesville, be sure and give me a call.

A GREAT MISTAKE.

J. B. CROSBY & Co.

HAVE just returned from New York and Boston, and purchased so large a stock of Merchandise that they have not room to store them, and to remedy this, they have concluded to mark their goods down at

A TRIFLE ABOVE COST,

which will crowd their store with customers and ensure large and heavy sales, thus making room for goods yet to arrive. Ladies and Gentlemen,

THIS IS NO HUMBUG,

but a REALITY, and to be convinced of this fact personally, look through their immense stock, see the amount of goods they have in store, (and but a portion of their stock has yet arrived,) enquire the price, and you will acknowledge that we will sell you

GOOD GOODS, at nearly half the Price,

that other Merchants charge. We shall not mention a few leading articles and their prices, and sell the balance of stock at *higher rates*, as other Merchants do, but shall mark our whole stock at a small regular profit, and adhere strictly to the

ONE PRICE SYSTEM.

Our stock consists of STAPLE AND FANCY DRY GOODS, GROCERIES, CROCKERY, BOOTS AND SHOES, HATS, CAPS, CARPETS, OIL CLOTHS, READY-MADE CLOTHING, &c. &c., to which we invite especial attention, as to quality and price, as we are determined that

Every Sale shall give Full and Perfect Satisfaction.

Auction or shop worn goods which are not cheap at any price we do not deal in; but buy only the best grade of goods, and of the latest styles. We are the only House in Janesville that do a strictly cash business, and buying of importers and wholly for cash, we

CAN AND WILL SELL

CHEAPER AND BETTER GOODS;

than those who buy small stocks on time, and sell them the same way.

To Country Merchants,

We would say, that we will sell you goods at New York and Boston prices, adding freight. You will find us at the old stand of J. B. CROSBY, *two doors above the Post Office.*

1000 Dollars Reward,

WILL be given to any person—Physician or otherwise—who will perform a cure as quickly and permanently, by any means whatever, of any of the following diseases, as can be done by the use of

PULVERMACHER'S

Hydro-Electric Voltaic Chains.

Rheumatism,	Nervous Headache,
Painful and Swelled Joints,	Palpitation of the Heart,
Sciataca,	General Debility,
Paralysis,	Female Diseases,
Spinal Disease,	Neuralgia of the Face,
Deafness, Blindness,	Rheumatic Pains of the
Dyspepsia, Indigestion,	Chest

ALL NERVOUS DISEASES

Are almost instantly removed by the simple application of the Electric Chains, which are constructed so as to be worn next to the skin, producing a constant current of uninterrupted Electro-Magnetism, which within the last few years has been discovered to possess STRANGE and WONDERFUL POWER, in the INSTANT RELIEF and PERMANENT CURE of nervous diseases.

HISTORY.

Pulvermachers' Chain are presented to the public, as the most scientific and convenient mode of applying this powerful agent. They have been secured by patent in France, (where they were invented) England, Germany, Austria, Belgium, and one year since introduced into the United States, and also secured by patent. They are used in every Hospital in the State of New York, and highly recommended by professors Valentine Mott, Van Buren, Post, Carnochan, of that city, who daily make use of them in their practice.

THE WORLD IS CHALLENGED

to produce so many well authenticated certificates of cure, not only from intelligent patients, but from *scientific Physicians.* The sale now in New York is perfectly ASTONISHING, and thousands who visit the Crystal Palace where they are on exhibition, seldom fail to obtain a chain before they leave the city.

Thanks be to the common sense of the people who are beginning to become disgusted with the practice of making a Drug Shop of their stomach—swallowing bottle after bottle of sickening, disgusting trash, having no more effect in even relieving, much less curing, the disease for which they are recommended, than a Poor Man's Plaster applied to the top of the head would have in curing an infant of worms.

All these great and remarkable discoveries, by which every ill "which flesh is heir to" is eradicated from the earth—strange as it may seem—are made by men who are too *ignorant* to obtain a living by any other mode, and their knowledge of disease, its proper mode of cure, its cause, is just as extensive as an Arab's is of the mechanism of a steam engine. No intelligent person will deny the truth of this, and no Physician dare risk his reputation as an honest man, and declare that *nervous diseases* are not more frequently increased in severity than *relieved*, by the old antiquated way of giving medicine into the stomach. If people will only become sensible and think for themselves, and believe that physicians practice upon their credulity more than they have any idea of, pay strict attention to temperance in all things, (which means very much,) make free use of *pure cold water, internally and externally*, with an occasional dash of soap, sleep in freely ventilated rooms, retire early and rise early, be happy and cheerful, employ their physicians to tell them "they require no physic;"—by so doing health and happiness will increase, bottled molasses and water be at a discount, and its famous discoverers be consigued to their legitimate stations.

The Hydro-Electric chains are now for the first time offered to the people of Nashua, as being a *better, quicker, and safer mode* of curing all nervous diseases, than any other method or means hitherto discovered. They can be used by either a grown person or a child, are always ready for use, and with little care will last for years.

CAUTION.

Ladies who are *eiciente*, are requested not to wear them, for by long use, miscarriage is apt to be produced.

Price of Chains, $3 to $5, and can be sent by mail to any part of the country, together with a pamphlet of 36 pages, containing the modes of use, certificates of cure, &c. J. STEINERT, General Agent,

The Daily Gazette.

JANESVILLE : : : : WISCONSIN.

FRIDAY MORNING, AUG. 11, 1854.

For telegraphic news see third page.

☞ It is just nine years this eleventh day of August since the first number of the Janesville Gazette was issued. It was then a six column paper, little larger than the present daily, and its subscription list hardly numbered three hundred names. It has been enlarged twice since that. There were no papers published in the state then except at Milwaukee, Racine, Southport, Waukesha, Green Bay, Madison and Mineral Point, but very soon after, the Western Star was started at Elkhorn. Now almost every county in the state has its paper, and many of them several. The population of Janesville at that time was about one thousand; now it is about six thousand. There were scarcely half a dozen houses upon the west side of the river, and Monterey was an entire wilderness. There was plenty of land to be had at government price within two or three miles of the village, and village lots were selling at from thirty to fifty dollars per lot. One school house served the whole village not only for schools, but it was used Sundays for a church, there being no church building in the town.

Those who have preserved a full file of the Gazette, have the best record to be had, of passing events in the town, county and other portions of the state. It contains the number of inhabitants of the town taken at various times, showing the rate of increase; full statistics of the business of Janesville at different periods; a history of the settlement of the several towns in this and adjoining counties, and a thousand other statements and facts, invaluable for future reference.

PRESIDENT'S VETO.—Our exchanges brought us yesterday the veto of president Pierce of the river and harbor bill. Alleged reason—want of time to consider and examine its provisions; real reason—hostility to the enterprises and subserviency to the south. The president promises to send in to congress when it assembles again, his views at length, and "endeavor to define approximately, at least, and according to my own convictions, what appropriations of this nature by the general government the great interests of the United States require, the constitution will admit and sanction, in case no substitute should be devised capable of reconciling the differences both of constitutionality and expediency." We humbly submit that this promised message is wholly unnecessary, and the attempt to establish the unconstitutionality and inexpediency of meagre appropriations to western rivers and harbors, while $150,000 can be given to a river in Virginia, and millions lavished upon wealthy steamship companies on the Atlantic, is simply absurd. The present administration has need of the help of no such insult to common sense to bury it beneath the curses of the people.

DEFEAT OF COL. BENTON.—The St. Louis papers report the probable defeat of Col. Benton as a representative in congress by Mr. Kennett, the whig candidate. We record this with unfeigned regret. There has been much in former contests between the whig and democratic parties to engender a bitter feeling towards Col. Benton among those against whom he was then arrayed, and there is little in his personal character and bearing to conciliate an opposition once aroused. Yet we hoped he would be sustained on the issue in which he was now more directly before the people of his district, and had we been voters there we should most assuredly have overlooked the past and forgotten at least long enough to have voted for him the contentions of other days. The moral effect of his election, in rebuking a gross violation of plighted faith by the people of a state so intimately involved as Missouri, would have been most salutary, and should have outweighed any personal or party considerations.

☞ The Milwaukee and Mississippi railroad company are constructing a round house at Madison, with Milwaukee brick. The Journal says that a number of warehouses and other buildings are also going up in the vicinity, and there will soon be quite a village about the depot.

☞ The Minnesota land bill was repealed, and the pending grants before congress were not acted on. Among the bills which failed were the Texas debt, $8,500,000; French spoliation, $5,000,000; Ocean steamship, $850,000; the Pacific railroad and telegraph; Shanghai steamship; Ramsey California mail route and weekly California mail.

The Waukesha Plain Dealer says that Albert J. Tirrill who murdered Maria Bickford, was formerly a clerk for Solomon Juneau of Milwaukee, and was the first merchant who ever sold goods in Waukesha. He kept a small store for Mr. Juneau, near where the Catholic church now stands.

PINE LUMBER.—Mr. Norris' steam mill has been for some time in full operation sawing his pine lumber. Mr. George Richards, who has been for three years in the employment of Mr. Norris, has the credit of rafting and sawing the first pine log brought to this section of the country.

☞ The number of passengers arriving at Milwaukee in July was 8,703.

☞ It is said that foreigners own one hundred and forty millions of dollars worth of railroad and other stocks in the United States.

The whigs of the fourth congressional district of Maine, have nominated the Hon. S. P. Benson candidate for re-election to the U. S. house of representatives. There was no opposition manifested at the convention.

The Position of our Supreme Court.

An article under this caption appeared in the Standard of yesterday, from which it seems that after the publication of the opinions of the judges on Booth's second application for a habeas corpus, there are still those who think the court has involved itself, by its second decision, in legal and logical difficulties; and it is to those who admit the propriety of the first decision, but are staggared at the second, that I wish to address a few words.

The main questions presented in the first decision were these: 1st, Ought the writ to have issued? and this question being settled affirmatively, 2d, Ought the prisoner to be discharged?

In determining the first question the court reasoned in this manner:

The rule that the court whose jurisdiction first attaches to a case will retain it, notwithstanding proceedings may be subsequently commenced, in other courts of concurrent jurisdiction, cannot apply in this case to prevent the issuing of a writ of habeas corpus by a justice of this court, since a commissioner is not an officer of the courts of the United States, for though appointed by the judges of those courts, neither the courts or judges are responsible for his acts; his powers and duties being particularly prescribed in the acts of congress, and a commissioner cannot with any propriety be called a judicial officer. But apart from any considerations of the powers of commissioners to bring the case within the rule, it must appear, that the district court of the United States had the case pending before it which was made by the issuing and serving of the writ of habeas corpus; that the question of the legality of the imprisonment of the petitioner was then pending before that court, and this the facts in the case do not show; they merely show the ordinary case of a person imprisoned under color of legal process for an alleged offence. In such cases the investigation of the legality of his imprisonment does not necessarily involve an enquiry into the question of his guilt or innocence, or of his liability to be held to answer for the alleged offence. It is not material for the present purpose to examine the reasons which governed the court in deciding the second branch of the case, since we are only enquiring why, if the issuing of the habeas corpus was proper in the first case, was it not proper in the second.

Very vague notions of the office of the writ of habeas corpus are entertained even among lawyers; and so late as the famous McLeod case, it was made a question whether it was not a part of its office to arrest the course of criminal justice by hearing without a jury, and discharging even without bail, one who has been indicted for murder and stands committed to await trial. But in that case the supreme court of the state of New York decided that proof of innocence was inadmissable after *indictment found* in a court competent to try the same, upon an application before them for the writ—and the rule is universal that after indictment found in a competent court, another court or a judge at chambers will not attempt a summary trial of an indictment, on an application for a writ of habeas corpus; for were such applications to be entertained, an indictment might be disposed of without court or jury, by the prisoner's applying to a judge at chambers, and then upon his discharge defeating the jurisdiction.

The article referred to contains some crudities which to a lawyer appear simply ridiculous.

We read for instance as follows: "Now if there is *no law*, and if the law is unconstitutional there is none, how under no law can judge Whiton's court have jusisdiction?" No one should attempt to discuss a habeas corpus case unless he is aware that it is proper for our supreme court to issue the writ, when one is imprisoned under a warrant from any officer in this state, before *indictment regularly found* when that warrant is invalid for constitutional defects. And I would suppose that any candid man, of ordinary intelligence, could see a difference between imprisonment under a pretended warrant, and imprisonment in default of bail, after an indictment is actually found in a court competent to try that indictment.

But every well read lawyer knows, that the writ never issues for the purpose of trying the *guilt or innocence* of a party, but only whether he has been *properly charged* with crime.

Now it is evident that to have allowed the writ in the second case, would have been equivalent to trying the question of Booth's guilt or innocence—for all courts hold that after indictment regularly found, the prisoner *is* properly charged, and indeed is presumed to be guilty, subject only to a fair trial before a petit jury—upon which trial he must insist upon his constitutional defences. It is enough by all authorities that an indictment has been regularly found, in a competent court, and it is idle to urge that Booth has, upon the indictment, been committed for what our supreme court has decided to be no offense, because the rule of comity referred to, and which any tyro is aware of, *concludes* our supreme court from denying that Booth is not properly charged with an offense. Those who cavil at the decision of the supreme court in Booth's case are generally those who do not understand their scope.

They are not in conflict with the decisions of the supreme court of the U. S., and should that court of last resort, rule differently when his case comes before it, our supreme court will bow to the paramount interpretation—unless they are prepared for nullification—and the jealousies which have been industriously excited against the district court, outside of our supreme court, have had no influence within it.

As Booth is now circumstanced, there is but one question in his case for disposal, and that is of his guilt or innocence—the indictment of a grand jury as already stated, having excluded the conclusion that he is not properly charged with crime, and he must now be tried by a petit jury, and not on an application for habeas corpus. Doubtless he will urge his defence at the trial in the district court, and we are bound to presume that the rulings of that court upon the constitutional questions raised will be correct.

Had our supreme court issued the writ, it would have been a nugatory act, for they would have been obliged to remand the prisoner, by the provisions of the revised statutes, chapter 124, section 18. W.

BLOODY RIOT IN ST. LOUIS.—The St. Louis papers of Tuesday morning contain full accounts of an election riot in that city on Monday, which created great excitement.

The Intelligencer says that "the difficulty commenced in the 5th ward, and was occasioned by an Irishman stabbing an American. This was the signal for a general attack, which was commenced upon the Irish dogeries on Mayor and Green streets and Washington avenue, and all on the whole front of the levee, from Cherry street to below Locust, were more or less injured. The crowd supplied themselves with axes and other implements of the sort, from the steamboats at the wharf, and with them beat in the shutters and smashed the counters and everything that would yield to blows."

The riot continued for two hours of the afternoon, and at intervals during the night. Hundreds of discharges of pistols were made and three persons are known to be killed, while a great many were wounded in various ways. The military were called out and took possession of the streets. Eight companies were out. The Intelligencer says:

"On Morgan and Green streets, extending west from Broadway, not an Irish grocery was left, all being torn to pieces, and the houses more less injured. At a rough estimate there are not less than fifty or sixty houses, chiefly Irish doggeries of the lowest order, badly damaged, and their contents destroyed. To estimate the loss we are unable, but should guess it was not much short of $50,000. All this, besides the murder and maiming, was the work of but a few hours. The police force was entirely insufficient, and for nearly three hours the exited multitude had full sway. After the the appearance of the military, comparative order was restored, but up to the hour of going to press this morning, there were small squads moving here and there, but apparently without ability to do further mischief."

The Democrat says that during the riot, the Hibernians gave battle in one case but

"The crowd of rioters increasing, they gave way and retreated to their houses between Main and the Levee on Morgan. Here for a while the mob was a scene of the wildest excitement. The Irish fired is many, perhaps, as a hundred pistol shots into the crowd, who were breaking in the doors and windows of the houses by showers of stones from the street. At last the shooting was silenced and the mob proceeded down to the Levee and clong it to Locust street, assailing every coffee house or tenement supposed to contain foreigners, with a continued storm of missiles."

After this the Irish made another stand on Second street, but were driven down past Cherry, the mob still continuing their assault upon the houses and windows.

The Democrat (Col. Benton's organ) we notice, lays the blame of the riot upon the Republican, which it says has been abusing the foreign population for a long time. We have not noticed this feature in the Republican, although it is on our exchange list: but from the tone of the Democrat, we should think that the Know-Nothings have been at their work in St. Louis as well as elsewhere, and that to them is to be ascribed the defeat of Colonel Benton, who with his friends, made a strong push for the foreign vote.—*Milwaukee Sentinel.*

DYING HARD.—The last hours of senate were occupied in the discussion of the question whether Senator Williams, of New Hampshire, was entitled to hold a seat in that body. It seems he clung to it with a death grasp, notwithstanding the committee had reported against his right, the precedents of twenty years stared him in the face, and the vote of the senate had declared him an interloper.

Having been kicked out of an executive session where he intruded himself, he next appeared as the senate was about adjourning, asking for a reconsideration of the vote, which being carried, he spoke about two hours, when the senate again voted *unanimously* that he was nothing more than a private citizen of New Hampshire!

Verily, the administration is forced into the lowest depths of humiliation. Though the people of New Hampshire have stripped the president of his constitutional advisers from that state, in the senate, the pitiable spectable is presented of his confidential friend, trying to sponge into that body, cringng and crawling to his place like a reptile.

We are glad the senate acted with promptitude in the matter. Poor Senator Williams! He must feel very much like a boy when he is thrust out of a circus, for gaining admission by crawling under the canvass.—*Chicago Journal.*

INTERESTING FROM SALT LAKE.—From the Los Angelos Star we extract the following account of a treaty entered into between Gov. Young and the chiefs of the Pah Utah and Pauvan Indians.

Says that paper: We have had an interview with Mr. S. N. Carvalho, artist attached to Col. Fremont's late exploring expedition. This gentleman arrived here on the 14th inst., from Salt Lake, where he was left by the expedition on account of ill health. He states that by invitation he accompanied Governor Brigham Young, and a large party from Great Salt Lake City, on the 6th of May, for Walker's camp, on Chicken creek; that there a formal treaty of peace was entered into by Walker and Kanoshe with Gov. Young, the nature of which was, that on no occasion whatever were the Indians to make any attack either on Americans or Mormons, and that they would use all their influence to prevent any depredations on the property of emigrants or settlers. Gov. Young presented them with eighteen head of cattle, blankets, clothing, arms and ammunition, and entered into arrangements that Mr. Porter Rockwell and five other gentlemen were to reside permanently with Walker's band of Utahs, and accompany them in all their journeyings, for the purpose of protecting the lives and proyerty of the whites.

ATTACK ON THE PRESIDENT BY A DRUNKEN MAN.—A despatch from Washington, dated the 5th, states that as President Pierce was leaving the Capitol, he was followed and addressed by a man from Charleston, named Jeffards, who was intoxicated. He asked Mr. Pierce to take a drink, but he refused. Jeffards threw an egg, and knocked off the President's hat, and was arrested by an officer immediately. He sent for several persons to become his bail, but they declined. He grew outrageous in a short time, and stabbed himself in the leg.

The President declined prosecuting Jeffards, and he was discharged.

THE GREATEST SCHEME OF MODERN TIMES—AN EMPIRE GIVEN TO A RAILROAD COMPANY.—A few days ago, Mr. Robert J. Walker, late secretary of the treasury, passed through our city on his way to Texas, bearing with him one million of dollars in Texas bonds, valued, according to the Texas gradation, at $300,000. This sum is to be deposited in the hands of the governor of Texas, in behalf of the Grand Pacific railroad, of which Mr. Walker is a stockholder to the amount of ten millions, and various other citizens—including the Rev. Counsellor Joel G. Sever, late of this city, whose stock only amounts to the modest sum of $500,000—own immense amounts.

Now, extravagant as this whole scheme has seemed, Mr. Walker by his address, skill and management, and without any violation of any law or other impropriety, has placed in a train which promises the most magnificent results.—The state of Texas—in a moment of madness and folly unparalleled in the annals of legislative insanity—passed a law donating twenty sections per mile to any company which shall build a road across its territory, near the parallel of 32, on the simple condition that said company shall commence the road by the 12th of August, and shall deposit $300,000 in the state treasury, which the company can draw out as soon as it finishes the first fifty miles of the road; that then the said fifty miles of the completed road shall be pledged for the completion of the remainder.—On these simple conditions, the company will receive scrip which takes preference of all others, for twenty sections of land per mile, for over eight hundred miles, making over ten millions of acres of land, the average value of which, we understand, will be nearly, if not quite, one hundred millions of dollars! Now, the highest estimate of the cost of a road, from the Mississippi to the Rio Grande, has never exceeded twenty millions, for the building of which this company will receive land worth one hundred millions.

But this is not all. There was an old charter in Texas, creating the company called the El Paso and Vicksburgh road, to which had been previously granted sixteen sections per mile; and this company having organized, not being able to sell its stocks, entered into negotiations with Chatfield, Walker's predecessor in the Grand Pacific, alias Moonshine road, to dispose of its charter. Pending the negotiations, some legal gentlemen of Texas, who happened to hear of the matter, called on the president of the company, and asked how much of the stock was unsubscribed, and were informed that there were twenty millions. They immediately entered their names for that balance; and when Mr. Chatfield came to close his purchase, they required him to pay $100,000 for their stock. This was the single advantage obtained by Texas throughout the whole negotiation. All the rest, we consider, displays the most extraordinary infatuation on the part of the people of Texas, to say nothing of the responsibility incurred by the leading managers in this affair, who represented the interest of the state, and were bound to protect it.

The Moonshine company obtained the additional sixteen sections per mile belonging to the El Paso road, and if they get from Governor Pease, of which there is little doubt, the latter grant of the twenty sections, all that will be necessary to enjoy both rights will be to build a double track railroad. Thereupon this company, started upon moonshine, will become the owners of the largest capital ever held by a corporation, and the people of Texas will have sold their birthright for less than a mess of potage. Walker and his companions are blameless in the matter. They respond to the invitation of the state, and though there is not a cent of their stock taken in Texas, they come with the cash, and with a brigade of contractors and workmen, who have already commenced work in eastern Texas, complying fully with all the conditions prescribed.

General Rusk, the senator from Texas, gives his full sanction to the scheme, and so does Gov. Pease and the legislature, and as the people appear to acquiesce in it, we cannot see that any body else has much cause of complaint, however great may be their astonishment at the "madness which rules the hour," in certain parts of our country, in regard to railroads and reckless appropriations of the public domain.—*N. O. Delta, July 24.*

SINGULAR OCCURRENCE.—The St. Louis Intelligencer has a very curious account of some circumstances attending the death of Dr. P. Domino, a physician of that city, who died last week at the hotel where he boarded. He was a very old man of parsimonious disposition, had few acquaintances, and not a single intimate. For many years he had an office on Market street, between Thirteenth and Fourteenth streets, where he spent his whole time, when not at meals, doing little business, and was a sort of mystery to his neighbors. He dressed ordinarily well, but in all other respects was seemingly in indigent circumstances. After his decease, however, a person in overlooking his baggage, examined a small carpet-bag lying in his chamber, and to his surprise found over $4,000 in money, all in small bills.

The deceased during his sickness was in constant fear of being robbed, but did not disclose to any of his attendants that he had so valuable possessions, and the cause of his extreme solicitude was not explained until the finding of the money. Dying intestate and having no known relative in St. Louis or elsewhere, the public administrator took charge of his effects, and ordered a sale of the furniture and personal property in his office on Market street. Mr. Riggin, the auctioneer, in conformity to the order, held a sale of the premises. While it was progressing and during the moving of the furniture, some one examined the cellar to take an inventory of the articles subject to sale, and in an old box under a heap of wood, came upon $1,700 in gold and silver. It was tied in small bags so rotted from age that the slightest handling reduced the canvass to shreds.

This discovery induced another exploration of the cellar and office, and it ended in a still more surprising result—the finding of nearly $4,500 in Missouri bank bills, hidden away in the chimney. Diligent search was again made, but as no more money was forthcoming, it is probable that the entire wealth of the old man had been regained.

A rumor prevailed, however, from the statements of two small boys in the neighborhood, that at the commencement of the sale a man was seen leaving the office with two bags of money. The sums last found are also in the hands of the public administrator.

STRIKE FOR HIGHER WAGES.—Several of the engineers on the Milwaukee and Mississippi railroad struck yesterday for higher wages. They demanded $70 per month, and this being refused by the superintendent, they quit work.—The engineers claim that the pay now received is inadequate to the service performed.

We learn that the vacancies were immediately filled, and no trips have been or will be lost.

The strike occurred when the freight train was ready to start at 9½ A. M. Seven of the men, including the engineer of that train, struck, and refused to run another train, unless $70 per month was allowed them. They were all immediately discharged by the superintendent.—*Milwaukee Sentinel.*

CHOLERA AT WAUKESHA.—During the past week there have been ten deaths from Cholera in Waukesha; and 13 in all since the disease first made its appearance. Only three Americans have died of the disease.

☞ A portion of Ft. Howard military reserve in Brown county, will be sold on the 1st day of September next.

STATE SENATOR DEAD.—Baltus Mantz, state senator from Washington county, died recently,

CURE FOR SUMMER COMPLAINT.—We are indebted to a friend for the following receipt for making blackberry syrup. This syrup is said to be almost a specific for the summer complaint. In 1832 it was successful in more than one case of cholera. The fruit is now in market, and the present is the proper time to make it.

To 2 quarts of juice of blackberries, add
1 pound of loaf sugar,
½ oz. nutmeg, ½ oz. cinnamon, pulverized.
½ oz. cloves, ½ oz. allspice. do.

Boil together for a short time, and when cold add a pint of fourth-proof brandy.

You will save many bitter tears by publishing the above in your valuable paper. From a tea-spoonful to a wine-glass, according to the age of the patient, till relieved, is to be given. It may spoil practice, but it will save life.—*New York Evening Post.*

THE LAST OF NELSON'S CREW.—A veteran sailor, named John Groombridge, above one hundred years of age, and said to be the last survivor of Lord Nelson's crew at Copenhagen, made a call a few days ago upon some of his old Kentish friends. It appears that he was born at Yalding, was apprenticed at Chatham to a Quaker, named White, and was married at twenty years of age; but on the day of his wedding was seized by a pressgang and hurried off to Hull, whence he was sent to sea, and remained in the service through the long succeeding wars, commencing with that against the revolted American colonies, now the United States. Among the engagements in which he took part was one against Paul Jones. Subsequently he served under Lord Nelson, both at Copenhagen and Trafalgar, and has sailed with our present Baltic and Black Sea Admirals, Napier and Dundas, when the former was a boy-lieutenant. He is now an in-pensioner of Greenwich hospital, the oldest on the college books, and is, he says, the sole survivor of the crew sailing in the Victory, when Nelson met his death wound.—He retains a perfect command of all his faculties. He adds that he never saw his wife after the day that he was torn from her, fresh from nuptial rites at church, by the ruthless pressgang, but she lived some fifty years afterwards; and that he learned the particulars of her death shortly after it happened, some thirty years ago.—*Kentish Mercury.*

KEEPING EGGS.—A friend who has made several voyages to the coast of Africa and other tropical regions, says that he has kept eggs in the best condition, by placing two or three dozen in a cullender, and pouring over them as many quarts of boiling water, then pack away in straw, or bran, or saw-dust. Newly laid eggs must be used for this purpose, and they will be found as good for boiling after a year and perfectly fresh, when treated as above.

CUCUMBERS.—Who ever heard of cooking a cucumber? we hear our readers exclaim! Try it, and then tell your neighbors how well a poor man may live in this country. Take the cucumber just as it begins to turn yellow, peel and slice it into salt water: drop it into cold water and boil until tender. Season with salt and pepper—mix with butter and fry. Few can tell it from egg plant.—*Soil of the South.*

A KNOW NOTHING.—The St. Louis Herald says that another know nothing has come to light in that city—the second one he has heard of—and he is indebted to a woman for the discovery. She says her husband is one of the new order, because when she asked him when he was going to buy her that new dress, he replied, "I don't know;" she inquired when he would take her out riding—and when he would purchase "them spoons" that new castor, and the carpet they were talking about—to all of which he answered, "I don't know." She says if he isn't a know nothing, she don't know nothing about 'em.

Mr. McCormick, who was accidentally shot the other day, is reported to be in a fair way to recover. Dr. Chapman of this place recently visited him, and thinks that he may even recover the use of the injured arm.—*Madison Jour.*

SUPREME COURT.—We understand that this court will probably adjourn the last of the present week until the first of October, or thereabouts, at which time the judges will read their opinions upon the cases brought before them during the present term.—*Madison Journal.*

AGAIN & AGAIN
THE BOSTON STORE.

Let the Horn be Blown!!

"Sound the loud timbrel o'er land and o'er sea,"
WHEELOCK'S triumphant, and ever shall be.

THIS is the middle of the nineteenth century, the first half of which has produced more change and onward movement than any fifty years of our Christian Era.

The great controlling power of this age is its commerce—indeed, this may be truly called the commercial age.

It has been well said by an ancient writer that
"Man wants but little here below,"
and to supply those wants

WHEELOCK

Announces to every people and every tongue, to both *sexes and all parties, to all factions of all gauges*, that finding his old store entirely

TOO SMALL!

He has been compelled, in order to be able to supply the immense call for goods at his establishment, to

Double the capacity of his Store Rooms!

Having purchased this spring, for this market, to be sold this season,

$39,007 00 Worth of Goods

But who can expect to read in the brief space of one life all the articles that the

BOSTON STORE CONTAINS.

Indeed, history must fail to give the searcher of knowledge any accurate idea of his immense

STOCK OF SUMMER GOODS,
His inimitable selection of
Fancy Dress Goods!

He has over
10,000 Yards of Silk Barages,
of every style and price, and it is with no great difficulty that the fair damsels of this fair valley can select,
FROM THE ONE THOUSAND PIECES,
Of all patterns and ranging in price from *SIX CENTS Per Yard to Twenty-Eight Cents*, such dresses as will add to their exquisite beauty, though it may as a general thing, be as difficult to add to that beauty as it is "to gild refined gold, paint the lily, or add perfume to the violet."

It must not be inferred that we offer only these and the many other articles for outer apparel, such as Chemelion and Foulard Silks, but all manner of

Cotton, Grass & Linen Goods

are on change, so that every one may be entirely accommodated with every article of female apparel.—
Eved French red foxed Gaiters,
do do wolfed do
Ladies' Enameled Boots, Enameled sewed Congress Boots,
LADIES MOROCCO POLKAS.

And all the articles manufacured of the best styles.—So that of this store, so far as articles which adorn La Belle sex are concerned, it may be truly said

"CUSTOM cannot stale the infinite variety."

While the Boston Store has made provision to protect the feet, it can also boast that it has all sorts of

GLOVES,

by which hands can be protected and retain

"The white wonder of fair Juliet's hand."

And in taking leave of those of whom it is no exaggeration to say they are

"Heaven's last, best gift to man,"

the Nonpareils of beauty, the Paragons of perfection, Mr. Wheelock assures his fair customers that his assistants and auxiliaries are those who unite great knowledge of the business, fine personal presence and affability of manner to a determination to discharge CONSCIENTIOUSLY their several and respective duties—that while they may have the proper desire to effect sales, they will never in imitation of many of our contemporaries attempt to accomplish that object by equivocation, misrepresentation, exaggeration, tergiversation, fabrication, or by direct lying.

And now to the wants of the

COARSE-HAND SEX.

Mr. Wheelock has every kind of material to make those articles of dress that give to man its individuality—

PANTALOONS,

CALF "BEWTS," COW HIDE do., GIZELLE, do., PATENT LEATHER do., GIRAFFE do.,

HATS

That fit every head from the Websterian brow to the *country politician's sconce, from the size of caput of* him who is closely shorn after the Hibernian fashion to that of him who wears the well-pomatumed, ambrosialized, elongated Hyperion curls.

And to the speculator who buys to sell again,

The Boston Store

Can, at lower rates of usance than any other establishment west of the Alleghany mountains, furnish that class of exchanges so that riches will fill their pockets as water fills the sea. And to them we offer

DOMESTIC GLASSWARE. WORSTED,
Pocket Handkerchiefs, Inkstands, Cotton Yarn,
Ready-made Vests, Ground Pepper, Flannels,
Looking Glasses, Ready-Made Over Coats, Pants,
Raisins, Flat Irons and Cotton Batting, Lanterns,
Satchels, which the whining school-boy with shining morning face bears on his arm,
Chests, Norwegian Bandboxes and Hair Trunks,
Tea, Tobacco and Wicking.

In the

CROCKERY

Line may be found the
BENNINGTON, the PARIAN and the LAVA Manufacture, Pitchers for milk or water, Tea Pots, Spittoons, Bowls for washing, for bread and milk, or sugar, Candlesticks, children's Toys and Flower Pots, MAINE LIQUOR LAW VOLUMES and Lager Beer Mugs.

And in fine, the proprietor of this establishment can with all confidence assure those who have been in the habit of trading at Janesville that, although they have

"Often seen corruption bolt and bubble till
It o'errun the stew,"

they will find that the representations which shall be made to them by that proprietor or hisclerks will not

"Stand like forfeits in a Barber shop,
More in mock than mark."

The ONE PRICE CASH SYSTEM, originally introduced into this community and strictly adhered to by this Establishment, has won for it a reputation far more valuable than the Stupendous Self-puffings, quarterly renewed, industriously circulated but universally discredited, which many modern shop keepers deem indispensable to success.

The system will of course be continued—admitting no variation or improvement—to the satisfaction undoubtedly of a large and most desirable class of customers, although at the sacrifice probably of the steady patronage of inveterate higglers and those who inherit the belief that *all* Salesmen will cheat them if possible.

Respectfully,
COOLEY & BABCOCK.

Janesville Clothing Emporium.
WM. ADDY,
Merchant Tailor, & Dealer in Ready Made Clothing and Gentlemen's Furnishing Goods,

HAS received his Spring and Summer STOCK, consisting of the very Best and Fashionable CLOTHS, CASSIMERES, DOESKINS AND VESTINGS, of English, French and American manufacture.

This establishment is now, as usual, the favorite place of resort for the Fashionable, the Cutting Department still being under my own personal supervision, and warranted to suit the most difficult, twenty per cent lower than any other establishment in the State.

No Fit, No Sale, is my doctrine.

You will ask how I can do this; I will tell you: From my long experience in this business, and being a practical Tailor, I know when, where and how to buy my Goods, what to pay for them, and how to cut them, not having to secure the services of an *eminent artist*, at a salary of $1,000 to $1,500 a year, which the purchaser must pay for—this is the secret. I have got on hand a good assortment of

Ready Made Clothing,

of my own manufacture, and warranted in every respect. *Call and examine, before you buy elsewhere.*

NEW GOODS!
$15,000 Worth of
BOOTS AND SHOES
JUST RECEIVED AT THE
Wisconsin Boot & Shoe Store.

I AM now receiving one of the largest and finest stocks of Boots and Shoes that I have ever before brought to Janesville, and what is finer than all the rest, I can sell them at lower prices than I have ever sold before, notwithstanding the great advance in the Eastern Market. My assortment of

Ladies Fine Shoes,

in particular, I have no hesitation in saying cannot be equaled in the State, both for style and durability, being all made to order, and in such a manner that I can warrant every article I sell, with the understanding at all times, that if they do not come up to the warrant, they shall be mended free of charge.

GENTLEMEN'S WEAR.

In this line I know beyond a doubt that I can show you a finer assortment and at better prices by twenty-five per cent. than can be found at any of the side shops or Dry Goods stores about town. I want it distinctly understood that I make the BOOT AND SHOE TRADE my WHOLE STUDY, and that I *Buy More, Sell More and know more about the trade*, than the whole pile of petty dealers put together. And I know also that I can make it an object for **Every Farmer in Rock County**, as well as every one that trades in Janesville to buy their Boots and Shoes of me for the more I sell the smaller profits I can sell at.

Manufacturing.

I want to say a few words to you in regard to my Manufacturing Department, to wit: That I am now engaged more extensively in the manufacturing business, and probably am selling more custom work than all the shops about town put together, simply for these reasons—that I use better Stock; being entirely of Eastern tannage, which every one knows is worth twenty-five per cent more than the common western tanned leather; and what is a better reason and of greater importance, I can

Sell my Custom Work at Much Lower Prices,

and at the same time sell you a better article than you can get at the shops, for this reason, which you must all see is a very palpable one, that in buying my stock east and in such large quantities, I of course save a very large per cent, and thereby can sell at lower prices and at the same time make my profits.

I want to state further that I have secured the services of Mr. BUCKINGHAM, who has formerly been engaged in the manufacturing business on the west side of the River, and who is known by every one to be the best manufacturer in the city; and if we don't get you up a better article, both in regard to style and durability, we will forfeit our money and our reputation, and I pledge you my word that this is *no small forfeit.*

Leather and Findings.

I have just received over $3,000 worth of the very best brands of **Eastern Sole & Upper Leather**; also, a very large assortment of FRENCH and PHILADELPHIA KIP and FRENCH CALF SKINS, together with a full assortment of MOROCCOS of every kind, which I will sell at

Precisely Milwaukee and Chicago Prices.

I have constantly on hand, also, a large assortment of all kinds of FINDINGS, LASTS, BOOT TREES, CRIMPS, etc., etc., all of which will be sold at the same rates.

I request the attention of manufacturers in town as well as in the country to my stock, as I think I can make it an object for you to buy of me. At least, I can sell you a much superior article to that which you get of the peddlers.

TO THE LADIES,

I would say that I am under very great obligation for the partiality you have shown me, in always procuring your understandings from me, and I now publicly promise and swear that I will make every one of you who may be entitled to the same a present of a handsome pair of CACKS, when I shall have closed up my shoe-selling career. I would say further, that I am prepared to get up to order any style of work you wish, at low rates. Yours respectfully,
J. B. DIMOCK, Proprietor,
T. H. BUCKINGHAM, Foreman.

By the way, don't forget the location of the Institution, three doors above the Post Office, Janesville, Wisconsin.

KIER'S ROCK OIL,

FROM a Well 400 feet deep, Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of no common value. It is a different thing from the old Kentucky or American Oil, as this is used INTERNALLY as well as externally. As a local remedy in Paralysis, Piles, Rheumatism, Deafness, Loss of Sight, Burns, &c. —also, as a valuable *Internal Remedy* for Piles, Ague, Scrofula, Coughs, Diarrhœa, Erysipelas, old Sores, Eruptions of the Skin, Female Diseases, Worms, Bladder and Kidneys, Bronchitis, Pains &c. &c., it invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has within 2 or 3 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sales not only *increase* but *hold out.* Testimony to its great merit is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.

IT DOCTORS THE WHOLE MAN—flesh and blood—skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both cathartic and astringent, it is Alterative—and mind you, a REGULATOR. A leading principle in it is *Naptha.* When you once have it in the family you will not be without it.

Full as the world is of Patent Medicines—it is thought not best to suppress this, the work of NATURE—to make room for *Human Inventions.* Price 50 cents per bottle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US?—A tea spoonful every three hours in the absence of the fever will cure you of Ague or Diarrhœa. ☞ Physicians, Druggists, and all friends of the afflicted, will do well to recommend this Oil for PROLAPSUS UTERI, and good will be done—take the usual dose 2 or 3 times a day, and bathe the lower part of the back with it. Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful reddish color and clear. Try it for Piles.

For sale by HOLDEN KEMP & CO., C. F. Simms, Cary & Gordon, Beloit; G. W. Kinsle, Magnolia; Goodrich, Davis & Co., Milton; S. A. Pond, Albany; P. D. Vaughn & Co., Union; H. Cheney, Johnstown; M. Elliot, Monroe. 43m3

RAILROAD STORE!

I WISH to call attention, as I have done before,
To the Goods I am receiving now at the Railroad Store,
Where all the newest Fashions, to suit the young and old,
The richest and the cheapest goods in Janesville, will be sold.

My large and splendid stock of Lawns to show I'm always willing,
The price, as all the Ladies know, is from sixpence to a shilling.
I've Fine Black Silks from Italy, and colored ones that's rare,
Plaid, Grodenaps and Marcellaines, and Florences to spare.

And such a lot of Hosiery, I know cannot be beat,
And Gloves a great variety, they are so very neat:
Just now, when Spring is coming, and every thing looks bright,
For a glove to suit the season, the color should be light.

There are other Goods for Ladies, of which they ought to know,
That I keep in those blue boxes, and am always pleased to show,
Such as Blonde and Linen Edging, Cotton and Cambric, too,
Muslin and Cambric Needlework, and Gimps of every hue.

Those Undersleeves and Chimisettes I almost had forgot,
And Ladies' Needlework Collars, so beautifully wrought,
With Bishop Lawns and Cambrics, and Muslins fine and neat,
And Lace to make old ladies' Caps and trim them off complete.

And to parry Sol's "directer rays," I've Parasols to sell,
Of every price and color—they please the Ladies well—
And Umbrellas cheap for Gents, or so at least they say,
For lots of them get carried off, on every rainy day.

Such lots of Combs for the million, of every sort and kind,
To puff, or curl, or plait the hair, no better can you find;
And every kind of Buttons for dresses, coats and vests,
To sell by the gross or dozen—they are the very best.

And for Gentlemen and little Boys I have Fashionable Hats,
Silk, Beaver, Leghorn, Panama, and cloth and leather Caps;
And for infants, Hats with feathers and ribbons gay and bright,
And little Caps with tassels drab, orange, blue and white.

I have stacks of Linen, of yellow, brown and white,
And every other kind, of Summer Goods that's right
To make up into coats and pantaloons and vests—
As large a stock as any, that ever was brought West.

They say long advertisements, are not the oftenest read,
And that most may be meant, as oft, when least is said,
In view of this, I'll close my bill, and here invite you all,
Whenever you come to Janesville, be sure and give me a call.

A GREAT MISTAKE.

J. B. CROSBY & Co.

HAVE just returned from New York and Boston, and purchased so large a stock of Merchandise that they have not room to store them, and to remedy this, they have concluded to mark their goods down at

A TRIFLE ABOVE COST,

which will crowd their store with customers and ensure large and heavy sales, thus making room for goods yet to arrive. Ladies and Gentlemen,

THIS IS NO HUMBUG,

but a REALITY, and to be convinced of this fact personally, look through their immense stock, see the amount of goods they have in store, (and but a portion of their stock has yet arrived,) enquire the price, and you will acknowledge that we will sell you

GOOD GOODS, at nearly half the Price,

that other Merchants charge. We shall not mention a few leading articles and their prices, and sell the balance of stock at *higher rates,* as other Merchants do, but shall mark our whole stock at a small regular profit, and adhere strictly to the

ONE PRICE SYSTEM.

Our stock consists of STAPLE AND FANCY DRY GOODS, GROCERIES, CROCKERY, BOOTS AND SHOES, HATS, CAPS, CARPETS, OIL CLOTHS, READY-MADE CLOTHING, &c. &c., to which we invite especial attention, as to quality and price, as we are determined that

Every Sale shall give Full and Perfect Satisfaction.

Auction or shop worn goods which are not cheap at any price we do not deal in; but buy only the best grade of goods, and of the latest styles. We are the only House in Janesville that do a strictly cash business, and buying of importers and wholly for cash, we

CAN AND WILL SELL

CHEAPER AND BETTER GOODS,

than those who buy small stocks on time, and sell them the same way.

To Country Merchants,

We would say, that we will sell you goods at New York and Boston prices, adding freight. You will find us at the old stand of J. B. CROSBY, *two doors above the Post Office.*

1000 Dollars Reward,

WILL be given to any person—Physician or otherwise—who will perform a cure as quickly and permanently, by any means whatever, of any of the following diseases, as can be done by the use of

PULVERMACHER'S

Hydro-Electric Voltaic Chains.

Rheumatism,	Nervous Headache,
Painful and Swelled Joints,	Palpitation of the Heart,
Sciatica,	General Debility,
Paralysis,	Female Diseases,
Spinal Disease,	Neuralgia of the Face,
Deafness, Blindness,	Rheumatic Pains of the
Dyspepsia, Indigestion,	Chest

ALL NERVOUS DISEASES

Are almost instantly removed by the simple application of the Electric Chains, which are constructed so as to be worn next to the skin, producing a constant current of uninterrupted Electro-Magnetism, which within the last few years has been discovered to possess STRANGE and WONDERFUL POWER, in the INSTANT RELIEF and PERMANENT CURE of nervous diseases.

HISTORY.

Pulvermachers' Chain are presented to the public, as the most scientific and convenient mode of applying this powerful agent. They have been secured by patent in France, (where they were invented) England, Germany, Austria, Belgium, and one year since introduced into the United States, and also secured by patent. They are used in every Hospital in the State of New York, and highly recommended by professors Valentine Mott, Van Buren, Post, Carnochan, of that city, who daily make use of them in their practice.

THE WORLD IS CHALLENGED

to produce so many well authenticated certificates of cure, not only from intelligent patients, but from *scientific Physicians.* The sale now in New York is perfectly ASTONISHING, and thousands who visit the Crystal Palace where they are on exhibition, seldom fail to obtain a chain before they leave the city.

Thanks be to the common sense of the people who are beginning to become disgusted with the practice of making a Drug Shop of their stomach—swallowing bottle after bottle of sickening, disgusting trash, having no more effect in even relieving, much less curing, the disease for which they are recommended, than a Poor Man's Plaster applied to the top of the head would have in curing an infant of worms.

All these great and remarkable discoveries, by which every ill "which flesh is heir to" is eradicated from the earth—strange as it may seem—are made by men who are too *ignorant* to obtain a living by any other mode, and their knowledge of disease, its proper mode of cure, its cause, is just as extensive as an Arab's is of the mechanism of a steam engine. No intelligent person will deny the truth of this, and no Physician dare risk his reputation as an honest man, and declare that *nervous diseases* are not more frequently increased in severity than *relieved,* by the old antiquated way of giving medicine into the stomach. If people will only become sensible and think for themselves, and believe that physicians practice upon their credulity more than they have any idea of, pay strict attention to temperance in all things, (which means very much,) make free use of *pure cold water, internally and externally,* with an occasional dash of soap, sleep in freely ventilated rooms, retire early and rise early, be happy and cheerful, employ their physicians to tell them "they require no physic;"—by so doing health and happiness will increase, bottled molasses and water be at a discount, and its famous discoverers be consigned to their legitimate stations.

The Hydro-Electric chains are now for the first time offered to the people of Nashua, as being a *better, quicker, and safer mode* of curing all nervous diseases, than any other method or means hitherto discovered. They can be used by either a grown person or a child, are always ready for use, and with little care will last for years.

CAUTION.

Ladies who are *enciente,* are requested not to wear them, for by long use, miscarriage is apt to be produced.

Price of Chains, $3 to $5, and can be sent by mail to any part of the country, together with a pamphlet of 36 pages, containing the modes of use, certificates of cure, &c. J. STEINERT, General Agent, 563 Broadway, New York.
